authoritarian impulses Bringing together approaches from politics sociology history and anthropology the chapters shed much needed light on these crucial questions They offer scholars and nonspecialists alike a comprehensive overview of the implications of the coup attempt and its aftermath on the issues of religion democracy the Kurds the state resistance and more besides Its effects have been felt in almost every aspect of Turkish society from religion to politics yet it came at a time when Turkey was already experiencing significant social and political turmoil under the increasingly authoritarian leadership of President Recep Tayyip Erdoğan Readers interested in contemporary politics Turkish and Middle Eastern studies will find the volume useful as they ponder other cases in this era of democratic retrenchment and global turmoil **The New Sultan** Soner Cagaptay, 2017-04-30 In a world of rising tensions between Russia and the United States the Middle East and Europe Sunnis and Shiites Islamism and liberalism Turkey is at the epicentre And at the heart of Turkey is its right wing populist president Recep Tayyip Erdoğan Since 2002 Erdoğan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power His crackdown has been brutal and consistent scores of journalists arrested academics officially banned from leaving the country university deans fired and many of the highest ranking military officers arrested In some senses the nefarious and failed 2016 coup has given Erdoğan the licence to make good on his repeated promise to bring order and stability under a strongman Here leading Turkish expert Soner Cagaptay will look at Erdoğan's roots in Turkish history what he believes in and how he has cemented his rule as well as what this means for the world The book will also unpick the threats Erdoğan has worked to combat from the liberal Turks to the Gulen movement from coup plotters to Kurdish nationalists all of which have culminated in the crisis of modern Turkey **Erdogan's Empire** Soner Cagaptay, 2019-09-19 Gradually since 2003 Turkey's autocratic leader Recep Tayyip Erdoğan has sought to make Turkey a great power in the tradition of past Turkish leaders from the late Ottoman sultans to Atatürk the founder of modern Turkey Here the leading authority Soner Cagaptay author of *The New Sultan* the first biography of President Erdoğan provides a masterful overview of the power politics in the Middle East and Turkey's place in it Erdoğan has picked an unorthodox model in the context of recent Turkish history attempting to cast his country as a stand alone Middle Eastern power In doing so Turkey has broken ranks with its traditional Western allies including the United States and has embraced an imperial style foreign policy which has aimed to restore Turkey's Ottoman era reach into the Arabian Middle East and the Balkans Today in addition to a domestic crackdown on dissent and journalistic freedoms driven by Erdoğan's style of governance Turkey faces a hostile world Ankara has nearly no friends left in the Middle East and it faces a threat from resurgent historic adversaries Russia and Iran Furthermore Turkey cannot rely on the unconditional support of its traditional Western allies Can Erdoğan deliver Turkey back to safety What are the risks that lie ahead for him and his country How can Turkey truly become a great power fulfilling a dream shared by many Turks the sultans Atatürk and Erdoğan himself
