Reading Castaneda:

Reading Castaneda (Routledge Revivals) David Silverman, 2019-10-25 Carlos Castaneda's accounts of his meeting with the Yaqui Indian magician Don Juan are well known to sociologists both in Britain and in America. Using material largely from Castaneda's *The Teachings of Don Juan*, David Silverman here seeks to introduce the student of Sociology to some of the central epistemological concerns of social science. First published in 1975, the title assumes no previous knowledge of Castaneda but instead uses his work as a springboard to wider issues in particular making sense of our reality and understanding each other by using language and communication. This is an interesting reissue which will be of particular value to students of the sociology of language and communication as well as Communication Studies more generally.

The Metaphysics of Relations Anna Marmodoro, David Yates, 2016 This volume presents thirteen original essays which explore both traditional and contemporary aspects of the metaphysics of relations. It is uncontroversial that there are true relational predications: Abelard loves Eloise, Simmias is taller than Socrates, smoking causes cancer, and so forth. More controversial is whether any true relational predications have irreducibly relational truthmakers. Do any of the statements above involve their subjects jointly instantiating polyadic properties, or can we explain their truths solely in terms of monadic, non-relational properties of the relata? According to a tradition dating back to Plato and Aristotle and continued by medieval philosophers, polyadic properties are metaphysically dubious. In non-symmetric relations such as the amatory relation, a property would have to inhere in two things at once: lover and beloved, but characterise each differently, and this puzzled the ancients. More recent work on non-symmetric relations highlights difficulties with their directionality. Such problems offer clear motivation for attempting to reduce relations to monadic properties. By contrast, ontic structural realists hold that the nature of physical reality is exhausted by the relational structure expressed in the equations of fundamental physics. On this view, there must be some irreducible relations for its fundamental ontology is purely relational. *The Metaphysics of Relations* draws together the work of a team of leading metaphysicians to address topics as diverse as ancient and medieval reasons for scepticism about polyadic properties, recent attempts to reduce causal and spatiotemporal relations, recent work on the directionality of relational properties, powers ontologies, and their associated problems. Whether the most promising interpretations of quantum mechanics posit a fundamentally relational world, and whether the very idea of such a world is coherent. From those who question whether there are relational properties at all to those who hold they are a fundamental part of reality, this book covers a broad spectrum of positions on the nature and ontological status of relations from antiquity to the present day.

Castañeda and his Guises Adriano Palma, 2014-08-25 This volume responds to and reassesses the work

of Hector Neri Castañeda 1924-1991 The essays collected here written by his students followers and opponents examine Castañeda's seminal views on deontic logic metaethics indexicality practices fictions and metaphysics utilizing the critical viewpoint afforded by time as well as new data to offer insights on his theories and methodology **Misanthropology** Sean M. Rafferty, 2022-10-13 *Misanthropology: Science, Pseudoscience, and the Study of Humanity* introduces students to key concepts in critical thinking across the four core branches of anthropology: cultural, linguistic, biological, and archaeological. It combines a critical analysis of anthropology as a field with current concepts in scientific skepticism. By deconstructing a range of global case studies in which anthropological research runs aground, the book teaches students to distinguish between legitimate science and pseudoscience. It covers key concepts in critical thinking and rigorous research such as cognitive biases and logical fallacies, data collection and consensus, probabilistic thinking, as well as political, nationalist, racist biases. Students learn not only how to apply these concepts to anthropological research and fieldwork but also to their consumption of everyday information. This book will appeal to anthropology students and will be particularly useful for instructors of introductory anthropology courses as well as instructors of courses across the humanities and social sciences focused on inculcating critical thinking skills. *The Reading Life* Peter Bollen, 2022-12-11 Collected columns, Reviews, Interesting, exclusive interviews with noted authors. **The Ethnopoetics of Shamanism** M. Santos, 2016-04-30 Over the last century, Western portrayals of shamanism have changed radically toward an ethnopoetics of shamanism. While shamanic practices had long been indirectly registered by Westerners, it is only since the late nineteenth century that they have taken on symbolic import within discourses of primitivism and debates over magic and rationality. *The Path of Reason* Bruce A. Smith, 2008 *Path of Reason*. **Dream Searchers** Andrey Reutov, 2009-09-16 *Dream Searchers* is a novel based on real facts about a secret research group called The Dream Hackers. This group was forced underground when governmental agents became interested in their amazing discoveries in the fields of dreams, teleportation, and controlling reality. While investigating the cartography of dreams, the Hackers found practical confirmation of the deep knowledge as popularized by the ethnologist and author Carlos Castaneda in his book *The Teachings of Don Juan*. *Shamans/Neo-Shamans* Robert J. Wallis, 2003-12-08 Robert J. Wallis explores the interface between the new and prehistoric shamans of popular culture and anthropology, drawing on interviews with a variety of practitioners, particularly contemporary pagans in Britain and North America. *The Power of Intention* Dr. Wayne W.
