Jacob, 2000-10-10 Keeping track of prolific authors who write fiction series was quite challenging for even the most ardent fan until *To Be Continued* debuted in 1995 Now readers will be happy that the soon to be released second edition has added 1 600 new books and 400 new series *To Be Continued* Second Edition maintains the first volume's successful formula that featured concise A to Z entries packed with useful information including titles publishers publication dates genre categories annotations and subject terms Among the genre categories that can be found in *To Be Continued* are romance science fiction crime novel horror adventure fantasy humor western war Christian fiction and others *Astrofuturism* De Witt Douglas Kilgore, 2010-08-03 *Astrofuturism* *Science Race and Visions of Utopia in Space* is the first full scale analysis of an aesthetic scientific and political movement that sought the amelioration of racial difference and social antagonisms through the conquest of space Drawing on the popular science writing and science fiction of an eclectic group of scientists engineers and popular writers De Witt Douglas Kilgore investigates how the American tradition of technological utopianism responded to the political upheavals of the twentieth century Founded in the imperial politics and utopian schemes of the nineteenth century *astrofuturism* envisions outer space as an endless frontier that offers solutions to the economic and political problems that dominate the modern world Its advocates use the conventions of technological and scientific conquest to consolidate or challenge the racial and gender hierarchies codified in narratives of exploration Because the icon of space carries both the imperatives of an imperial past and the democratic hopes of its erstwhile subjects its study exposes the ideals and contradictions endemic to American culture Kilgore argues that in the decades following the Second World War the subject of race became the most potent signifier of political crisis for the predominantly white and male ranks of *astrofuturism* In response to criticism inspired by the civil rights movement and the new left *astrofuturists* imagined space frontiers that could extend the reach of the human species and heal its historical wounds Their work both replicated dominant social presuppositions and supplied the resources necessary for the critical utopian projects that emerged from the antiracist socialist and feminist movements of the twentieth century This survey of diverse bodies of literature conveys the dramatic and creative syntheses that *astrofuturism* envisions between people and machines social imperatives and political hope physical knowledge and technological power Bringing American studies utopian literature popular conceptions of race and gender and the cultural study of science and technology into dialogue *Astrofuturism* will provide scholars of American culture fans of science fiction and readers of science writing with fresh perspectives on both canonical and cutting edge *astrofuturist* visions **Forthcoming Books** Rose Arny, 1999 **The Publishers Weekly**, 1997 **The Reality Dysfunction** Peter F. De Vos, 2020-04-23 Since its establishment at the turn of the century a central preoccupation of the International Criminal Court ICC has been to catalyse the pursuit of criminal accountability at the domestic level Drawing on ten years of research this book theorizes the ICC s principle of complementarity as a transnational site and adaptive strategy for realizing an array of ambitious governance goals Through a grounded inter disciplinary approach it illustrates how complementarity came to be framed as a catalyst for compliance and its unexpected effects on the legal frameworks and institutions of three different ICC situation countries in Africa Uganda Kenya and the Democratic Republic of Congo Linking complementarity s law and practice to contemporary debates in international law and relations the book unsettles international law s dominant progressive narrative It urges a critical rethinking of the ICC s politics and a reorientation towards international criminal justice as a project of global legal pluralism
