*Rational Expectations in Macroeconomics* C. L. F. Attfield, David Demery, N. W. Duck, 1985      *Rational Expectations in Macroeconomics* C. L. F. Attfield, D. Demery, N. W. Duck, 1987      *Theory of Macroeconomic Policy* Christopher Tsoukis, 2020-10-22

Theory of Macroeconomic Policy reviews the theoretical foundations of macroeconomic fiscal and monetary policy. It offers a panoramic view of macroeconomic theory covering a wide range of topics that are not customarily dealt with in macroeconomics texts as well as more standard material. Advanced theory is bridged with more elementary or intermediate material and established models are reviewed alongside current research directions. There is an extensive review of empirical evidence on virtually every topic supplemented by narrative accounts for various episodes. The policy implications of the various theories are emphasised throughout. The chapters are largely self-contained so that different courses can focus at different places. A Guidance for Further Study Section and extensive bibliography give plenty of ideas for all levels of independent study from Undergraduate Projects to MSc Dissertations to PhD Theses. Theory of Macroeconomic Policy presents a balance between breadth as well as depth analytical treatment and intuition theory and evidence vintage theories and current directions theory and policy established theory and debate. Theory of Macroeconomic Policy is an affirmation that there is a well developed body of theory that is invaluable for an in depth understanding of the macro economy and policy equally there is much scope for critical discussion and debate.

The Psychology of Saving Karl Erik Wärneryd, 1999-01-01 Some people save and others with similar incomes and wealth do not. Why? Whilst psychology has devoted little attention to the forward looking dimension of human behavior it contributes theories and techniques for studying the cognitive motivational and social factors that affect saving. The book examines the assumption that man is forward looking and desires to provide for the future. It summarizes theories and behavioral research in the area of saving and explores the psychological insights and findings of economists and interprets them in terms of modern psychology. The Psychology of Saving will be welcomed as a major contribution to economic psychology which brings together research and analysis developing our understanding about rationality expectations and consumer behavior.

Propp, 2012-11 Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science It's an election year and as a young progressive in California who has been raised by equally progressive parents he is very much concerned with the political issues currently being discussed in the mass media A chance encounter with a fellow graduate named Kelly Kelso however shakes up his settled view of the world He is challenged to examine the rising number of alternatives to the two party system presented by third party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rand's philosophy of Objectivism His explorations grow wider now encompassing the Tea Party movement and the Christian Right tax resisters and gun rights advocates survivalists and militia members anarchists communists and Democratic Socialists as well as the Occupy Wall Street movement He debates the radical environmental

views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved
