The purpose of this book is to illustrate the complexity of the social cultural and legal milieu of schooling in the United States in which the improvement of religious literacy and understanding must take place Public education is the new commons We must negotiate this commons in two meanings of that term first we must come to mutual understandings and agreement about how to proceed toward a common horizon of a religiously plural America second we must work our way through the obstacles in these settings in practical ways to achieve results that work <u>Public Schools</u> Michael D.
