

WHAT IS REALISM?

Realism is an artistic and literary movement that emerged in the 19th century. It sought to represent reality truthfully and accurately, focusing on everyday life and ordinary people.

Realism rejected idealized depictions of the world and emphasized observation and direct experience. The movement aimed to portray society and human experience without romanticism or exaggeration, and often dealt with themes such as social injustice, poverty, and working-class life.

Realism had a significant impact on literature, painting, and other art forms, and remains an influential approach to storytelling and representation today.

Realism And Human Values:

Realism and Human Values Erika Erdmann, 1978-01-01 **Reconstructing American Legal Realism & Rethinking Private Law Theory** Hanoch Dagan, 2013-08-20 In the myriad choices of interpretation judges face when confronted with rules and cases legal realists are concerned with how these doctrinal materials carry over into judicial outcomes What can explain past judicial behavior and predict its future course How can law constrain judgments made by unelected judges How can the distinction between law and politics be maintained despite the collapse of law's autonomy in its positivist rendition In *Reconstructing American Legal Realism Rethinking Private Law Theory* Hanoch Dagan provides an innovative and useful interpretation of legal realism He revives the legal realists rich account of law as a growing institution accommodating three sets of constitutive tensions power and reason science and craft and tradition and progress and demonstrates how the major claims attributed to legal realism fit into this conception of law Dagan seeks to rein in realist descendants who have become fixated on one aspect of the big picture and to dispel the misconceptions that those gone astray represent the tradition accurately or that realism is now merely a historical signpost He draws upon the realist texts of Oliver Wendell Holmes Karl Llewellyn and others to explain how legal realism offers important and unique jurisprudential insights that are not just a part of legal history but are also relevant and useful for a contemporary understanding of legal theory Building on this realist conception of law and enriching its texture Dagan addresses more particular jurisprudential questions He shows that the realist achievement in capturing law's irreducible complexity is crucial to the reinvigoration of legal theory as a distinct scholarly subject matter and is also inspiring for a host of other more specific theoretical topics such as the rule of law the autonomy and taxonomy of private law the relationships between rights and remedies and the pluralism and perfectionism that typify private law

God and Realism Peter Byrne, 2017-07-05 Peter Byrne's study of God and realism offers a critical survey of issues surrounding the realist interpretation of theism and theology Byrne presents a general argument for interpreting the intent of talk about God in a realist fashion and argues that judging the intent of theistic discourse should be the primary object of concern in the philosophy of religion He considers a number of important ideas and thinkers supporting global anti-realism and finds them all wanting After the refutation of global anti-realism Byrne considers a number of important arguments in favour of the notion that there is something specific to talk about God which invites an anti-realist interpretation of it Here he looks at verificationism the writings of Don Cupitt forms of radical feminist theory and the ideas of D Z Phillips The book concludes with a discussion of whether theology as a discursive academic discipline can be interpreted realistically Offering a comprehensive survey of the topic and of the leading literature in the field this book presents key arguments for exploring issues brought to bear upon the realism debate Students and scholars of philosophy of religion philosophy of language metaphysics theory of knowledge and theology will find this an invaluable new contribution to the field

Cesare Zavattini's Neo-realism and the Afterlife of an Idea David Brancalone, 2021-07-15

How many Zavattinis are there During a life spanning most of the twentieth century the screenwriter who wrote *Sciusci Bicycle Thieves* *Miracle in Milan* and *Umberto D* was also a pioneering magazine publisher in 1930s Milan a public intellectual a theorist a tireless campaigner for change within the film industry a man of letters a painter and a poet This intellectual biography is built on the premise that in order to understand Zavattini's idea of cinema and his legacy of ethical and political cinema including guerrilla cinema we must also tease out the multi faceted strands of his interventions and their interplay over time The book is for general readers students and film historians and anyone with an interest in cinema and its fate

The Status of Values in New Realism Daniel Luther Evans, 1923 **Edinburgh Companion to Political**

Realism Robert Schuett, 2018-11-14 Political realism is a highly diverse body of international relations theory This substantial reference work examines political realism in terms of its history its scientific methodology and its normative role in international affairs Split into three sections it covers the 2000 year canon of realism the different schools of thought the key thinkers and how it responds to foreign policy challenges faced by individual states and globally It brings political realism up to date by showing where theory has failed to keep up with contemporary problems and suggests how it can be applied and adapted to fit our new globalised world order

The Value of Humanity L. Nandi Theunissen, 2020 L Nandi

Theunissen offers an original and provocative account of the value of humanity Human beings have value just as anything of value has value because we are capable of being of value to someone in the first place to ourselves And this explains the key forms of ethical responsiveness that we owe to one another

Hermeneutic Moral Realism in Psychology Brent D. Slife, Stephen Yanchar, 2019-02-12 Traditional sources of morality philosophical ethics religious standards and cultural values are being questioned at a time when we most need morality's direction Research shows that though moral direction is vital to our identities happiness productivity and relationships there is a decline in its development and use especially among younger adults This book argues that hermeneutic moral realism is the best hope for meeting the twenty first century challenges of scientism individualism and postmodernism In addition to providing a thorough understanding of moral realism the volume also takes preliminary steps toward its application in important practical settings including research psychotherapy politics and publishing

The Truth of Realism John Walker, 2017-12-02 In his new book Walker offers a radical reassessment of the German realist novel in the nineteenth century Especially in the English speaking world German narrative realism has persistently been interpreted as the literary expression of an ideology of the aesthetic The German realist novel is alleged to reflect philosophical idealism to reject the prose of modern society in favour of the poetry of the inner aesthetic life This book challenges that received view Walker argues that German narrative realism should be read not only in relation to but in crucial respects against the dominant philosophical idiom of nineteenth century Germany German narrative realism often functions as a critique of the idea and ideology of inwardness in nineteenth century German culture To understand this the author argues we must reread German realist novels above all as narratives not as the supposed

reflection of philosophical categories The core of the book is therefore the close reading of eight of the best known realist novels in German by Keller Raabe and Fontane This reading shows how the German realist novel far from transposing the assumptions of aesthetic idealism into narrative form exposes the real consequences of those assumptions in the culture and society of its time John Walker is Head of the School of Languages Linguistics and Culture at Birkbeck University of London

Ernan McMullin and Critical Realism in the Science-Theology Dialogue Dr Paul L Allen, 2013-05-28 Scientists philosophers and theologians have wrestled repeatedly with the question of whether knowledge is similar or different in their various understandings of the world and God Although agreement is still elusive the epistemology of critical realism associated with Ian Barbour John Polkinghorne and Arthur Peacocke remains widely credible Relying on the lifetime work of philosopher Ernan McMullin this book expands our understanding of critical realism beyond a permanent stand off between the subjective and objective whether in science or theology Critical realism illuminates the subject and the objectively known simultaneously Responding to criticisms made against it this book defends critical realism in science and theology with a specific role to play in our understanding of God The Space that Separates: A Realist Theory of Art Nick

Wilson, 2019-08-23 The Space that Separates A Realist Theory of Art radically challenges our assumptions about what art is what art does who is doing it and why it matters Rejecting the modernist and market driven misconception that art is only what artists do Wilson instead presents a realist case for living artfully Art is defined as the skilled practice of giving shareable form to our experiences of being in relation with the real that is to say the causally generative domain of the world that extends beyond our direct observation comprising relations structures mechanisms possibilities powers processes systems forces values ways of being In communicating such aesthetic experience we behold life s betweenness the space that separates so coming to know ourselves as connected Providing the first dedicated and comprehensive account of art and aesthetics from a critical realist perspective Aesthetic Critical Realism ACR Wilson argues for a profound paradigm shift in how we understand and care for culture in terms of our system s of value recognition Fortunately we have just the right tool to help us achieve this transformation and it s called art Offering novel explanatory accounts of art aesthetic experience value play culture creativity artistic truth and beauty this book will appeal to a wide audience of students and scholars of art aesthetics human development philosophy and critical realism as well as cultural practitioners and policy makers **Ethics**

of Media N. Couldry, M. Madianou, A. Pinchevski, 2015-12-11 Ethics of Media reopens the question of media ethics Taking an exploratory rather than prescriptive approach an esteemed collection of contributors tackle the diverse areas of moral questioning at work within various broadcasting practices accommodating the plurality and complexity of present day ethical challenges posed by the world of media **The Oxford Handbook of American Literary Realism** Keith Newlin, 2019 The Oxford Handbook of American Literary Realism offers fresh interpretations of the artistic and political challenges of representing life accurately It is the first book to treat the subject topically and thematically in wide scope with essays that

draw upon recent scholarship in literary and cultural studies to offer an authoritative and in depth reassessment of major and minor figures and the contexts that shaped their work **Introduction to International Relations** Robert H.

A. Hooker, 1987-02-20 This book presents a clear and critical view of the orthodox logical empiricist tradition pointing the way to significant developments for the understanding of science both as research and as culture It summarizes the present confused and highly polarized status of the orthodox philosophy of science It exhibits clearly the fundamental metaphysical and global presuppositions and confusions that have led to this status It provides a positive point of view from which progress can be made toward

understanding science as research done by real scientists rather than science as exemplifying some prior epistemological program created by philosophers And it leads directly to an understanding of science as a dynamic force within our society with consequences for the environment and public policy *Well-being* Neera Kapur Badhwar,2014 In *Well Being Happiness in a Worthwhile Life* Neera K Badhwar offers a new argument for the ancient claim that well being as the highest prudential good eudaimonia consists of happiness in a virtuous life Virtue is a source of happiness but happiness also requires external goods The argument takes into account recent work on happiness well being and virtue and defends a neo Aristotelian conception of virtue as an integrated but limited intellectual emotional action disposition These conceptions of well being and virtue are argued to be widely held and compatible with experimental psychology Badhwar s main argument for the thesis that well being as the highest prudential good requires virtue is as follows i well being as the highest prudential good requires an objectively worthwhile life ii such a life entails realism as a character trait iii realism entails a life of virtue iv hence well being as the highest prudential good requires a life of virtue A realistic person understands important aspects of her own life and human life in general and is disposed to act on her understanding Her understanding springs from her autonomy and reality orientation i e her disposition to think for herself and seek truth or understanding But the demands of virtue in the face of our emotional and cognitive limitations make complete virtue impossible and this is one reason why complete well being is also impossible *Heidegger and Moral Realism* Anoop Gupta,2015-11-11 Is it possible to found a Heideggerian ethic around the notion of a relationship to being Bezug zum Seyn Going against much of the Western tradition Gupta considers if the being relationship could result in a feeling or mystical experience that is the basis of ethics Along the way such an affective and embodied approach to ethics brings us into dialogue with a range of thinkers such as Kant and Schweitzer Further it is suggested that an environmental philosophy is consistent with a Heideggerian ethics Finally recent research in the neurosciences is marshaled to at least show the plausibility of Heidegger s brand of moral realism as it is developed *Sacrifice and Modern War Writing* Alex Houen,2024-09-05 *Sacrifice and Modern War Writing* presents the most extensive study to date of twentieth and twenty first century war writing Examining works by over 110 authors Alex Houen surveys how war writing explores sacrifice in relation to major modern and contemporary conflicts from the First World War to the War on Terror Various conceptions of sacrifice are examined including Christian Jewish Islamic and secular The discussion ranges across literary portrayals of multiple sacrificial practices including ancient rituals of child sacrifice martyrdom scapegoating and suicide bombing Houen builds an innovative interdisciplinary approach to how war sacrifice and their representations interrelate and a wide range of Anglophone literature is discussed including novels memoirs short stories essays manifestoes elegies ballads and lyric poetry Whereas critics and theorists have tended to emphasize that war s reality exceeds any attempt to represent it Houen contends that political religious and cultural frames of sacrifice have continued to play a significant part in shaping how war s reality is shaped and experienced Those frames are inextricably tied

to modes of representation which include symbolism and mimesis *Sacrifice and Modern War Writing* explores how sacrificial killing in war is itself riddled with symbolic transfigurations and mimetic exchanges and it builds a fresh approach by arguing that the figurative and imaginative aspects of literary writing ironically become its very means of engaging closely with the reality of war's sacrifices That approach also develops by using the literary analyses to critique and revise various prominent theories of sacrifice and war
