## **Religious Change And Cultural Domination:**

**Religious Change and Cultural Domination** David N. Lorenzen, 1981 Religious Change and Cultural Domination, 1981 **Religious Changes and Cultural Transformations in the Early Modern Western Sephardic Communities** Yosef Kaplan, 2019-02-11 From the sixteenth century on hundreds of Portuguese New Christians began to flow to Venice and Livorno in Italy and to Amsterdam and Hamburg in northwest Europe In those cities and later in London Bordeaux and Bayonne as well Iberian conversos established their own Jewish communities openly adhering to Judaism Despite the features these communities shared with other confessional groups in exile what set them apart was very significant In contrast to other European confessional communities whose religious affiliation was uninterrupted the Western Sephardic Jews came to Judaism after a separation of generations from the religion of their ancestors In this edited volume several experts in the field detail the religious and cultural changes that occurred in the Early Modern Western Sephardic communities Highly recommended for all academic and Jewish libraries David B Levy Touro College NYC in Association of Jewish Libraries News and Reviews 1 2 2019 **Islamization and Native Religion in the Golden Horde** Devin DeWeese, 2010-11-01 This book is the first substantial study of Islamization in any part of Inner Asia from any perspective and the first to emphasize conversion narratives as important sources for understanding the dynamics of Islamization Challenging the prevailing notions of the nature of Islam in Inner Asia it explores how conversion to Islam was woven together with indigenous Inner Asian religious values and thereby incorporated as a central and defining element in popular discourse about communal origins and identity The book traces the many echoes of a single conversion narrative through six centuries the previously unknown recounting of the dramatic contest in which the khan zbek adopted Islam at the behest of a Sufi saint named Baba T kles DeWeese provides the English language translation of this and another text as well as translations and analyses of a wide range of passages from historical sources and epic and folkloric materials Not only does this study deepen our understanding of the peoples of Central Asia involved in so much turmoil today but it also provides a model for other scholars to emulate in looking at the process of Islamization and communal religious conversion in general as it occurred elsewhere in the world Cultural Domination Thomas M. Besch, Harold Kincaid, Tarun Menon, Raphael van Riel, 2024-12-10 Cultural domination has received attention inside and outside of academia but it remains under explored in recent philosophical debate To fill this gap this book brings together ten original research contributions that engage the theme from a variety of different perspectives They range from contributions to the philosophy of social science to advanced work in normative political philosophy The diversity of approaches reflects the intellectual richness of the theme Ideas of cultural domination not only raise complex conceptual and methodological questions that can challenge our understandings of domination or culture such ideas can also play an important role both in explanations of salient social phenomena such as social structures and in an evaluation and critique of such phenomena The diversity of styles of analysis theoretical

commitments and normative frameworks across the chapters makes this book ideal for advanced undergraduate and graduate students looking for an entry point into this complex issue as well as for scholars in philosophy social science and cultural studies interested in the current state of the art Cultural Hegemony in a Scientific World ,2020-12-07 This volume in political epistemology offers a comprehensive discussion of the multiple applicability of Gramscian concepts and categories to the historical sociological and cultural analysis of science The authors argue that the perspective of hegemony and subalternity allows us critically to assess the political directedness of scientific practices as well as to reflect on the ideological status of disciplines that deal with science at a meta level historical socio historical and epistemological Contributors include Massimiliano Badino Javier Balsa Lino Camprub Ana Carneiro Lu s Miguel Carolino Riccardo Ciavolella Roger Cooter Alina Sandra Cucu Maria Paula Diogo Isabel Jim nez Lucena Annelies Lannoy Jorge Molero Mesa Agust Nieto Galan Pietro Daniel Omodeo Matteo Realdi Jaume Sastre Juan Arne Schirrmacher Ana Sim es Carlos Tabernero Holgado and Carlos Ziller Camenietzki **Historical Dictionary of Sikhism** Louis E. Otherness the simple fact of being different in some way has come to be defined as in and of itself evil Miroslav Volf contends that if the healing word of the gospel is to be heard today Christian theology must find ways of speaking that address the hatred of the other Is there any hope of embracing our enemies Of opening the door to reconciliation Reaching back to the New Testament metaphor of salvation as reconciliation Volf proposes the idea of embrace as a theological response to the problem of exclusion Increasingly we see that exclusion has become the primary sin skewing our perceptions of reality and causing us to react out of fear and anger to all those who are not within our ever narrowing circle In light of this Christians must learn that salvation comes not only as we are reconciled to God and not only as we learn to live with one another but as we take the dangerous and costly step of opening ourselves to the other of enfolding him or her in the same embrace with which we have been enfolded by God Volf won the 2002 Louisville Grawemeyer Award in Religion for the first edition of his book *Exclusion Embrace A Theological Exploration of Identity Otherness and Reconciliation* Abingdon 1996 In that first edition professor Volf a Croatian by birth analyzed the civil war and ethnic cleansing in the former Yugoslavia and he readily found other examples of cultural ethnic and racial conflict to illustrate his points Since September 11 2001 and the subsequent epidemic of terror and massive refugee suffering throughout the world Volf revised *Exclusion and Embrace* to account for the evolving dynamics of inter ethnic and international strife Islamist Insurgents on the Defensive Dave Dilegge, 2018-02-28 This work is the fourth Small Wars Journal anthology focusing on radical Sunni Islamic terrorists and insurgent groups It covers this professional journals writings for 2016 and is a compliment to the earlier Global Radical Islamist Insurgency anthologies that were produced as Vol I 2007/2011 published in 2015 and Vol II 2012/2014 published in 2016 and Jihadi Terrorism Insurgency and the Islamic State spanning 2015 published in 2017 This anthology which offers well over six hundred pages of focused analysis follows the same general conceptual breakdown as the earlier works and is divided into two major thematic sections one focusing on al Qaeda and Islamic state activities in 2016 and the other focusing on US Allied policies and counterinsurgent strategies **Sacred Dialogues: Christianity and Native Religions in the Colonial Americas 1492-1700** Nicholas Griffiths, 2017 A Spanish conquistador who posed as a sorcerer and cured native Americans as he trekked across an unknown wilderness a French Jesuit who conjured rain clouds in order to impress his indigenous flock with the potency of Christian magic a Puritan minister who healed a native chief in order to win him for God a Mexican noble who was burned at the stake for resisting the gentle Franciscan friars an Andean chief who was haunted by nightmares in which his native gods did battle with the Christian Father a Huron magician who vied with French missionaries over spirits of the night in a shaking tent ceremony These are a few of the individuals whose struggles are brought to life in the pages of this book Their experiences among others reveal what happened when Christianity came into contact with Native American religions in three distinct regions of sixteenth and seventeenth century colonial America Spanish French and British **The Untouchables** Oliver Mendelsohn, Marika Vicziany, 1998-04-30 In a sensitive and

compelling account of the lives of those at the very bottom of Indian society Oliver Mendelsohn and Marika Vicziany explore the construction of the Untouchables as a social and political category the historical background which led to such a definition and their position in India today The authors argue that despite efforts to ameliorate their condition on the part of the state a considerable edifice of discrimination persists on the basis of a tradition of ritual subordination Even now therefore it still makes sense to categorise these people as Untouchables The book promises to make a major contribution to the social and economic debates on poverty while its wide ranging perspectives will ensure an interdisciplinary readership from historians of South Asia to students of politics economics religion and sociology

*Africa in the Colonial Ages of Empire* Mentan, Tatah, 2017-12-16 Words like colonialism and empire were once frowned upon in the U S and other Western mainstream media as worn out left wing rhetoric that didn't fit reality Not anymore Tatah Mentan observes that a growing chorus of right wing ideologues with close ties to the Western administrations war making hawks in NATO are encouraging Washington and the rest of Europe to take pride in the expansion of their power over people and nations around the globe Africa in the Colonial Ages of Empire is written from the perspective that the scholarly lives of academics researching on Africa are changing constantly in flux and increasingly bound to the demands of Western colonial imperialism This existential situation has forced the continent to morph into a tool in the hands of Colonial Empire According to Tatah Mentan the effects of this existential situation of Africa compel serious academic scrutiny At the same time inquiry into the African predicament has been changing and evolving within and against the rhythms of this new normal of Colonial Empire Old or New The author insists that the long and bloody history of imperial conquest that began with the dawn of capitalism needs critical scholarly examination As Marx wrote in Capital The discovery of gold and silver in America the extirpation enslavement and

entombment in mines of the aboriginal population the beginning of the conquest and looting of the East Indies the turning of Africa into a warren for the commercial hunting of black skins signaled the rosy dawn of the era of capitalist production These idyllic proceedings are the chief moment of primitive accumulation Africa in the Colonial Ages of Empire is therefore a MUST READ for faculty students as well as policy makers alike in the changing dynamics of their profession be it theoretically methodologically or structurally and materially Bible Translation and the Spread of the Church Philip C.
