Reading Food in Modern Japanese Literature Tomoko Aoyama, 2008-09-30 Literature like food is in Terry Eagleton s words endlessly interpretable and food like literature looks like an object but is actually a relationship So how much do we and should we read into the way food is represented in literature Reading Food explores this and other questions in an unusual and fascinating tour of twentieth century Japanese literature Tomoko Aoyama analyzes a wide range of diverse writings that focus on food eating and cooking and considers how factors such as industrialization urbanization nationalism and gender construction have affected people s relationships to food nature and culture and to each other The examples she offers are taken from novels shosetsu and other literary texts and include well known writers such as Tanizaki Jun ichiro Hayashi Fumiko Okamoto Kanoko Kaiko Takeshi and Yoshimoto Banana as well as those who are less widely known Murai Gensai Nagatsuka Takashi Sumii Sue and Numa Shozo Food is everywhere in Japanese literature and early chapters illustrate historical changes and variations in the treatment of food and eating Examples are drawn from Meiji literary diaries children s stories peasant and proletarian literature and women s writing before and after World War II The author then turns to the theme of cannibalism in serious and popular novels Key issues include ethical questions about survival colonization and cultural identity The quest for gastronomic gratification is a dominant theme in gourmet novels Like cannibalism the gastronomic journey as a literary theme is deeply implicated with cultural identity The final chapter deals specifically with contemporary novels by women some of which celebrate the inclusiveness of eating and writing while others grapple with the fear of eating Such dread or disgust can be seen as a warning against what the complacent gourmet boom of the 1980s and 1990s concealed the dangers of a market economy environmental destruction and continuing gender biases Reading Food in Modern Japanese Literature will tempt any reader with an interest in food literature and culture Moreover it provides appetizing hints for further savoring digesting and incorporating textual food

Milton and the Climates of Reading

Balachandra Rajan, Joseph A. Wittreich, 2006-01-01 Scholarly criticism of John Milton's writings has in recent decades been distinguished by a methodological prudence that separates it from other forms of literary scholarship. One critic however stands apart from his colleagues and has consistently offered a corrective to this prudence. Balachandra Rajan's *In Milton and the Climates of Reading*. Elizabeth Sauer undertakes the daunting work of bringing together a selection of Rajan's essays on Milton, some hitherto unpublished, in order to chart trends and changes in Milton scholarship over the last sixty years and to consider future directions in this vital field of inquiry. This collection, which is framed by Sauer's insightful introduction and an eloquent afterword by Joseph Wittreich, demonstrates Rajan's critical range and his ability to adapt to new ideas always reformulating them in his own characteristic and individual manner. *In Milton and the Climates of Reading* offers timely statements about the ways in which Milton's writings not only addressed their own time but also speak profoundly and powerfully to ours. Reading Mark Strand

J. Nicosia, 2016-04-30 Combining phenomenological ideals with rigorous close reading and antithetical criticism, this study assesses the career evolution of the Pulitzer Prize winning former U.S. poet laureate while providing a methodology for analyzing other poetic careers. **Restoring Paradise** Arthur

Versluis, 2012-02-01 Focusing on how spiritual initiation takes place in Western esoteric religious, literary, and artistic traditions from antiquity to the present, *Restoring Paradise* provides an introduction to Western esotericism, including early modern esoteric movements like alchemy, Christian theosophy, and Rosicrucianism. The author argues that European and American literature and art often entail a written transmission of spiritual knowledge in which writing itself works to transmute consciousness to generate, provoke, or convey spiritual awakening. He focuses on several important figures whose work has not received the attention it deserves, including American writer and Imagist poet H.D. Hilda Doolittle and British painter Cecil Collins, among others. While Arthur Versluis presents a new way of understanding Western esotericism in a contemporary light, above all he has crafted a book about knowing and about how we come to know and what knowing by way of literature and language actually means. Text, Food and the Early Modern Reader

Jason Scott-Warren, Andrew Elder Zurcher, 2018-08-14 In early modern culture, eating and reading were entangled acts. Our dead metaphors, swallowed stories, overcooked narratives, digested information are all that now remains of a rich interplay between text and food in which every element of dining, from preparation to purgation, had its equivalent in the literary sphere. Following the advice of the poet George Herbert, this essay collection looks to the mouth, unfolding the charged relationship between ingestion and expression in a wide variety of texts and contexts. With contributions from leading scholars in the field, *Text, Food and the Early Modern Reader: Eating Words* fills a significant gap in our understanding of early modern cultural history. Situated at the lively intersection between literary, historical, and bibliographical studies, it opens new lines of dialogue between the study of material textuality and the history of the body. *The Riddles of the Sphinx* Anna Shechtman, 2024-03-05 A surprising and ambitious investigation of language and the varied ways women resist the paradoxes of patriarchy, both on and off the page.

New York Times Combining the soul baring confessional of *Brain on Fire* and the addictive storytelling of *The Queen's Gambit* a renowned puzzle creator's compulsively readable memoir and history of the crossword puzzle as an unexpected site of women's work and feminist protest The indisputable queen of crosswords Anna Shechtman published her first New York Times puzzle at age nineteen and later helped to spearhead the *The New Yorker's* popular crossword section Working with a medium often criticized as exclusionary elitist and out of touch Anna is one of very few women in the field of puzzle making where she strives to make the everyday diversion more diverse In this fascinating work part memoir part cultural analysis she excavates the hidden history of the crossword and the overlooked women who have been central to its creation and evolution from the Crossword Craze of the 1920s to the role of digital technology today As she tells the story of her own experience in the CrossWorld she analyzes the roles assigned to women in American culture the boxes they've been allowed to fill and the ways that they've used puzzles to negotiate the constraints and play of desire under patriarchy The result is an unforgettable and engrossing work of art a loving and revealing homage to one of our most treasured entertaining and ultimately political pastimes

Beal, David Gunn, 2002-06 The Bible is often said to be one of the foundation texts of Western culture The present volume shows that it goes far beyond being a religious text The essays explore how religious political and cultural identities including ethnicity and gender are embodied in biblical discourse Following the authors we read the Bible with new eyes as a critic of gender ideology politics and culture We ask ourselves new questions about God's body about women's role about racial prejudices and about the politics of the written word *Reading Bibles Writing Bodies* crosses boundaries It questions our most fundamental assumptions about the Bible It shows how biblical studies can benefit from the mainstream of Western intellectual discourse throwing up entirely new questions and offering surprising answers Accessible engaging and moving easily between theory and the reading of specific texts this volume is an exciting contribution to contemporary biblical and cultural studies

Eating and Ethics in Shakespeare's England David B. Goldstein, 2013-11-07 David B Goldstein argues for a new understanding of Renaissance

England from the perspective of communal eating Rather than focus on traditional models of interiority choice and consumption Goldstein demonstrates that eating offered a central paradigm for the ethics of community formation The book examines how sharing food helps build demarcate and destroy relationships between eater and eaten between self and other and among different groups Tracing these eating relations from 1547 to 1680 through Shakespeare Milton religious writers and recipe book authors Goldstein shows that to think about eating was to engage in complex reflections about the body s role in society In the process he radically rethinks the communal importance of the Protestant Eucharist Combining historicist literary analysis with insights from social science and philosophy the book s arguments reverberate well beyond the Renaissance Ultimately *Eating and Ethics in Shakespeare s England* forces us to rethink our own relationship to food

Milton's Paradise Lost John Milton,1840 Milton's Late Poems Lee Morrissey,2022-08-25 Upending conventional scholarship on Milton and modernity Lee Morrissey recasts Paradise Lost Paradise Regained and Samson Agonistes as narrating three alternative responses to a world in upheaval adjustment avoidance and antagonism Through incisive engagement with narrative form and genre Morrissey shows how each work considered specifically as a fiction grapples with the vicissitudes of a modern world characterised more by paradoxes ambiguities subversions and shifting temporalities than by any rigid historical periodization The interpretations made possible by this book are as invaluable as they are counterintuitive opening new definitions and stimulating avenues of research for Milton students and specialists as well as for those working in the broader field of early modern studies Morrissey invites us to rethink where Milton stands in relation to the greatest products of modernity and in particular to that most modern of genres the novel Reading Veganism Emelia Quinn,2021-09-02 Reading Veganism The Monstrous Vegan 1818 to Present focuses on the iteration of the trope the monstrous vegan across

two hundred years of Anglophone literature Explicating through such monsters veganism's relation to utopian longing and challenge to the conceptual category of the human the book explores ways in which ethical identities can be written represented and transmitted Reading Veganism proposes that we can recognise and identify the monstrous vegan in relation to four key traits First monstrous vegans do not eat animals an abstinence that generates a seemingly inexplicable anxiety in those who encounter them Second they are hybrid assemblages of human and nonhuman animal parts destabilising existing taxonomical classifications Third monstrous vegans are sired outside of heterosexual reproduction the product of male acts of creation And finally monstrous vegans are intimately connected to acts of writing and literary creation The principle contention of the book is that understandings of veganism as identity and practice are limited without a consideration of multiplicity provisionality failure and insufficiency within vegan definition and lived practice Veganism's association with positivity in its drive for health and purity is countered by a necessary and productive negativity generated by a recognition of the horrors of the modern world Vegan monsters rehearse the key paradoxes involved in the writing of vegan identity
