Population And Economy From The Traditional To The Modern World:

Events That Formed the Modern World Frank W. Thackeray, John E. Findling, 2012-05-31 This comprehensive five volume set contains readable essays that describe and interpret the most important global events since the European Renaissance some accompanied by related document excerpts and primary source materials What were the effects of the Age of Exploration on today's ethnic groups and social structure How did the development of moveable type pave the way for Facebook and Twitter Why is the Reformation so critical for understanding today's religious controversies This set will help readers answer these questions by exploring the most significant historical events of the modern world This five volume set covers times from the Renaissance to the present Each volume focuses on a specific historic period and examines 12 events within those time frames that changed the world Each entry provides an introduction that lays out factual material in a chronological manner an in depth essay interpreting the event's significance and an annotated bibliography of the most important current works on the topic Select entries are followed by primary sources pertaining to the event under consideration such as diary entries Targeted to both general readers as well as entry level university students this book also directly supports high school and undergraduate curricula allowing students to identify and contextualize events in order to think critically about their causes aftermath and legacy *The Cambridge Companion to the Roman Economy* Walter Scheidel, 2012-11-08 Thanks to its exceptional size and duration the Roman Empire offers one of the best opportunities to study economic development in the context of an agrarian world empire This volume which is organised thematically provides a sophisticated introduction to and assessment of all aspects of its economic life *Shakespeare and Domestic Loss* Heather Dubrow, 2004-01-05 This 1999 book examines Shakespeare's engagement with forms of deprivation which threatened domestic security in early modern England **The Population History of England 1541-1871** E. A. Wrigley, R. S. Schofield, 1989-10-12 This was the first paperback edition of a classic work of recent English historiography first published in 1981 In analysing the population of a country over several centuries the authors qualify confirm or overturn traditional assumptions and marshal a mass of statistical material into a series of clear lucid arguments about past patterns of demographic behaviour and their relationship to economic trends The Population History of England presents basic demographic statistics monthly totals of births deaths and marriages and uses them in conjunction with new methods of analysis to determine population size gross production rates expectation of life at birth age structure and net migration totals The results make it possible to construct a new model of the interplay of economic and demographic variables in England before and during the industrial picture of English population trends between 1541 and 1871 is a remarkable achievement and in a short preface the authors consider the debate engendered by the book the impact of which has been felt far beyond the traditional disciplinary confines of historical demography **Historical Geography of England and Wales** Robert A. Dodgshon, Robin A. Butlin, 2013-10-22 This text has been designed to cover all aspects and phases of the historical geography

of England and Wales in a single volume In its substantially revised and enlarged form the treatment of standard themes has been completely re written to take account of recent work and shifts in viewpoint while its overall coverage has been extended to embrace newer themes like symbolic landscapes and the geography of the inter war period Its comprehensiveness and freshness of approach ensure its continuing value and success as a text Breadth of coverage from prehistory to 1939 Uses a range of data sources and approaches Well illustrated with particular emphasis on key themes Major revision of 1st edition with much wider range of topics *Modernity: Modernization* Malcolm Waters,1999 V 1 Modernization V 2 Cultural modernity V 3 Modern system V 4 After modernity The Cambridge Economic History of the Modern World: Volume 1, 1700 to 1870 Stephen Broadberry,Kyoji Fukao,2021-06-24 The first volume of The Cambridge Economic History of the Modern World traces the emergence of modern economic growth in eighteenth century Britain and its spread across the globe Focusing on the period from 1700 to 1870 a team of leading experts in economic history offer a series of regional studies from around the world as well as thematic analyses of key factors governing the differential outcomes in different parts of the global economy Topics covered include population and human development capital and technology geography and institutions living standards and inequality international flows of trade and labour the international monetary system and war and empire **Institutions, Sustainability, and Natural Resources** Shashi Kant,R. Albert Berry,2005-09-06 This work proposes that new economic theory rather than a new public policy based on old theory is needed to guide humanity toward sustainability The book includes the ideas from old as well as new institutional economics discussed in detail by leading experts in the field This book follows a companion work Economics Sustainability and Natural Resources Economics of Sustainable Forest Management volume 1 of the series Indentured to Liberty Peter Keir Taylor,1994 Taylor reconstructs the world of these peasants and their families *Procreation and Population in Historical Social Science* Daniela Danna,2021-08-03 The book sees procreation the forgotten basis of population dynamics and its macrohistorical results through the lenses of world system analysis in a nondogmatic way This interdisciplinary book sheds light on the historical paths leading to the current unprecedented numbers of humans on the globe fuelled by the capitalist demand for labor and mediated by the role of women in society Procreation and Population is a critical text opposing the current disciplinary fences that demonstrably hinder our comprehension of social phenomena Attentive to gender relations the book boldly tracks the big picture of population dynamics and its most reliable theories in times of postmodernist taboos on generalizations and on the search for the historical laws of human society **A Rural Society After the Black Death** Lawrence Raymond Poos,L. R. Poos,2004-01-29 A Rural Society after the Black Death is a study of rural social structure in the English county of Essex between 1350 and 1500 It seeks to understand how in the population collapse after the Black Death 1348 1349 a particular economic environment affected ordinary people s lives in the areas of migration marriage and employment and also contributed to patterns of religious nonconformity agrarian riots and unrest

and even rural housing The period under scrutiny is often seen as a transitional era between medieval and early modern England but in the light of recent advances in English historical demography this study suggests that there was more continuity than change in some critically important aspects of social structure in the region in question Among the most important contributions of the book are its use of an unprecedentedly wide range of original manuscript records estate and manorial records taxation and criminal court records royal tenurial records and the records of church courts wills etc and its application of current quantitative and comparative demographic methods

Agriculture and the Onset of Political Inequality Before the Inka Christine A. Hastorf, 1993 The nature of power and political diversity is examined in the Andean region of central Peru

Max Weber's Economic Ethic of the World Religions Thomas C. Ertman, 2017-03-24 This book brings together for the first time in English internationally recognized specialists who seek to identify what is living and what is dead in the great German social scientist Max Weber's analyses of China India and Ancient Israel found in his massive unfinished *Economic Ethic of the World Religions* In so doing the volume offers a powerful new perspective on the current debate concerning the timing of and deeper roots of the Great Divergence and more recent convergence in the economic and political development of the West on the one hand and the great civilizations of Asia on the other At the same time this volume also rebalances our understanding of Weber's entire intellectual output by returning *The Protestant Ethic and the Spirit of Capitalism* to its proper place within *Economic Ethic of the World Religions* and establishing that work as the equal of the similarly unfinished *Economy and Society*

World History Steven Wallech, Touraj Daryaei, Craig Hendricks, Anne Lynne Negus, Peter P. Wan, Gordon Morris Bakken, 2013-01-22 *World History A Concise Thematic Analysis* presents the highly anticipated second edition of the most affordable and accessible survey of world history designed for use at the college level This text offers a comparative analysis of great civilizations of Eurasia Africa and the Americas in an engaging narrative that contextualizes history instead of drowning students in a sea of facts Themes addressed include population dynamics food production challenges disease history warfare and others Instructor resources are available online for this text This new edition of *World History A Concise Thematic Analysis* features a newly designed interior organization to enhance navigation and comprehension of the material An instructor's test bank is available online

Population, Tradition, and Environmental Control in Colonial Kenya Martin S. Shanguhya, 2015 Examines land management programs pushed by the colonial government in western Kenya between 1920 and 1963 analyzing how those programs were negotiated or contested by the local community

The Anthropology of Complex Economic Systems Niccolò Leo Caldararo, 2013-11-14 Today we live in what Ulrich Beck has aptly characterized as a risk society shaped by intensifying crises outside of our control and seemingly outside of our comprehension The master narrative that was supposed to lead us to secular salvation economics has proved to be a large part of the problem rather than the much anticipated solution In *The Anthropology of Complex Economic Systems* Niccolò Caldararo offers a much more radical and challenging answer that the

fundamental assumptions on which the modern science of economics has been erected are false and that it is through the medium of anthropology particularly the relatively neglected field of economic anthropology that an alternative and sound basis for both the understanding of economic behavior and for the shaping of economic futures can be constructed Caldararo not only challenges the foundational assumptions of conventional economic theory but situates economic behavior something quite different and universal amongst human beings in both a historical and an ecological context Contemporary discussions of sustainability especially in the field of development studies have oddly neglected to look to anthropology Economic anthropology is the repository of a vast store of wisdom both about actual alternative and workable economic systems and about their evolution By drawing on this source Caldararo builds a model of the evolution of human economies which stir up substantial debate shows how economic anthropology provides a tool for the interrogation of economic theory and ties economics to ecology It has been the rupture of this fundamental relationship that lies at the basis of much of our present crisis and the unsustainable economic patterns that humans have created By bringing together in a new configuration economic anthropology ecology and culture history Caldararo not only proposes a new model of human social evolution but equally importantly creates a methodology for speaking to and against our present economic and environmental situation

Сборник статей I межвузовской студенческой научно-практической конференции «Unbalanced Global Economy And Rising Risks» Сборник статей, 2016-06-30 **Unbalanced Global Economy and Rising Risks** **Population Change and European Security** Lawrence Freedman, John Saunders, 1991 The conclusion underlines how widely population size can impact the broad canvas of the sociological political and strategic scene The widening North South divide seems likely to spawn an era of frequent localised and painful encounters in which the technological advantages possessed by the West will not necessarily prevail in the way they did in the Gulf War That mass armies may now be becoming obsolete in the West as technology compensates for numerical inferiority may on the evidence of this book be just as well **BOOK JACKET** Population Geography Huw Roland Jones, 1990-12-15 Illustrated with a wide range of case studies drawn from all parts of the world **POPULATION GEOGRAPHY** clearly depicts the cause and effect links between demographic change and the socio economic transformation of societies Providing timely information in a clear and accessible style the text is an ideal classroom text for instructors who are introducing their students to the topic of population geography **Contagion Capitalism** Sean Creaven, 2023-12-15 **Contagion Capitalism** situates the COVID 19 pandemic within the systems of global political economy and their attendant cultural modes and theorizes that these systems act as facilitators and drivers of global pandemic risk **Contagion Capitalism** therefore critiques the institutionalized corporate capitalist control of the economy the state and science and the grave consequences this has on global public health policy the ecological crisis of sustainability and zoonotic pandemic events such as COVID 19 In doing so this book addresses the failings of what may be termed as state science or establishment science in managing the pandemic as personified especially by those elements of the scientific elite

placed in the service of the neoliberal state This book also explores the limitations of corporate pharmacological technoscience in safeguarding public health arguing that Big Pharma offers only partial remedies for problems of human illness and well being poses its own dangers to public health and obfuscates the social bases of public ill health and of pandemic risk Contagion Capitalism further argues that COVID 19 will not be the last or even the most dangerous such epidemiological event This is because the social production and global dissemination of zoonotic diseases is integral to contemporary capitalism by virtue of its instrumental mode of science its central dynamic of production for the sake of accumulation and the consumer mode this sustains as its own condition of existence These are the drivers of what may be termed as zoonotic accelerationism Contagion Capitalism will appeal to scholars in the humanities and social sciences with interests in neoliberal ideology and global political economy and their impact upon social political and cultural life
