Religious Convictions:

Religious Convictions and Political Choice Kent Greenawalt, 1987-12-10 How far may Americans properly rely on their religious beliefs when they make and defend political decisions For example are ordinary citizens or legislators doing something wrong when they consciously allow their decisions respecting abortion laws to be determined by their religious views Despite its intense contemporary relevance the full dimensions of this issue have until now not been thoroughly examined Religious Convictions and Political Choice represents the first attempt to fill this gap Beginning with an account of the basic premises of our liberal democracy Greenawalt moves to a comparison between rational secular grounds of decision and grounds based on religious convictions He discusses particular issues such as animal rights and abortion showing how religious convictions can bear on an individual's decisions about them and inquires whether reliance on such convictions is compatible with liberal democratic premises In conclusion he argues that citizens cannot be expected to rely exclusively on rational secular grounds

Religious Convictions and Political Choice Kent Greenawalt, 1991 How far may Americans properly rely on their religious beliefs when they make and defend political decisions Are decisions based on religious convictions compatible with liberal democratic premises Kent Greenawalt dissects such issues as abortion and animal rights to illustrate secular and religious bases for decision making concluding that citizens cannot be expected to rely exclusively on rational secular grounds

Religious Conviction in Liberal Politics Christopher J. Eberle, 2002-05-02 What role should a citizen's religious convictions play in her political activities Is she for example permitted to decide on the basis of her religious convictions to support laws that criminalize abortion or discourage homosexual relations Christopher Eberle is deeply at odds with the dominant orthodoxy among political theorists about the relation of religion and politics His argument is that a citizen may responsibly ground her political commitments on religious beliefs even if her only reasons for her political commitments are religious in nature His ideal of citizenship allows citizens to engage in politics without privatizing their religious commitments and yet does not license mindless and intransigent sectarianism An inherently controversial book that offers a substantial challenge to political liberalism it will be

Christian Ethics Introduced Hans O. Tiefel, 2024-03-11 Christian Ethics Introduced asks why humans count as ends in themselves The biblical answer was is that humans have standing inherent worth as creatures in the image of God This traditional answer yielded to seventeenth and eighteenth century enlightenment secularism To these secularists human reason promised to be a surer and more peaceable foundation for a just culture than religion Human rationality the light of human reason would enlighten and improve the human condition Two world wars and more realistic trends in new social sciences created not just awareness of human irrationality but fostered skepticism of sound foundations for morality and justice It seemed that both traditional religion and enlightened reason fell short of what had been hoped And the cause of failure may not lie in traditional religion or in human irrationality Rather the problem might lie in human conduct Specifically

it may lie in the human inclination to favor self over others of the me outranking the we Christian responses to the human failure to live a moral and just life recognize the persistence of immoral conduct acknowledge it in regard to oneself ask for forgiveness and make amends and peace with God and with those wronged Bases of Religious Belief, Historic and Ideal

(Routledge Revivals) Clarke E. Cochran,2014-06-27 Religious crosses the spheres of both the private life and the public institution In a liberal democracy public and private interests and goals prove to be inseparable Clarke Cochran s interdisciplinary study brings political theory and the sociology of religion together in a fresh interpretation of liberal culture First published in 1990 this analysis begins with a reassessment of the nature of the public and the private in relation to the political The controversy over religion and politics is examined in light of such contested issues of political life as sexuality abortion and the changing nature of the family Clarifying a number of debates central to contemporary society this timely reissue will be of particular value to students with an interest in the relationship between religious society and politics

Religion in Liberal Political Philosophy Cécile Laborde,Aurélia Bardon,2017-05-26 Until now there has been no direct and extensive engagement with the category of religion from liberal political philosophy Over the last thirty years or so liberals have tended to analyze religion under proximate categories such as conceptions of the good in debates about neutrality or culture in debates about multiculturalism US constitutional lawyers and French political theorists both tackled the category of religion head on under First Amendment jurisprudence and the political tradition of la cit respectively but neither of these specialized national discourses found their way into mainstream liberal political philosophy This is somewhat paradoxical because key liberal notions state sovereignty toleration individual freedom the rights of conscience public reason were elaborated as a response to 17th Century European Wars of Religion and the fundamental structure of liberalism is rooted in the western experience of politico religious conflict So a reappraisal of this tradition and of its validity in the light of contemporary challenges is well overdue This book offers the first extensive engagement with religion from liberal political philosophers The volume analyzes from within the liberal philosophical tradition itself the key notions of conscience public reason non establishment and neutrality Insofar as the contemporary religious revival is seen as posing a challenge to liberalism it seems more crucial than ever to explore the specific resources that the liberal tradition has to answer it

Why We Must Question the Beliefs of Our Leaders Damon Linker, 2010-09-27 A manifesto seeking to exhort both believers and atheists to behave better in the public sphere The Constitution states that no religious test may keep a candidate from aspiring to political office Yet since John F Kennedy used the phrase to deflect concerns about his Catholicism the public has largely avoided probing candidates religious beliefs Is it true however that a candidate s religious convictions should be off limits to public scrutiny Damon Linker doesn t think so and in this book he outlines the various elements of religious belief including radical atheism that are simply incompatible with high office and sometimes even active citizenship in a democracy In six forceful chapters he enlightens us to the complicated interrelations between churches and states consistently applying a political litmus test to a range of theological views Along the way he clearly explains among other topics why the government in a religiously tolerant society must not promote a uniform absolute code of ethics and behavior why the conviction that America is worthy of divine attention is dangerous and why the liberal position on the political deregulation of sex is our nation s only hope for conciliation In this provocative hard hitting manifesto Linker exhorts both believers and atheists to behave better in the public sphere and he offers a carefully charted road map for doing so

Religious Beliefs and Conscientious Exemptions in a Liberal State John Adenitire, 2019-06-13 The central focus of this edited collection is on the ever growing practice in liberal states to claim exemption from legal duties on the basis of a conscientious objection Traditional claims have included objections to compulsory military draft and to the provision of abortions Contemporary claims include objections to anti discrimination law by providers of public services such as bakers and B B hoteliers who do not want to serve same sex couples The book investigates the practice both traditional and contemporary from three distinct perspectives theoretical doctrinal with special emphasis on UK Canadian and US law and comparative Cumulatively the contributors provide a comprehensive set of reflections on how the practice is to be viewed and carried out in the context of a liberal state **Religion and Generalised Trust** Handi Hadiwitanto, 2016 For most Indonesian citizens Muslims and Christians alike religion plays an important role in private and public life Against the backdrop of tacit and overt conflicts between religious groups in Indonesia this study examines the potential role of religion in building trust between people To what extent does religion induce or reduce trust between Muslims and Christians While religious communities are important socialising agencies for moral principles that may encourage trust religious identification may also be related to distrust towards others making trust a problematic issue in the context of interreligious relations This dissertation describes how trust is determined by religion in both positive and negative ways and how it can be seen as a crucial concept within the religious meaning system Series Interreligious Studies Vol 9 Subject Religious Studies Southeast Asian Studies Sociology *Religious Diversity and Public Religion in China* Zhibin Xie, 2006 This book addresses

the issue of public religion and its implications in Chinese society Zhibin Xie explores various normative considerations concerning the appropriate role of religion in public political life in a democratic culture Besides drawing on the theoretical discourse on religion in the public sphere from Western academics it holds that the issue of religion in Chinese politics should be addressed by paying attention to characteristics of religious diversity and its political context in China This leads to a position of liberal constrained public religion in China which encourages religious contribution to the public sphere as a substantial component of religious liberty in China on the one hand and proposes some constraints both upon government and religions for regulating religious political discourse on the other
