The Last Puritans Margaret Bendroth, 2015-08-12 Congregationalists the oldest group of American Protestants are the heirs of New England s first founders While they were key characters in the story of early American history from Plymouth Rock and the founding of Harvard and Yale to the Revolutionary War their luster and numbers have faded But Margaret Bendroth s critical history of Congregationalism over the past two centuries reveals how the denomination is essential for understanding mainline Protestantism in the making Bendroth chronicles how the New England Puritans known for their moral and doctrinal rigor came to be the antecedents of the United Church of Christ one of the most liberal of all Protestant denominations today The demands of competition in the American religious marketplace spurred Congregationalists Bendroth argues to face their distinctive history By engaging deeply with their denomination s storied past they recast their modern identity The soul searching took diverse forms from letter writing and eloquent sermonizing to Pilgrim celebrating Thanksgiving pageants as Congregationalists renegotiated old obligations to their seventeenth century spiritual ancestors The result was a modern piety that stood a respectful but ironic distance from the past and made a crucial contribution to the American ethos of religious tolerance

Reinventing Eden Carolyn Merchant, 2013 Visionary quests to return to the Garden of Eden have shaped Western culture from Columbus voyages to today s tropical island retreats Few narratives are so powerful and as Carolyn Merchant shows so misguided and destructive as the dream of recapturing a lost paradise A sweeping account of these quixotic endeavors by one of America s leading environmentalists Reinventing Eden traces the idea of rebuilding the primeval garden from its origins to its latest incarnations in shopping malls theme parks and gated communities With eloquence and insight Merchant shows how the drive to conquer nature and

to explore and settle the globe springs from this utopian pastoral impulse throughout Western history Time and again human manipulation of the environment is our downfall Eden is achieved by fencing off pristine beauty in national parks and wildlife preserves while leaving the majority of the earth in ruins Challenging both narratives Merchant argues that the green veneer of city park conservation has become a cover for the corruption of the earth and the neglect of its environment Reinventing Eden is a bold new way to think about the earth that includes green political parties sustainable development and a partnership between humans and earth that is nothing short of an ecological revolution Living History Museums Scott Magelssen, 2007-02 Living History Museums Undoing History Through Performance examines the performance techniques of Living History Museums cultural institutions that merge historical exhibits with costumed live performance Institutions such as Plimoth Plantation and Colonial Williamsburg are analyzed from a theatrical perspective offering a new genealogy of living museum performance
