The Individual in the Religions of the Ancient Mediterranean Jörg Rüpke, 2013-08-29 Ancient religions are usually treated as collective and political phenomena and apart from a few towering figures the individual religious agent has fallen out of view Addressing this gap the essays in this volume focus on the individual and individuality in ancient Mediterranean religion Even in antiquity individual religious action was not determined by traditional norms handed down through families and the larger social context but rather options were open and choices were made On the part of the individual this development is reflected in changes in individuation the parallel process of a gradual full integration into society and the development of self reflection and of a notion of individual identity These processes are analysed within the Hellenistic and Imperial periods down to Christian dominated late antiquity in both pagan polytheistic as well as Jewish monotheistic settings The volume focuses on individuation in everyday religious practices in Phoenicia various Greek cities and Rome and as identified in institutional developments and philosophical reflections on the self as exemplified by the Stoic Seneca

Peterson, 2009-09-20 What about those who have never heard The debate swirls and feelings run deep What is the fate of the unevangelized The traditional position that apart from an explicit faith in Jesus no one is saved seems to have fallen out of favor with many evangelicals Here is a passionate but irenic response to the

arguments of those who believe that the unevangelized can or might be saved apart from knowledge of Jesus Christ Building on the insights of others nine scholars introduce readers even those with little background to the ongoing discussion Key questions Is general revelation sufficient Are other religions salvific Do holy pagans exist Must faith be explicit Is exclusivism unjust are probed and answered from a biblical theological and historical perspective The book s positive thrust is summed up by editors Robert Peterson and Christopher Morgan God is passionately engaged in gathering people to know love and worship him from every tribe language people and nation And he has called us to join him on this mission *The Romans* Antony Kamm,2008-08-13 The second edition of *The Romans An Introduction* is a concise readable and comprehensive survey of the civilization of ancient Rome It covers more than 1200 years of political and military history including many of the famous and infamous personalities who featured in them Further it describes the religions society and daily life of the Romans and their literature art architecture and technology illustrated by extracts in new translations from Latin and Greek authors of the times This second edition contains extensive additional and revised material designed to enhance the value of the book to students especially of classical or Roman civilization Roman history or elementary Latin as well as to general readers and students of other disciplines for whom an understanding of the civilization and literature of Rome is desirable In particular the chapter on religions has been expanded as have the sections on the role of women and on Roman social divisions and cultural traditions There is more too on the diversity and administration of the empire at different periods on changes in the army and on significant figures of the middle and later imperial eras New features include a glossary of Latin terms and timelines Maps have been redrawn and new ones included along with extra illustrations and reading lists have been revised and updated The book now has its own dedicated website at [www the romans co uk](http://www.the-romans.co.uk) which is packed full of additional resources *The Diffusion of Ecclesiastical Authority* Darin H. Land,2008-07-17 The Diffusion of Ecclesiastical Authority explores the leadership of the church in Acts from a sociological perspective Two primary models emerge from a sociologically informed investigation of first century Greco Roman and Jewish religious leadership manager leader and innovator leader An examination of seven passages in Acts reveals that the leaders of the early church although initially conforming to cultural expectations are best described as innovator leaders whose counter cultural actions resulted in the empowerment of new leaders and the advancement of the gospel Through the use of fictive kinship language the voluntary sharing of authority the fostering of a sense of mutual dependence on God as the common patron and the redefinition of what is honorable the leaders in Acts consistently enabled others to share authority in the church *Roman Religion and the Cult of Diana at Aricia* C. M. C. Green,2007 The sanctuary dedicated to Diana at Aricia flourished from the Bronze age to the second century CE From its archaic beginnings in the wooded crater beside the lake known as the mirror of Dianea it grew into a grand Hellenistic style complex that attracted crowds of pilgrims and the sick Diana was also believed to confer power on leaders This book examines the history of Diana s cult and healing sanctuary which remained a significant and wealthy

religious center for more than a thousand years It sheds new light on Diana herself on the use of rational as well as ritual healing in the sanctuary on the subtle distinctions between Latin religious sensibility and the more austere Roman practice and on the interpenetration of cult and politics in Latin and Roman history **Empire of the Romans** John

This book explores the role of bodily sensory experience in early Christianity first seventh centuries AD by focusing on the importance of smell in ancient Mediterranean culture Following its legalization in the fourth century Roman Empire Christianity cultivated a dramatically flourishing devotional piety in which the bodily senses were utilized as crucial instruments of human divine interaction Rich olfactory practices developed as part of this shift with lavish uses of incense holy oils and other sacred scents At the same time Christians showed profound interest in what smells could mean How could the experience of smell be construed in revelatory terms What specifically could it convey How and what could be known through smell Scenting Salvation argues that ancient Christians used olfactory experience for purposes of a distinctive religious epistemology formulating knowledge of the divine in order to yield in turn a particular human identity Using a wide array of Pagan Jewish and Christian sources Susan Ashbrook Harvey examines the ancient understanding of smell through

religious rituals liturgical practices mystagogical commentaries literary imagery homiletic conventions scientific medical and cosmological models ascetic disciplines theological discourse and eschatological expectations In the process she argues for a richer appreciation of ancient notions of embodiment and of the roles the body might serve in religion *Beck on Mithraism* Roger Beck,2020-11-25 Roger Beck a world authority on Mithraism brings together his major writings on the Mysteries of Mithras in the context of the culture and religions of imperial Rome In these studies he opens new vistas on myth making ritual symbolism the role of astrology in the cult recently discovered Mithraic monuments and artefacts and the emergence of Mithraism and Christianity concurrently in the first century Beck offers new introductions to his thematically framed groups of writings and adds six entirely new essays published here for the first time These essays link his research to contemporary studies in cognitive science of religion and anthropology of religion This collection will appeal particularly to scholars exploring contemporary aspects in anthropology of religion astronomy and astrology cults and myths images and symbols as well as traditional scholars of Greco Roman antiquity and Christian origins *Life in Roman Empire* Stanford Mc Krause,1951 At its peak the population of the city of Rome probably exceeded one million However the Roman Empire was an agricultural society where most people made a living from farming although there were many artisans Only a small minority of the population lived in cities There were basically two types of people citizens and non citizens Roman citizens had certain privileges In 212 AD all free people in the Roman Empire became citizens Edict of Caracalla *Seven Congregations in a Roman Crucible* Richard E. Religion and its History Jörg Rüpke,2021-05-09 Religion and its History offers a reflection of our operative concept of religion and religions developing a set of approaches that bridge the widely assumed gulf between analysing present religion and doing history of religion Religious Studies have adapted a wide range of methodologies from sociological tool kits to insights and concepts from disciplines of social and cultural studies Their massive historical claims which typically idealize and reify communities and traditions and build normative claims thereupon lack a critical engagement on the part of the researchers This book radically rethinks and critically engages with these biases It does so by offering neither an abridged
