Reappraising Defense Organization An Analysis Based On The Defense Organization Study Of 1977 198:

Reappraising Defense Organization Archie D. Barrett,1983 **The Army Command Post and Defense Reshaping 1987-1997** Mark D. Sherry,2010-11-29 The U S Army underwent a decade of significant transformation between 1987 and 1997 that affected strategy force requirements structure and basing requirements The end of the Cold War provided the initial impetus for defense reshaping and drove the pace and depth of change Reductions in forces and installations and deferred procurement of the next generation of military equipment overlapped with efforts to adapt the Army to a new global security environment *Reorganizing the Joint Chiefs of Staff* Gordon Lederman,1999-11-30 The Goldwater Nichols Department of Defense Reorganization Act of 1986 is the most important legislation to affecting U S national defense in the last 50 years This act resulted from frustration in Congress and among certain military officers concerning what they believed to be the poor quality of military advice available to civilian decision makers It also derived from the U S military s perceived inability to conduct successful joint or multi service operations The act passes after four years of legislative debate designated the Chairman of the Joint Chiefs of Staff as the principal military advisor to the President and sought to foster greater cooperation among the military services Goldwater Nichols marks the latest attempt to balance competing tendencies within the Department of Defense namely centralization versus decentralization and geographic versus functional distributions of power As a result of the Goldwater Nichols Act the Chairman of the Joint Chiefs has achieved prominence but his assignment is somewhat contradictory the spokesman and thus the advocate for the Commander in Chief while simultaneously the provider of objective advice to the President While the act did succeed in strengthening the CINCs authority and in contributing to the dramatic U S achievements in the Gulf War the air and ground campaigns revealed weaknesses in the CINCs capability to plan joint operations In addition the increased role of the military in ad hoc peacekeeping operations has challenged the U S military s current organizational structure for the quick deployment of troops from the various services Rapid technological advances and post Cold War strategic uncertainty also complicate the U S military s organizational structure **Federal Government Reorganization** Beryl A. Radin,Joshua M. Chanin,2009 This textbook reader discusses the importance of organization and reorganization in the contemporary structure of the American federal government First it deals with the decision to change structural arrangements within the bureaucracy Through a range of conceptual readings it explores why reorganization and changing the structure of government continues to happen allowing the reader to understand the multiple and often conflicting goals involved in changing organizational structure It highlights two contrasting approaches to reorganization a management approach and a policy approach Secondly it discusses the consequences of reorganization activity by focusing on the results of a number of federal government reorganizations The examples include the U S Department of Homeland Security the U S Department of Defense the U S Department of Education and proposals to establish a U S Department of Food Safety This is an ideal text for courses in public management
