## **Religions Of Late Antiquity In Practice Princeton Readings:**

Religions of Late Antiquity in Practice Richard Valantasis, 2000 This is an unprecedented collection of nearly seventy Late Antique primary religious texts. These texts, all in new English translation and many appearing in English for the first time, represent every major religious current from the late first century until the rise of Islam. Produced through the efforts of thirty-six leading scholars in the field, they constitute a comprehensive view of religious practice in Late Antiquity. Religious life and performance during this period comprised diverse, often unusual practices. Philosophical ascent, magic, legal pronouncement, hymnography, dietary and sexual restriction, and rhetoric were all part of this deeply fascinating world. Religious and political identity often intertwined, as reflected in the Roman persecution of Christians. And a fluid boundary between religion and superstition was contested in daily life. Many practices, including ascetic training, crossed religious boundaries. Others, such as incubation at specific temples and certain divination rites, were distinctive practices of individual groups and orders. Intrinsically interesting, the practice of religion in the Late Antique also edifies modern-day religious life. As this volume shows, the origins of the contemporary Western religious terrain can be gleaned in this period. Rabbinic Judaism flourished and spread; Christianity developed still important theological categories and structures. And even movements that did not survive intact, such as Neoplatonism and the once powerful Manichaean churches, continue to influence religion today. This rich sourcebook includes discussions of asceticism, religious organization, ritual, martyrdom, religion's social implications, law, and theology. Its unique emphasis on practice and its inclusion of texts translated from lesser-known languages advance the study of religious history in several directions. A strong interdisciplinary orientation will reward scholars and students of religion, theology, gender studies, classical literatures, and history. Each text is accompanied by an introduction and a bibliography for further reading and research, making the book appropriate for use in any university or seminary classroom.

*Gender Differences and the Making of Liturgical History* Teresa Berger, 2020-03-26 Mapping uncharted territory in the study of liturgy's past this book offers a history to contemporary questions around gender and liturgical life Teresa Berger looks at liturgy's past through the lens of gender history understood as attending not only to the historically prominent binary of men and women but to all gender identities including intersexed persons ascetic virgins eunuchs and priestly men Demonstrating what a gender attentive inquiry is able to achieve Berger explores both traditional fundamentals such as liturgical space and eucharistic practice and also new ways of studying the past for example by asking about the developing link between liturgical presiding and priestly masculinity Drawing on historical case studies and focusing particularly on the early centuries of Christian worship this book ultimately aims at the present by lifting a veil on liturgy's past to allow for a richly diverse notion of gender differences as these continue to shape liturgical life [The Oxford Handbook of Early Christian Biblical Interpretation](#) Paul M. Taylor, Ilaria L. E. Ramelli, 2021-02-18 This authoritative collection brings together the latest thinking on

women's leadership in early Christianity *Patterns of Women's Leadership in Early Christianity* considers the evidence for ways in which women exercised leadership in churches from the 1st to the 9th centuries CE. This rich and diverse volume breaks new ground in the study of women in early Christianity. This is not about working with one method based on one type of feminist theory but overall there is nevertheless a feminist or egalitarian agenda in considering the full equality of women with men in religious spheres a positive goal with the assumption that this full equality has yet to be attained. The chapters revisit both older studies and offers new and unpublished research exploring the many ways in which ancient Christian women's leadership could function. **The Ashgate Research Companion to Byzantine Hagiography** Stephanos Efthymiadis, 2016-04-01 For an entire millennium Byzantine hagiography inspired by the veneration of many saints exhibited literary dynamism and a capacity to vary its basic forms. The subgenres into which it branched out after its remarkable start in the fourth century underwent alternating phases of development and decline that were intertwined with changes in the political, social and literary spheres. The selection of saintly heroes, an interest in depicting social landscapes and the modulation of linguistic and stylistic registers captured the voice of *homo byzantinus* down to the end of the empire in the fifteenth century. The seventeen chapters in this companion form the sequel to those in volume I which dealt with the periods and regions of Byzantine hagiography and complete the first comprehensive survey ever produced in this field. The book is the work of an international group of experts in the field and is addressed to both a broader public and the scholarly community of Byzantinists, medievalists, historians of religion and theorists of narrative. It highlights the literary dimension and the research potential of a representative number of texts, not only those appreciated by the Byzantines themselves but those which modern readers rank high due to their literary quality or historical relevance. *The Gnostic Bible* Willis Barnstone, Marvin W. Meyer, 2006 The most comprehensive collection of gnostic literature ever published, this volume is the result of a unique collaboration between a renowned poet/translator and a leading scholar of early Christian texts. *John Chrysostom and African Charismatic Theology in Conversation* Samantha L. Miller, 2021-03-18 This book puts John Chrysostom in conversation with deliverance ministries and the prosperity gospel in modern African charismatic Christianity. Samantha Miller argues that Chrysostom had a cosmology not unlike that present in the charismatic Christianity of the global south where the world is populated by spirits able to affect the material world. Additionally, Chrysostom had plenty to say about suffering, demons and prosperity. Through this conversation, issues of personal moral responsibility and salvation rise to the surface and it is through these issues that modern Western and African Christians, theologians, pastors, missionaries and laity can perhaps have a conversation that gets past the question of a spirit-inhabited world and talk together about the saving work of Christ for the benefit of all the church. **From Rome to Byzantium AD 363 to 565** A. D. Lee, 2013-01-15 Between the deaths of the Emperors Julian 363 and Justinian 565 the Roman Empire underwent momentous changes. Most obviously, control of the west was lost to barbarian groups during the fifth century and although

parts were recovered by Justinian the empire's centre of gravity shifted irrevocably to the east with its focal point now the city of Constantinople. Equally important was the increasing dominance of Christianity not only in religious life but also in politics, society and culture. Doug Lee charts these and other significant developments which contributed to the transformation of ancient Rome and its empire into Byzantium and the early medieval west. By emphasising the resilience of the east during late antiquity and the continuing vitality of urban life and the economy, this volume offers an alternative perspective to the traditional paradigm of decline and fall.

*Divining Gospel* Jeff W. Childers, 2020-03-23

Ancient manuscripts of John's Gospel containing hermeneiai have long puzzled scholars, provoking debate about their origins, purpose and use. The fragmentary nature of the early evidence has impeded progress towards a better understanding of these specialized books. The present study shows that these books are *Divining Gospels*, editions of John's Gospel incorporating lot divination materials for use in fortune telling. The study centers on material presented here for the first time: the text and translation of a unique sixth-century Syriac manuscript, the earliest and most complete example of a hermeneia Gospel. An analysis of the Syriac along with evidence from Greek, Coptic, Latin and Armenian versions shows they all preserve vestiges of the same apparatus disseminated widely at an early time throughout many different Christian communities. These books must be situated squarely within the development of divinatory practices in early and late antique Christianity. However, they represent a true hermeneutic, a method by which interpreters brought the potency of the Bible to bear on the everyday concerns of people who consulted them for help. Furthermore, the *Divining Gospel* draws on the special aura that John's Gospel held in the Christian imagination, both as text and as textual object. An analysis of the interplay between the biblical text and sacred codex, the oracles, the ritual practitioner and the client, enriches our appreciation of this distinctive hermeneutic. Contextualizing these materials in popular use illuminates the fraught relationships between the ecclesial establishment, ritual experts operating on the margins of orthodox respectability, and lay clients seeking knowledge and help.

Religion and ecology has arrived. What was once a niche interest for a few academics concerned with environmental issues and a few environmentalists interested in religion has become an established academic field with classic texts, graduate programs, regular meetings at academic conferences, and growing interest from other academics and the mass media. Theologians, ethicists, sociologists and other scholars are engaged in a broad dialogue about the ways religious studies can help understand and address environmental problems, including the sorts of methodological, terminological and substantive debates that characterize any academic discourse. This book recognizes the field that has taken shape, reflects on the ways it is changing, and anticipates its development in the future. The essays offer analyses and reflections from emerging scholars of religion and ecology, each addressing her or his own specialty in light of two questions: 1. What have we inherited from the work that has come before us, and 2. What inquiries, concerns and conversation partners should be central to the next generation of scholarship? The aim of

this volume is not to lay out a single and clear path forward for the field Rather the authors critically reflect on the field from within outline some of the major issues we face in the academy and offer perspectives that will nurture continued dialogue

**Epiphanius of Cyprus** Andrew S. Jacobs, 2016-07-05 Epiphanius Bishop of Constantia on Cyprus from 367 to 403 C E was incredibly influential in the last decades of the fourth century Whereas his major surviving text the Panarion an encyclopedia of heresies is studied for lost sources Epiphanius himself is often dismissed as an anti intellectual eccentric a marginal figure of late antiquity In this book Andrew Jacobs moves Epiphanius from the margin back toward the center and proposes we view major cultural themes of late antiquity in a new light altogether Through an examination of the key cultural concepts of celebrity conversion discipline scripture and salvation Jacobs shifts our understanding of late antiquity from a transformational period open to new ideas and peoples toward a Christian Empire that posited a troubling but ever present otherness at the center of its cultural production
