Raw Materials And Foreign Policy:

Defending the National Interest Stephen D. Krasner, 2020-10-06 Stephen Krasner's assumption of a distinction between state and society is the root of his argument for the superiority of a statist interpretation of American foreign policy. Here he challenges the two dominant and rival interpretations of the relationship between state and society: interest group liberalism and Marxism. He contends that the state is an autonomous entity acting on behalf of the national interest and that state behavior cannot be explained by group or class interest. On the basis of fifteen case studies drawn from extensive public records and published literature on American raw materials policy in the twentieth century, Professor Krasner provides empirical substance to the debate about the meaning of the national interest, the importance of bureaucratic politics, and the influence of business on American foreign policy. *United States Foreign Policy* Stanford Research Institute, United States. The Foreign Policy of Modern Japan Robert A. Scalapino, 2024-03-29 The Foreign Policy of Modern Japan presents a thorough exploration of Japan's foreign policy, a complex and ever-evolving subject. The volume is the result of a 1974 conference in Hawaii where scholars from both the United States and Japan gathered to discuss Japan's foreign policy from multiple perspectives. This compilation of essays offers insights into the decision-making process, economic influences, security issues, and the broader international environment shaping Japan's diplomatic strategies. Contributions are drawn from a range of scholars providing diverse viewpoints that highlight the multifaceted nature of Japan's international relations. The collection covers a broad spectrum of topics from the workings of Japan's Foreign Ministry and its diplomatic style to the influence of public opinion and business on foreign policy, as well as economic relations and security matters. The essays are divided into distinct sections that cover key aspects of Japan's foreign policy. The first examines the decision-making processes, analyzing the role of Japan's bureaucratic institutions and the Diet in policy formulation. Subsequent sections delve into Japan's public and private interests, economic policies, and security issues, while a final part offers an overview of Japan's evolving global position. The contributors emphasize the challenges Japan faces in balancing domestic pressures, historical context, and international realities. Despite Japan's successful postwar foreign policy, the essays suggest that Japan may be undergoing gradual changes in its foreign approach, particularly in response to shifts in global economic and political dynamics. The volume provides a nuanced understanding of the factors shaping Japan's foreign policy, highlighting both its stability and the potential for future transformation. moral crises of 1970s America including the end of golden age liberalism and the return of the market the splintering of the Democratic Party and the building of the Reagan coalition and the rise of human rights in US foreign policy in the wake of the Vietnam War The policy debates and decisions toward the NIEO were pivotal moments in the histories of three ideological trends neoliberalism neoconservatism and human rights that formed the core of America's post Cold War foreign policy

EU Foreign Policy in a Fragmenting International Order Oriol Costa, Eduard Soler i Lecha, Martijn C. Vlaskamp, 2024-11-13 This open access book delves into the responses of EU actors such as member states institutions and political groups in the European Parliament to the fragmentation of the liberal international order LIO The analytical framework adopted in this volume explores the diverse interpretations of this phenomenon and the various political initiatives associated with them Among these interpretations is the concept of strategic autonomy which has emerged as a key feature of debates surrounding the EU's adaptation to a fragmented LIO The contributors examine these dynamics across different issue areas and dimensions of EU foreign policy encompassing the Common Foreign and Security Policy CFSP external relations and the externalization of internal policies They use the term fragmentation to refer to a bundle of processes affecting the LIO that range from challenges to the universality of human rights to the crisis of global governance instruments from the bifurcation of tech to protectionist tendencies in trade policies
