Recent Advances In Perinatal Medicine:

Recent Advances In Perinatal Medicine - Proceedings Of The 100th Course Of The International School Of Medical Sciences

T H Bloomfield, E V Cosmi, Gian Carlo Di Renzo, D F Hawkins, 1999-09-17 This volume is based on presentations at the fifth course on perinatal medicine held in the International School of Medical Sciences at the Ettore Majorana Centre for Scientific Culture in Erice Sicily in March 1996 It has had a prolonged gestation but the presentations have been updated and thus the book will benefit perinatologists internationally The introductory lecture by philosopher Donald Evans is of great interest discussing the issues which all those involved in reproductive medicine in its widest sense are dealing with all the time but seldom think about or put in context Subsequent papers deal with understanding the development and management of the fetus and newborn along lines which represent real progress in perinatal medicine The epilogue based on a seminar will be a help to all those Europeans and others struggling to present their work in English language journals and books
