Rational Spirituality:

Rational Spirituality and Divine Virtue in Plato Michael LaFargue, 2016-04-28 Michael LaFargue presents an important and accessible aspect of Plato's legacy largely overlooked today: a variety of personal spirituality based on reason and centered on virtue. Plato's Virtue Forms are transcendent in their goodness; ideals that Platonists can use to improve character and become like God so far as is humanly possible. LaFargue constructs a model of inductive Socratic reasoning capable of acquiring knowledge of these perfect Virtue Forms, then scales back claims about these Forms to what can be supported by this kind of reasoning. This is a critical theory but also a pluralistic one that accommodates modern cultural diversity. A how-to chapter provides detailed descriptions of the rules of Socratic reasoning basic to this spirituality, which any interested individual can practice today. LaFargue supports his interpretation by a close reading of the Greek text of key passages in Plato's dialogues. The work also undertakes a broader philosophical consideration, discussing the philosophical foundations proposed for this Platonism in relation to the thought of G. E. Moore, Ludwig Wittgenstein, Martin Heidegger, Friedrich Nietzsche, and Richard Rorty.

Integral Spirituality Ken Wilber, 2007-11-13 This cutting-edge theory of spirituality for today's global society honors the truths of modern science and postmodern culture while incorporating the wisdom of the great world religions. Applying his highly acclaimed integral approach, Ken Wilber formulates a theory of spirituality that honors the truths of modernity and postmodernity, including the revolutions in science and culture while incorporating the essential insights of the great religions. He shows how spirituality today combines the enlightenment of the East, which excels at cultivating higher states of consciousness, with the enlightenment of the West, which offers developmental and psychodynamic psychology. Each contributes key components to a more integral spirituality. On the basis of this integral framework, a radically new role for the world's religions is proposed. Because these religions have such a tremendous influence on the worldview of the majority of the earth's population, they are in a privileged position to address some of the biggest conflicts we face. By adopting a more integral view, the great religions can act as facilitators of human development, from magic to mythic to rational to pluralistic to integral, and to a global society that honors and includes all the stations of life along the way.

Rationalist Spirituality Bernardo Kastrup, 2011-03-16 Why does the universe exist, and what are you supposed to do in it? This question has been addressed by religions since time immemorial, but popular answers often fail to account for obvious aspects of reality. Indeed, if God knows everything, why do we need to learn through pain and suffering? If God is omnipotent, why are we needed to do good? If the universe is fundamentally good, why are wars, crime, and injustice all around us? In modern society, orthodox science takes the rational high ground and tackles these contradictions by denying the very need for and the existence of meaning. Indeed, many of us implicitly accept the notion that rationality somehow

contradicts spirituality That is a modern human tragedy not only for its insidiousness but for the fact that it is simply not true In this book the author constructs a coherent and logical argument for the meaning of existence informed by science itself A framework is laid out wherein all aspects of human existence have a logical coherence

Critical Realism and Spirituality Mervyn Hartwig, Jamie Morgan, 2013-03-01 Critical Realism and Spirituality contextualizes delineates explores and critiques the turn to spirituality and religion in critical realism which has been under way since the mid 1990s as well as telling its story It provides incisive discussion and analysis of the following broad questions How does critical realism allow and facilitate the resolution of problems in the area of comparative religion Can it help you to justify your own faith or belief What are the implications of the new philosophy of meta Reality for traditional religious studies and how we organize and conduct our lives A range of distinguished critical realists theological critical realists and scholars working with related approaches Roland Benedikter Roy Bhaskar Terry Eagleton Mervyn Hartwig Alister McGrath Markus Molz Jamie Morgan Andrew Wright and others bring their talents to bear on this task While their personal beliefs span the whole spectrum from theism to atheism they are united by the desire to open up a space for dialogue of one kind or another intra faith inter faith and or extra faith promoting mutual understanding respect and the unity and capability for collective emancipatory action on a global scale that humanity is so sorely in need of This book is therefore essential reading for students and academics alike in Religious Studies Theology and Philosophy

Boomeritis Ken Wilber, 2003-09-09 Ken Wilber's latest book is a daring departure from his previous writings a highly original work of fiction that combines brilliant scholarship with tongue in cheek storytelling to present the integral approach to human development that he expounded in more conventional terms in his recent *A Theory of Everything* The story of a naive young grad student in computer science and his quest for meaning in a fragmented world provides the setting in which Wilber contrasts the alienated flatland of scientific materialism with the integral vision which embraces body mind soul and spirit in self culture and nature The book especially targets one of the most stubborn obstacles to realizing the integral vision a disease of egocentrism and narcissism that Wilber calls boomeritis because it seems to plague the baby boomer generation most of all Through a series of sparkling seminar lectures skillfully interwoven with the hero's misadventures in the realms of sex drugs and popular culture all of the major tenets of extreme postmodernism are criticized and exemplified including the author's having a bad case of boomeritis himself Parody intellectual slapstick and a mind twisting surprise ending unite to produce a highly entertaining summary of the work of cutting edge theorists in human development from around the world

Rational Spirituality Andy C. Reese, 2005-02 [Society, Spirituality, and the Sacred](#) Donald Swenson, 2009-01-01 This work makes a much needed contribution to teaching and learning about the various forms of religious belief and action in our world Kevin J Christiano University of Notre Dame

Pagan Portals - Spirituality Without Structure Nimue Brown, 2013-11-29 Many people crave a spiritual life without wanting to belong to rigid religions with the almost unavoidable power structures and politics that involves This book explores how to construct your own

spiritual path considering the implications of seeking a spiritual life without wanting organised religion to dominate it As such it has applications for Pagans atheists agnostics heretics from any mainstream faith and seekers of all kinds **The Return of Ethics and Spirituality in Global Development** Mahmoud Masaeli,Rico Sneller,2020-06-02 The theory of modernization basically reduces the meaning of development to economic growth often measured by Growth Domestic Product of the country or overall purchase power parity of the nation This approach ignores the variety of perspectives on development hence excludes the role of culture identity and spirituality as social determinants of good development More importantly modernization theory which informs the mainstream view on development ignores the structural causes of underdevelopment including colonial heritage or the current unbridled capitalism in many societies Against reductionist views of development fundamental questions are raised about the theory and programming of development From what perspective is the conception of development perceived Who should decide and depict development goals What kind of development could result in desirable changes Is it morally desirable to dictate an exclusively Western understanding of development to others Is there any link between development and a right of nations to self determination Who is morally accountable for global inequality or bad development The novelty of this book lies in its multidisciplinary approach in exploring the role of ethics and spirituality as the curing alternates for the gamut of ills which originate in global inequality All authors are academics based in a variety of countries and specialize in questions concerning development and spirituality

The Book of the Soul Ian Lawton,2004 Rational spirituality surely this is a contradiction in terms How can spirituality be rational when it relies on faith and revelation The simple answer is it does not have to any more Modern science tells us there is far more to the universe than the physical world we all perceive And the explanation that most closely fits the facts for a range of verifiable phenomena from near death experiences to past life memories is that the soul exists separately from the physical body and reincarnates repeatedly This book could only have been written in the twenty first century because it uses the latest breakthroughs in scientific and psychological research to produce a truly revolutionary view of spirituality By comparing this modern evidence with thousands of years of spiritual traditions it finally provides rational answers to some of the most significant and intriguing questions ever posed by the human race What experiences do we have in the interlife between incarnations Do we plan all the major circumstances of our lives both good and bad How does karma operate Does it really involve action and reaction Can we be punished in the ways that traditional religions suggest What practical steps can we take to ensure our karma is progressive rather than repetitive Piece by piece this book uncovers startling evidence to support a scientific and rational belief in reincarnation and the interlife It brings together a wide range of research including the incredible insights of thousands of ordinary regression subjects in a logical objective way to produce a major breakthrough in our approach to spirituality No one who reads this book will ever view life in the same way again The spiritual worldview it describes is coherent and rational and has the capability to propel humanity forwards to previously

unexplored levels if only we will let it **The Felt Meanings of the World** Quentin Smith,1986 In a critical dialogue with the metaphysical tradition from Plato to Hegel to contemporary schools of thought the author convincingly argues that traditional rationalist metaphysics has failed to accomplish its goal of demonstrating the existence of a divine cause and moral purpose of the world To replace the defective rationalist metaphysics the author builds a new metaphysics on the idea that moods and affects make manifest the world s felt meanings he argues that each feature of the world is a felt meaning in the sense that each feature is a source of a feeling response if and when it appears The author asserts that we must synthesize our two ways of knowing poetic evocations and exact analyses in order to decide which mood or affect is the appropriate appreciation of any given feature of the world Smith gives evocative and exact explications of such features as the world s temporality appearance and mind independency as these features appear in the appropriate recitations

Religion in the Age of Re-Globalization Roland Benedikter,2021-12-13 This book provides a concise introduction into twenty one trends that are transforming the role of religion and spirituality in re globalizing societies In referring to processes of re globalization the book draws attention to profound ongoing changes in the patterns and mechanisms of contemporary globalization Inter and transdisciplinary in its approach clearly structured and easy to read the book analyzes the impact of religious self understanding rhetoric and practice on five core fields economics politics culture demography and technology In turn it describes the effects of these five fields on religion and spirituality themselves This book represents a broad encompassing overview of the main transformations that religion is undergoing today Roland Benedikter combines a big picture approach with a keen attention to the details of specific case studies With its clear and accessible structure and timely examples this book is ideally suited for students of international relations and religious studies and will also appeal to researchers engaged in those fields and to interested general readers The book is also apt to serve as an encompassing basis for contemporary debates in civil society including both grassroots and expert discussions Religion, Truth, and Social Transformation Lambert Zuidervart,2016-04-01 Reformational philosophy rests on the ideas of nineteenth century educator church leader and politician Abraham Kuyper and it emerged in the early twentieth century among Reformed Protestant thinkers in the Netherlands Combining comprehensive criticisms of Western philosophy with robust proposals for a just society it calls on members of religious communities to transform harmful cultural practices social institutions and societal structures Well known for his work in aesthetics and critical theory Lambert Zuidervart is a leading figure in contemporary reformational philosophy In Religion Truth and Social Transformation the first of two volumes of original essays from the past thirty years he forges new interpretations of art politics rationality religion science and truth In dialogue with modern and contemporary philosophers among them Immanuel Kant G F H Hegel Martin Heidegger Theodor Adorno J rgen Habermas and reformational thinkers such as Herman Dooyeweerd Dirk Vollenhoven and Hendrik Hart Zuidervart explains and expands on reformational philosophy s central themes This interdisciplinary collection offers a normative critique of societal

evil a holistic and pluralist conception of truth and a call for both religion and science to serve the common good Illustrating the connections between philosophy religion and culture and daring to think outside the box Religion Truth and Social Transformation gives a voice to hope in a climate of despair **Nation and Religion** Peter van der Veer,Hartmut Lehmann,2020-10-06 Does modernity make religion politically irrelevant Conventional scholarly and popular wisdom says that it does The prevailing view assumes that the onset of western modernity characterized by the rise of nationalism the dominance of capitalism and the emergence of powerful state institutions favors secularism and relegates religion to the purely private realm This collection of essays on nationalism and religion in Europe and Asia challenges that view Contributors show that religion and politics are mixed together in complex and vitally important ways not just in the East but in the West as well The book focuses on four societies India Japan Britain and the Netherlands It shows that religion and nationalism in these societies combined to produce such notions as the nation being chosen for a historical task imperialism for example the possibility of national revival and political leadership as a form of salvation The volume also examines the qualities of religious discourse and practice that can be used for nationalist purposes paying special attention to how religion can help to give meaning to sacrifice in national struggle The book s comparative approach underscores that developments in colonizing and colonized countries too often considered separately are subtly interrelated In addition to the editors the contributors are Benedict R Anderson Talal Asad Susan Bayly Partha Chatterjee Frans Groot Harry Harootunian Hugh McLeod Barbara Metcalf and Peter van Rooden **The Apocalypse Explained According to the Spiritual Sense in which the Arcana There Predicted But Heretofore Concealed are Revealed** Emanuel Swedenborg,1889 **How To Study The Sacred: An Introduction To Religious Studies** Andrea Diem-Lane,2014-05-29 Why do we find historians psychologists sociologists anthropologists even neurologists so interested in religion in the first place Perhaps it is because religion is less about God than it is about human beings representing our psycho social emotional biological state our cultural values and our overall history The purpose of this book is to introduce the student to the main questions in religious studies and to survey some of the dominant theories drawing from a variety of disciplines In sum it is a short introduction to the field of religious studies *The Apocalypse Explained According to the Spiritual Sense* Emanuel Swedenborg,1894 *The Perception of Christianity as a Rational Religion in Singapore* Clive S. Chin,2017-03-23 This book evaluates the common criticism that Christianity in Asia is westernized Since the 1980s Asian evangelical theologians and missiologists argue that the intrusion of Western theology is responsible for the Western and hence alien expressions of Christianity in Asia Yet in Singapore the number of Christians has increased over the last few decades Empirical evidence demonstrates that younger Chinese Singaporeans convert from Buddhism or Taoism to Christianity partly because they perceive it as a rational religion over Buddhism or Taoism which are viewed as irrational or superstitious Not only do many converts favor Christianity as a rational religion but they do not regard Christianity as a Western religion at the point of their conversion What accounts for

those recent developments This study explores the processes of modernization and globalization as important factors impacting religious change in Singapore Personal contextual and structural elements actually influence one's religion of choice In facilitating effective mission one must qualify the use of the categories Asian and Western because religious and cultural boundaries overlap What matters most in missiology is discerning how the gospel of Jesus Christ engages the self understanding and lived realities of ethnic and religious others in diverse cultural settings
