The Last Transport Anthony McElligott, 2024-10-17 The deportation of 1 755 Jews from the islands of Rhodes and Cos in July 1944 shortly after the last deportation from Hungary was the last transport to leave Greece for Auschwitz and brought to a close the last significant phase of the genocide of Europe s Jews notwithstanding the death marches Within six weeks of their deportation the Germans were retreating from Greece and the Balkans as Hitler s empire shrank This last deportation is frequently acknowledged in Holocaust literature but its significance for our understanding of the Nazi genocide of the Jews remains largely overlooked The timing of the transport when it was clear to the German military elite that Nazi Germany had lost the war raises important questions in relation to long term ideological Nazi goals and the immediate contingency thrown up by war Anthony McElligott in this account of the last Greek transport of Jews to Auschwitz tells a compelling story of this previously underexplored event and sheds light on an important aspect of the Holocaust through an in depth study of one Eastern Mediterranean community

Shakespeare and the Italian Renaissance Michele Marrapodi, 2016-04-01 Shakespeare and the Italian Renaissance investigates the works of Shakespeare and his fellow dramatists from within the context of the European Renaissance and more specifically from within the context of Italian cultural dramatic and literary traditions with reference to the impact and influence of classical coeval and contemporary culture In contrast to previous studies the critical perspectives pursued in this volume s tripartite organization take into account a wider European intertextual dimension and above all an ideological interpretation of the aesthetics or politics of intertextuality Contributors perceive the presence of the Italian world in early modern England not as a traditional treasure trove of influence and imitation but as a potential cultural force consonant with

complex processes of appropriation transformation and ideological opposition through a continuous dialectical interchange of compliance and subversion

The Italian Emigration of Modern Times Patrizia Famà Stahle, 2016-04-26 The Italian Emigration of Modern Times examines diplomatic issues that arose between Italy and the United States over a series of lynchings of Italian immigrant labourers before World War I The work explores a significant epoch in Italian economic and diplomatic history which became intertwined with American ethnic and race relations issues On one level the book emphasises the pragmatism and restraint which characterized Italy's official reactions to these repeated episodes of murder of its nationals On another level it shows that the diplomatic crises which swirled around the lynching of Italians pushed onto the American political scene the question of whether there should be a federal anti lynching law Naturally the lynching of Italian nationals in the US produced wide public outrage in Italy Italian domestic outcries presented the Italian government with a serious dilemma Emigrant savings and financial transfers to family members remaining in Italy were an important economic asset Italian diplomats launched investigations and protested vigorously but ended up accepting federal financial compensation for the victims families The consistent pragmatism and restraint of the Italian government through these episodes of violence is the unifying theme of the entire work
