Patterns Of Dissonance Study Of Women And Contemporary Philosophy:

Patterns of Dissonance Rosi Braidotti, 2013-05-28 This book is a brilliant and timely analysis of the complex issues raised by the relation between women and philosophy. It offers a critical account of a wide range of contemporary philosophical and feminist texts and it develops this account into an original project of critical feminist thought. Braidotti examines contemporary French philosophy as practised by men such as Foucault and Derrida showing that they rely on a notion of the feminine in order to undermine classical thought which bears no direct relevance to the historical experience of women. Braidotti then looks at the attempts of contemporary feminist thinkers in Europe and the United States to show the gendered nature of discursive power games. She discusses the contributions of Luce Irigaray and many other feminist theorists to the understanding of sexual difference and of its implications for philosophy and politics. This book will be of interest to students and researchers in women's studies, feminist theory, social theory, cultural studies, philosophy and literature and anyone interested in contemporary feminism and the relation between feminist theory, post-structuralism and psychoanalysis.

Patterns of Dissonance Rosi Braidotti, 1991 *Women's Intercultural Performance* Julie Holledge, Joanne Tompkins, 2002-01-04 This is the first in-depth examination of contemporary intercultural performance by women around the world. Contemporary feminist performance is explored in the contexts of current intercultural practices, theories and debates. Holledge and Tompkins provide ways of thinking about and analysing contemporary performance and representations of the performing female, culturally marked body. The book includes discussions of ritual performance by women from Central Australia and Korea, the cultural exchange of *A Doll's House* and *Antigone* plays from Algeria, South Africa and Ghana, the work of the Takarazuka revue company, the market forces that govern the distribution of women and women's performance. This is an essential read for anyone studying or interested in women's performance.

The Subject of Rosi Braidotti Bolette Blaagaard, Iris van der Tuin, 2014-09-25 *The Subject of Rosi Braidotti: Politics and Concepts* brings into focus the diverse influence of the work of Rosi Braidotti on academic fields in the humanities and the social sciences such as the study and scholarship in, among others, feminist theory, political theory, continental philosophy, philosophy of science and technology, cultural studies, ethnicity and race studies. Inspired by Braidotti's philosophy of nomadic relations of embodied thought, the volume is a mapping exercise of productive engagements and instructive interactions by a variety of international outstanding and world-renowned scholars with texts and concepts developed by Braidotti throughout her immense body of work. In Braidotti's work, traversing themes of engagements emerge of politics and philosophy across generations and continents. Therefore, the edited volume invites prominent scholars at different stages of their careers and from around the world to engage with Braidotti's work in terms of concepts and/or political practice.

Women in Western and Eastern Manichaeism, 2022-07-18 The exceptional place women held in Manichaeism in everyday life or myth is the object of this book. Relying on firsthand Manichaean texts in several languages and on polemical sources as well as on

iconography the various papers analyze aspects of women's social engagement by spreading Mani's doctrine working to support the community or corresponding with other Manichaean groups Topics such as women's relation to the body and elect or hearer status are also investigated The major role played by female entities in the myth is enlightened through occidental and oriental texts and paintings discovered in Central Asia and China *Engendering Origins* Bat-Ami Bar On,1994-01-01 This book introduces feminist voices into the study of Platonic and Aristotelian texts that modern Western philosophy has treated as foundational The book concerns the extent to which Platonic and Aristotelian texts are unredeemably sexist masculinist or phallogocentric

Third Wave Feminism S. Gillis,G. Howie,R. Munford,2007-04-17 This revised and expanded edition new in paperback provides a definitive collection on the current period in feminism known by many as the third wave Three sections genealogies and generations locales and locations politics and popular culture interrogate the wave metaphor and through questioning the generational account of feminism indicate possible future trajectories for the feminist movement New to this edition are an interview with Luce Irigaray a foreword by Imelda Whelehan as well as newly commissioned chapters

Women, Pleasure and the Gambling Experience Emma Casey,2016-02-17 Drawing on a broad range of historical and sociological literature this book traces the everyday gambling experiences of a diverse group of women It provides fascinating and original insights into the pleasures afforded to women through their gambling participation and draws on a variety of feminist literature to understand women's motivations and experience of play and to examine the ways in which women negotiate their right to gamble without reprimand Since gambling tends to be framed within moral discourses of danger and excess this book offers a defence of women's decisions to gamble against an often hostile backdrop It rewrites claims that gambling is meaningless and reckless spending by pointing instead to the highly complex strategies that women who gamble employ Importantly it adds to contemporary feminist debates about women's leisure by showing how women seize control of their lives in order to carve out a time and space for the pursuit of pleasure

Subversive Women Saskia Wieringa,1995-09-04 This anthology of feminist writing demonstrates the complexity and diversity of women's movements worldwide The book opens with an analysis of women's history as subversion and the methodological aspects of feminist research projects Individual contributors look at the experience of their own countries and explore feminism as it is defined in the North and the South

Bits of Life Anneke M. Smelik,Nina Lykke,2010-07-01 Since World War II the biological and technological have been fusing and merging in new ways resulting in the loss of a clear distinction between the two This entanglement of biology with technology isn't new but the pervasiveness of that integration is staggering as is the speed at which the two have been merging in recent decades As this process permeates more of everyday life the urgent necessity arises to rethink both biology and technology Indeed the human body can no longer be regarded either as a bounded entity or as a naturally given and distinct part of an unquestioned whole *Bits of Life* assumes a posthuman definition of the body It is grounded in questions about today's biocultures which pertain

neither to humanist bodily integrity nor to the anthropological assumption that human bodies are the only ones that matter. Editors Anneke Smelik and Nina Lykke aid in mapping changes and transformations and in striking a middle road between the metaphor and the material. In exploring current reconfigurations of bodies and embodied subjects the contributors pursue a technophilic yet critical path while articulating new and thoroughly appraised ethical standards.
