*Envisioning Magic* Peter Schäfer, Hans Kippenberg, 2018-09-24 This collection of twelve articles presents a selection of papers delivered in the course of a seminar 1994-95 and its concluding international symposium at the Institute for Advanced Study in Princeton The common theme is the interrelation between magic and religion focussing particularly on the Mediterranean world in Antiquity Egyptian Graeco Roman and Jewish beliefs and customs but also treating the early modern period in Northern Europe the Netherlands and Germany as well as offering more general reflections on elements of magic in language and Jewish mysticism The volume is characterized by an interdisciplinary approach and the use of varied methodologies emphasizing the dynamic nature of the often contradictory forces shaping religious beliefs and practices while dismissing the idea of a linear development from magic to religion or vice versa The contributors are outstanding scholars in

their fields Ancient Medieval and Modern History Religious Studies Jewish Studies Classical Studies Early Christianity  
 Islamic Studies Anthropology Egyptology and Comparative Literature Without a doubt this re evaluation of a fascinating age  
 old subject will stimulate scholarly discussion and appeal to educated non specialist readers as well     *The Cambridge  
 History of Magic and Witchcraft in the West* David J. Collins, S. J.,2015-03-02 This book presents twenty chapters by experts  
 in their fields providing a thorough and interdisciplinary overview of the theory and practice of magic in the West Its  
 chronological scope extends from the Ancient Near East to twenty first century North America its objects of analysis range  
 from Persian curse tablets to US neo paganism For comparative purposes the volume includes chapters on developments in  
 the Jewish and Muslim worlds evaluated not simply for what they contributed at various points to European notions of magic  
 but also as models of alternative development in ancient Mediterranean legacy Similarly the volume highlights the  
 transformative and challenging encounters of Europeans with non Europeans regarding the practice of magic in both early  
 modern colonization and more recent decolonization     Hasidism Beyond Modernity Naftali Loewenthal,2019-12-18 The  
 Habad school of hasidism is distinguished today from other hasidic groups by its famous emphasis on outreach on  
 messianism and on empowering women Hasidism Beyond Modernity provides a critical thematic study of the movement from  
 its beginnings showing how its unusual qualities evolved Topics investigated include the theoretical underpinning of the  
 outreach ethos the turn towards women in the twentieth century new attitudes to non Jews the role of the individual in the  
 hasidic collective spiritual contemplation in the context of modernity the quest for inclusivism in the face of prevailing  
 schismatic processes messianism in both spiritual and political forms and the direction of the movement after the passing of  
 its seventh rebbe Rabbi Menachem Mendel Schneerson in 1994 Attention is given to many contrasts pre modern modern and  
 postmodern conceptions of Judaism the clash between maintaining an enclave and outreach models of Jewish society  
 particularist and universalist trends and the subtle interplay of mystical faith and rationality Some of the chapters are new  
 others published in an earlier form have been updated to take account of recent scholarship This book presents an in depth  
 study of an intriguing movement which takes traditional hasidism beyond modernity     *Esoteric Transfers and  
 Constructions* Mark Sedgwick,Francesco Piraino,2021-02-27 Similarities between esoteric and mystical currents in different  
 religious traditions have long interested scholars This book takes a new look at the relationship between such currents It  
 advances a discussion that started with the search for religious essences archetypes and universals from William James to  
 Erans The universal categories that resulted from that search were later criticized as essentialist constructions and  
 questioned by deconstructionists An alternative explanation was advanced by diffusionists that there were transfers between  
 different traditions This book presents empirical case studies of such constructions and of transfers between Judaism  
 Christianity and Islam in the premodern period and Judaism Christianity and Western esotericism in the modern period It  
 shows that there were indeed transfers that can be clearly documented and that there were also indeed constructions often

very imaginative It also shows that there were many cases that were neither transfers nor constructions but a mixture of the two

Kimberly B Stratton investigates the cultural and ideological motivations behind early imaginings of the magician the sorceress and the witch in the ancient world Accusations of magic could carry the death penalty or at the very least marginalize the person or group they targeted But Stratton moves beyond the popular view of these accusations as mere slander In her view representations and accusations of sorcery mirror the complex struggle of ancient societies to define authority legitimacy and Otherness Stratton argues that the concept magic first emerged as a discourse in ancient Athens where it operated part and parcel of the struggle to define Greek identity in opposition to the uncivilized barbarian following the Persian Wars The idea of magic then spread throughout the Hellenized world and Rome reflecting and adapting to political forces values and social concerns in each society Stratton considers the portrayal of witches and magicians in the literature of four related periods and cultures classical Athens early imperial Rome pre Constantine Christianity and rabbinic Judaism She compares patterns in their representations of magic and analyzes the relationship between these stereotypes and the social factors that shaped them Stratton s comparative approach illuminates the degree to which magic was and still is a cultural construct that depended upon and reflected particular social contexts Unlike most previous studies of magic which treated the classical world separately from antique Judaism Naming the Witch highlights the degree to which these ancient cultures shared ideas about power and legitimate authority even while constructing and deploying those ideas in different ways The book also interrogates the common association of women with magic denaturalizing the gendered stereotype in the process Drawing on Michel Foucault s notion of discourse as well as the work of other contemporary theorists such as Homi K Bhabha and Bruce Lincoln Stratton s bewitching study presents a more nuanced ideologically sensitive approach to understanding the witch in Western history **Handbook for the Study of the Historical Jesus (4 Vols)** Tom Holmén, Stanley E. Taylor, 2013-07-09 A century that began with modernism sweeping across Europe is ending with a remarkable resurgence of religious beliefs and practices throughout the world Wherever one looks today from headlines about political turmoil in the Middle East to pop music and videos one cannot escape the pivotal role of religious beliefs and practices in shaping selves societies and cultures Following in the very successful tradition of Critical Terms for Literary Studies and Critical Terms for Art History this book attempts to provide a revitalized self aware vocabulary with which this bewildering religious diversity can be accurately described and responsibly discussed Leading scholars working in a variety of traditions demonstrate through their incisive discussions that even our most basic terms for understanding religion are not neutral but carry specific historical and conceptual freight These essays adopt the approach that has won this book s predecessors such widespread acclaim each provides a concise history of a

critical term explores the issues raised by the term and puts the term to use in an analysis of a religious work practice or event Moving across Judaism Christianity Hinduism Buddhism Islam and Native American and Mayan religions contributors explore terms ranging from experience territory and image to God sacrifice and transgression The result is an essential reference that will reshape the field of religious studies and transform the way in which religion is understood by scholars from all disciplines including anthropology sociology psychology cultural studies gender studies and literary studies
