Recalling The Wild Naturalism And The Closing Of The American West:

Recalling the Wild Mary Lawlor, 2000 Ever since the first interactions between Europeans and Native Americans the West has served as a site of complex geographical social and cultural transformation American literature is defined in part by the central symbols derived from these points of contact By the end of the nineteenth century the Western frontier was declared closed a demise solidified by Frederick Jackson Turner's influential essay *The Significance of the Frontier* in *American History* 1893 At the same time naturalism was popularized by the writings of Frank Norris Stephen Crane Jack London Willa Cather and the photographs of Edward Curtis Though very different artists they were united by their common attraction to the mythic American West As she investigates the interactions of representations of the West Lawlor effortlessly melds literary studies American studies and history She traces the cultural conception of the American West through its incarnations in the westernism of Daniel Boone and James Fenimore Cooper and the romanticism of the expansive frontier they helped formulate Simultaneously however the influence of evolutionism and the styles of French naturalism began to challenge this romantic idiom This naturalistic discourse constructed the West as a strictly material place picturing a limited and often limiting geography that portrayed regional identity as the product of material forces rather than of individualistic enterprise With subtle probing language Lawlor explains how literary and artistic devices helped shape the idea of the American West and the changing landscape of the continent at the turn of the last century

Brutes In Suits John Pettegrew, 2021-04-27 A vivid massively researched history of hyper masculine sensibility An instructive and provocative view of men's dark side Peter Filene *Men and Masculinities* Are men truly predisposed to violence and aggression Is it the biological fate of males to struggle for domination over women and vie against one another endlessly These and related queries have long vexed philosophers social scientists and other students of human behavior In *Brutes in Suits* historian John Pettegrew examines theoretical writings and cultural traditions in the United States to find that Darwinian arguments to the contrary masculine aggression can be interpreted as a modern strategy for taking power Drawing ideas from varied and at times seemingly contradictory sources Pettegrew argues that traditionally held beliefs about masculinity developed largely through language and cultural habit and that these same tools can be employed to break through the myth that brutishness is an inherently male trait A major re-synthesis of late nineteenth and early twentieth century manhood *Brutes in Suits* develops ambitious lines of research into the social science of sexual difference and professional history's celebration of rugged individualism the hunting and killing genre of popular men's literature that master text of hypermasculinity college football military culture war making and finding pleasure in killing and patriarchy sexual jealousy and the law This timely assessment of the evolution of masculine culture will be welcomed and debated by social and intellectual historians for years to come Pettegrew's book remains rigorous and passionate in its narration of the historic appeal as well as the immediate dangers of de-evolutionary masculinity *American Historical Review*

Narrating the American West , **The Oxford Handbook of American Literary Naturalism** Keith Newlin,2011-03-01

After its heyday in the late nineteenth and early twentieth century naturalism a genre that typically depicts human beings as the product of biological and environmental forces over which they have little control was supplanted by modernism a genre in which writers experimented with innovations in form and content In the last decade the movement is again attracting spirited scholarly debate The Oxford Handbook of American Literary Naturalism takes stock of the best new research in the field through collecting twenty eight original essays drawing upon recent scholarship in literary and cultural studies The contributors offer an authoritative and in depth reassessment of writers from Stephen Crane Frank Norris Theodore Dreiser and Jack London to Kate Chopin Edith Wharton Ernest Hemingway Richard Wright John Steinbeck Joyce Carol Oates and Cormac McCarthy One set of essays focus on the genre itself exploring the historical contexts that gave birth to it the problem of definition its interconnections with other genres the scientific and philosophical ideas that motivate naturalist authors and the continuing presence of naturalism in twenty first century fiction Others examine the tensions within the genre the role of women and African American writers depictions of sexuality the problem of race and the critique of commodity culture and class A final set of essays looks beyond the works to consider the role of the marketplace in the development of naturalism the popular and critical response to the works and the influence of naturalism in the other arts

Katherine Fusco,2016-03-17 Typically studies of early cinema s relation to literature have focused on the interactions between film and modernism When film first emerged however it was naturalism not modernism competing for the American public s attention In this media ecosystem the cinema appeared alongside the works of authors including Charlotte Perkins Gilman Jack London and Frank Norris Drawing on contemporaneous theories of time and modernity as well as recent scholarship on film narrative and naturalism this book moves beyond traditional adaptation studies approaches to argue that both naturalism and the early cinema intervened in the era s varying experiments with temporality and time management Specifically it shows that American naturalist novels are constructed around a sustained formal and thematic interrogation of the relationship between human freedom and temporal inexorability and that the early cinema developed its norms in the context of naturalist experiments with time The book identifies the silent cinema and naturalist novel s shared privileging of narrative progress over character development as a symbolic solution to social and aesthetic concerns ranging from systems of representation to historiography labor reform miscegenation and birth control This volume thus establishes the dynamic exchange between silent film and naturalism arguing that in the products of this exchange personality figures as excess

bogging down otherwise efficient narratives of progress Considering naturalist authors and a diverse range of early film genres this is the first book length study of the reciprocal media exchanges that took place when the cinema was new It will be a valuable resource to those with interests in Adaptation Studies American Literature Film History Literary Naturalism Modernism and Narrative Theory

Reading for Liberalism Stephen J. Mexal, 2020-04-01 Founded in 1868 the Overland Monthly was a San Francisco based literary magazine whose mix of humor pathos and romantic nostalgia for a lost frontier was an immediate sensation on the East Coast Due in part to a regional desire to attract settlers and financial investment the essays and short fiction published in the Overland Monthly often portrayed the American West as a civilized evolution of and not a savage regression from eastern bourgeois modernity and democracy Stories about the American West have for centuries been integral to the way we imagine freedom the individual and the possibility for alternate political realities Reading for Liberalism examines the shifting literary and narrative construction of liberal selfhood in California in the late nineteenth century through case studies of a number of western American writers who wrote for the Overland Monthly including Noah Brooks Ina Coolbrith Bret Harte Jack London John Muir and Frank Norris among others Reading for Liberalism argues that Harte the magazine s founding editor and the other members of the Overland group critiqued and reimagined the often invisible fabric of American freedom Reading for Liberalism uncovers and examines in the text of the Overland Monthly the relationship between wilderness literature race and the production of individual freedom in late nineteenth century California

Quest West Richard Lehan,2014-05-05 Few spaces remain as central to American consciousness as the western frontier The vast territory which for generations fueled the desires and conquests of artists philosophers and politicians alike now offers new discoveries in Richard Lehan s *Quest West* Through an intellectual and cultural history of the frontier experience Lehan details the transformations of ideas and literary forms that occurred as the country expanded to the west and demonstrates how the wilderness and then by turn the urban frontier represent an ideological summary of the nation itself His study involves the foundations of belief and the realms of evolving interpretations from mythic destiny to the more

regional address of historicism In both instances the desire is to find meaning in the lost past By tracing the evolution of Frederick Jackson Turner s famous thesis that the unchartered frontier ended in 1890 and was replaced with an equally precarious urban landscape Lehan argues that the two spaces became the basis for a division still evident in America today Historically the wilderness accommodated conservative thinking while urban environments proved more conducive to liberal values Ideologies stemming from the two regions as Lehan shows found literary equivalents in fictional narratives ranging from subgenres like the Western and naturalism to modern forms like neorealism and noir extending even into the postmodern Lehan offers a view of the West as a cultural phenomenon borne of ideological changes encompassing historical and literary movements from Puritan perspectives to the revisionist claims of Mark Twain and Walt Whitman from homesteading to imperial ambition Quest West traces these competing ideas as they appear in the works of major American writers such as James Fenimore Cooper Walt Whitman Willa Cather William Faulkner F Scott Fitzgerald John Dos Passos Nathanael West and John Steinbeck An important work of literary and historical scholarship Quest West presents compelling evidence that the meaning of America remains inseparable from the march of seminal ideas westward [Research Guide to American Literature](#) Benjamín Franklin,2010 Presents American literature from the beginnings to the Revolutionary War including essays narratives and more **Combating Injustice** Jon Falsarella Dawson,2022-05-04 In Combating Injustice Jon Falsarella Dawson approaches American literary naturalism as a means of social criticism exploring the powerful economic arguments and commentaries on labor struggles presented in novels by Frank Norris Jack London and John Steinbeck Making use of extensive archival research Dawson considers many of the original periodical sources that fueled books from McTeague to The Grapes of Wrath as Norris London and Steinbeck transformed contemporary materials into illustrations of the socioeconomic forces that shape American life By depicting the operations of powerful individuals and institutions these naturalist writers offered audiences a greater awareness of the plight of labor so that readers might find the inspiration to become agents of change Works such as The Octopus The Iron Heel Martin Eden and In Dubious Battle illuminate many of the central economic issues at play in the United States during the late nineteenth and early twentieth centuries including the rise of commodity culture labor disputes involving industrial and agricultural workers widespread poverty extreme inequality and the concentration of resources and land ownership Norris London and Steinbeck highlighted the dangers of these developments by charting their impact on central characters whose fates result from the predatory tactics of corporate monopolies wealthy individuals and large financial establishments Dawson s lucid analysis shows how all three writers drawing on contemporary events accentuated the need for reform and stressed the potential for change by human action Each author took inspiration from notable events in California ranging from the Mussel Slough tragedy of 1880 to the agricultural strikes in the Central Valley during the 1930s presenting the state as a microcosm for conditions throughout the nation during a period of tremendous upheaval Combating Injustice The Naturalism of Frank Norris Jack

heat equation with the crank nicolson method on matlab - Jun 13 2023

web mar 10 2022 i am trying to implement the crank nicolson method in matlab of this equation $\frac{du}{dt} = \frac{d^2u}{dx^2}$ $f(x,t)$ $u(0,t) = 0$ $u(x,0) = 0$ with $f(x,t) = 20 \exp(50x) \cdot 10^{-2}$ if $t \leq 2$ else $f(x,t) = 0$ the boundary conditions are $u(0,x) = 0$ $u(1,t) = 1$ here is my mathematical thinking of the form $a \cdot u(1) + b \cdot u(0) = f_n$
