The Way That Lives in the Heart Jean Elizabeth DeBernardi, 2006 The Way That Lives in the Heart is a richly detailed ethnographic analysis of the practice of Chinese religion in the modern multicultural Southeast Asian city of Penang Malaysia The book conveys both an understanding of shared religious practices and orientations and a sense of how individual men and women imagine represent and transform popular religious practices within the time and space of their own lives This work is original in three ways First the author investigates Penang Chinese religious practice as a total field of religious practice suggesting ways in which the religious culture including spirit mediumship has been transformed in the conjuncture with modernity Second the book emphasizes the way in which socially marginal spirit mediums use a religious anti language and unique religious rituals to set themselves apart from mainstream society Third the study investigates Penang Chinese religion as the product of a specific history rather than presenting an overgeneralized overview that claims to represent a single Chinese religion

What is Hinduism? Michael Baltutis, 2024-05-17 This book is an engaging introduction to the complex religious tradition of Hinduism Central to its focus

is demonstrating the fundamental diversity within Hinduism through the multiplicity of its core beliefs and traditions. Chapters are divided into four historical categories: Vedic, Ascetic, Classical, and Contemporary Hinduism, with each examining one deity alongside one key term serving as a twin focal point for a more complex discussion of related key texts, ideas, social structures, religious practices, festivals, and concepts such as ritual and sacrifice, music and devotion, and engagement and renunciation. The organization of this book requires that we see deities as not simply divine individuals who preside over one part of the Hindu world but that each deity operates as a larger cultural category whose related persons, concepts, and practices provide a vivid lens through which Hindu devotees see and continue to readapt to the world in which they live. With study questions, glossaries, and lists of key contemporary figures, this book is an essential and comprehensive resource for students encountering the multiplicity of Hinduism for the first time.
