Rationality In Question On Eastern And Western Views Of Rationality:

Interpretation in Religion Šelomo Bîderman, Ben-Ami Scharfstein, Interpretation in Religion is the work of a group of contemporary American European and Israeli scholars and philosophers who analyze the crucial course of interpretation in religion religion in general and in particular Hinduism ancient Egyptian religion Judaism christianity and Islam

Rationality in Question Biderman, Scharfstein, 2024-03-04 *Rationality in Question* Shlomo Biderman, Ben-Ami Scharfstein, 1989 *Spirituality for the Skeptic* Robert C. Solomon, 2006-12-04 By examining the ideas of great thinkers from Kafka to Socrates this text arrives at an alternative vision of spirituality one that is non dogmatic and practical that should appeal to many seekers looking to make sense of the human condition Morality and Social Justice James P. Sterba, 1995 These original essays by seven leading contemporary political philosophers spanning the political spectrum explore the possibility of achieving agreement in political theory Each philosopher defends in a principal essay his or her own view of social justice and also comments on two or more of the other essays The result is a lively exchange that leaves the reader to judge to what degree the contributors achieve agreement or reconciliation The Difficulty of Being Good Gurcharan Das, 2010-10-04 Why should we be good How should we be good And how might we more deeply understand the moral and ethical failings splashed across today s headlines that have not only destroyed individual lives but caused widespread calamity as well bringing communities nations and indeed the global economy to the brink of collapse In *The Difficulty of Being Good* Gurcharan Das seeks answers to these questions in an unlikely source the 2 000 year old Sanskrit epic Mahabharata A sprawling witty ironic and delightful poem the Mahabharata is obsessed with the elusive notion of dharma in essence doing the right thing When a hero does something wrong in a Greek epic he wastes little time on self reflection when a hero falters in the Mahabharata the action stops and everyone weighs in with a different and often contradictory take on dharma Each major character in the epic embodies a significant moral failing or virtue and their struggles mirror with uncanny precision our own familiar emotions of anxiety courage despair remorse envy compassion vengefulness and duty Das explores the Mahabharata from many perspectives and compares the successes and failures of the poem s characters to those of contemporary individuals many of them highly visible players in the world of economics business and politics In every case he finds striking parallels that carry lessons for everyone faced with ethical and moral dilemmas in today s complex world Written with the flair and seemingly effortless erudition that have made Gurcharan Das a bestselling author around the world and enlivened by Das s forthright discussion of his own personal search for a more meaningful life *The Difficulty of Being Good* shines the light of an ancient poem on the most challenging moral ambiguities of modern life **A Comparative History of World Philosophy** Ben-Ami Scharfstein, 1998-01-01 Breaks through the cultural barriers between Western Indian and Chinese philosophy and demonstrates that despite considerable differences between these three great philosophical traditions there are fundamental resemblances in their abstract principles **Textuality**

and Inter-textuality in the Mahabharata Pradeep Trikha, 2006 Papers presented at the National Seminar on Textuality and Intertextuality in the Mahabharata Myth Meaning and Metamorphosis held at Ajmer *Imagined Civilizations* Roger Preston Hart, 2013-08-15 While the Jesuits claimed Xu as a convert he presented the Jesuits as men from afar who had traveled from the West to China to serve the emperor

Confucius and the Analects Bryan W. Van Norden, 2002-01-03 Surprisingly this volume is the first and only anthology to address the worldwide influence of Confucius and the Analects in English Here contributors apply a variety of different methodologies including philosophical philological and religious and address a number of important topics from Confucius and Western virtue ethics to Confucius attitude toward women to the historical composition of the text of the Analects Scholars will appreciate the rigor of these essays while students and beginners will find them accessible and engaging

Rationality and the Study of Religion Jeppe Sinding Jensen, Luther Martin, 2013-09-13 Does rationality the intellectual bedrock of all science apply to the study of religion Religion arguably the most subjective area of human behaviour has particular challenges associated with its study Attracting crowd healers conjurers the pious and the prophetic alongside comparativists and sceptics it excites opinions and generalizations whilst seldom explicitly staking out the territory for the discussions in which it partakes Increasingly scholars argue that religious study needs to define and critique its own field and to distinguish itself from theology and other non objective disciplines Yet how can rational techniques be applied to beliefs and states of mind regarded by some as beyond the scope of human reason Can these be made empirically testable or comparable and replicable within academic communities Can science explicate religion without reducing it to mere superstition or redefine its truth in some empirical but meaningful way Featuring contributions from leading international experts including Donald Wiebe Roger Trigg and Michael Pye Rationality and the Study of Religion gets under the surface of the religious studies discipline to expose the ideologies beneath Reopening debate in a neglected yet philosophically significant field it questions the role of rationality in religious anthropology natural history and anti scientific theologies with implications not only for supposedly objective disciplines but for our deepest attitudes to personal experience Interesting and important Religion has long been associated with irrationality both by its defenders and its critics and the topic of rationality has been unjustly neglected The book certainly deserves to be widely circulated Greg Alles Western Maryland College *Philosophy East & West* ,1992

Emotions Stephanie H.M. van Goozen, Nanne E. Van de Poll, Joseph A. Sergeant, S.H.M. van Goozen, Joe A. Sergeant, 2014-02-25 Based upon lectures presented at an invitational colloquium in honor of Nico Frijda this collection of essays represents a brief and up to date overview of the field of emotions their significance and how they function For most emotions are simply what we feel giving our lives affective value Scientists approach emotions differently some considering the feeling aspect to be of little relevance to their research questions Some investigators consider emotions from a phenomenological perspective while others believe that the psychophysiological bases of the emotions are of prime importance and still others observe and study animals in

order to generate hypotheses about human emotions. Containing essays which represent each of these approaches, this book is in one sense a heterogeneous collection. Nevertheless, the variety of approaches and interests come together since these scholars are all operating from a more or less cognitive psychological orientation and use the same conceptual reference scheme. Written by experts in their own area, the essays reflect the richness of research in emotions. Whether these approaches and opinions can be harmonized into a single theory of emotions is a question which the future will have to answer.

Towards a Re-Definition of Development Alain Birou, Paul-Marc Henry, John P. Schlegel, 2016-01-21. Towards a Re-Definition of Development: Essays and Discussion on the Nature of Development in an International Perspective reconsiders the generally accepted definition of development based on the assumption that there is no universal method for comprehending development and no one major principle for elucidating its evolution. The emphasis is on the so-called white Western and wealthy developed countries. Divided into two parts, this book begins with a critical analysis of the nature of development and the conditions necessary for a developed world. The irreversibility of technical and industrial evolution is considered along with the role of science and technology in development, the control of evolution and the meaning of progress, the role of the major political and economic units in world development and conditions for the economic and political independence of developing countries. The second part explores various facets of development strategy and theory, paying particular attention to conceptions and misconceptions of development as well as the notion of peace. This monograph should be of interest to economists, social and political scientists, and social and economic policymakers.

1993, 111 pp. **Comparative Essays in Early Greek and Chinese Rational Thinking** Jean-Paul Reding, 2017-03-02. This collection of essays by Reding in the emergent field of Sino-Hellenic studies explores the neglected inchoative strains of rational thought in ancient China and compares them to similar themes in ancient Greek thought right at the beginnings of philosophy in both cultures. Reding develops and defends the bold hypothesis that Greek and Chinese rational thinking are one and the same phenomenon. Rather than stressing the extreme differences between these two cultures as most other writings on these subjects, Reding looks for the parameters that have to be restored to see the similarities. Reding maintains that philosophy is like an unknown continent discovered simultaneously in both China and Greece but from different starting points. The book comprises seven essays moving thematically from conceptual analysis, logic and categories to epistemology and ontology, with an incursion in the field of comparative metaphorology. One of the book's main concerns is a systematic examination of the problem of linguistic relativism through many detailed examples.

Entertaining Ideas Robert C. Solomon, 1992. No Marketing Blurb.

Contractarian Liberal Ethics and the Theory of Rational Choice Jung Soon Park, 1992. This book investigates the relationship between morality and rationality in the context of historical and present-day contractarian ethics. From Rawls to Gauthier, contractarians have attempted to construct their methodological foundations on the theory of rational choice. Through a careful study of the

nature and limits of the theory of rational choice Jung Soon Park argues that the theory cannot provide the reliable foundations for contractarian liberal ethics Consequently the author takes seriously the question about the future of contractarian liberal ethics Is it the end or can there be a transformation **The Joy of Philosophy** Robert C. Solomon, 2003 The purpose of this book is to put the fun back into philosophy to recapture the heart felt confusion and excitement that originally brings people to philosophy
