Black Christology and the Quest for Authenticity John H. McClendon III, 2019-05-03 Black Christology and the Quest for Authenticity A Philosophical Appraisal constitutes a philosophical inquiry on Black Theology and its attendant Black Christology Explicitly the philosophical examination of Black Theology conceptually maps its quest for establishing Black Christology as an authentic form within Christian theology This text critically expounds on the methodologies and arguments which guide how Black Theology specifically affirms Black Christology as the definitive paradigm for authentic Christianity Significantly the racialized character of Black Theology immediately sets this discourse within the context of philosophy of race Clearly the philosophy of race in terms of its substance and scope is continually expanding Notably the philosophy of religion in its conceptual association with the African American experience considerably enriches the content of the philosophy of race Therefore Black Christology and the Quest for Authenticity A Philosophical Appraisal stands as a unique contribution to philosophy of race Summarily while this book tackles the formidable problem of Christian theological subject matter nonetheless the reader must be aware that this is not a work executed methodologically in any theological manner inclusive of Christian theology Subsequently while the object of our investigation substantively remains theological in character the method of investigation is guided by philosophical inquiry which is based on secular principles Furthermore although most mainstream works in philosophy of religion along with theology neglect to examine African American theologians and philosophers the subject matter of Black Christology substantially facilitates in filling this intellectual void

The Construction of the Supernatural in Euro-American

Cultures Benson Saler, 2021-12-02 This book describes aspects of the concept of the supernatural from the intellectual history of Euro American cultures These samplings shed light on issues in the study of religions and religion rather than attempting to provide either a lineally coherent or exhaustive account of a somewhat fraught and complicated notion Observations include uses of the term among the ancient Greeks and medieval Christian theologians and 19th and 20th century social scientists This book highlights more recent academics who draw on the cognitive and evolutionary sciences in attempting to make sense of recurrent features of the representations and meta representations of different cultures This includes such counter intuitive notions as the mysterious among the Wayuu of Columbia and Venezuela and vampires in Europe and North America These observations are concluded in a final essay Toward a Realistic and Relevant Science of Religion which presents considered opinions on how we might draw on the cognitive and evolutionary sciences to establish the foundations for a genuinely scientific study of religions and religion Benson Saler sadly passed away shortly after writing this book An appreciation of his work written by Armin W Geertz is included in this volume *The God Who Is* Hans Schwarz, 2011-01-01 Who is the God in whom Christians believe Is he just a figment of the human mind as critics of religion claimed in the nineteenth century and as crusading atheists assert again today Since the beginnings of rational thought the brightest minds among humanity have attempted to assert that God does indeed exist But even the so called proofs for God s existence always started with the assumption that there is someone to prove As soon as we move beyond that which is within space and time mere proofs or disproofs no longer suffice Both believers and unbelievers live to a certain degree by faith Yet religion is inextricably connected with human history When we journey through the landscape of religion and witness its gradual unfolding we soon realize that not all religions are equal Though they may be witnesses of the same God the way they talk about God is so different that this not only leads to very different concepts of God but also to different approaches to life on this earth At the end of this long journey we finally arrive at the Judeo Christian tradition which witnesses to the God in whom Christians believe This book seeks to show how this belief matured and what difference this belief still makes today **The Herods** Bruce Chilton, 2021 The Herods explores the Herodian rule from Herod the Great s father Antipater until the dynastic sunset with Berenik Herod s great granddaughter describing the theocratic aims that motivated Herod and his progeny and the groups and factions within Judaism and Christianity that often defined themselves in opposition to the Herodian project **Prejudice, Stigma, Privilege, and Oppression** Lorraine T. Benuto, Melanie P. Duckworth, Akihiko Masuda, William O'Donohue, 2020-05-11 This book addresses the ways in which clinical psychologists ought to conceptualize and respond to the prejudice and oppression that their clients experience Thus the link between prejudice and oppression to psychopathology is explored Basic scientific information about prejudice is reviewed and the current status of the major minority groups is explored Chapters examine the role of prejudice and oppression in institutional structures such as the Diagnostic and Statistical Manual of Mental Disorders and professional organizations The discussion addresses ways to

assess these phenomena in individual cases and how to intervene in psychotherapy The book ventures to evaluate the status of the profession of psychology with respect to prejudice stigmatization and oppression by critically examining evidence that the profession has responded adequately to these social problems These issues are hard to talk about and are not well talked about in the field This book is a push in the right direction

Following Reason Mark Manolopoulos, 2019-03-01 Throughout history humanity has regularly followed anti rational figures and forces demagogic rulers perverted deities exploitative economic systems and so on Such leadership and followership have wrought all kinds of oppression and conflict What if this pattern could be altered What if society were led by Reason instead Prompted by Cicero's exhortation to follow reason as leader as though it were a god Following Reason A Theory and Strategy for Rational Leadership explores this intriguing and potentially transformative possibility Manolopoulos uniquely blends leadership psychology with a deep understanding of philosophical reasoning theory to show how leaders can bravely reimagine and reconstruct society The book retraces leadership mis steps in history and proposes a more logicentric theory of leadership built on compelling philosophical axioms and arguments Following Reason emphasizes the weight of philosophy and cognition in leadership and advocates for a diverse network that can create uphold and implement a blueprint for a better global society This wide ranging and timely book is ideal for leadership management and philosophy students at undergraduate and graduate levels

Fry, 2014-06-05 This book covers arguments made by various sides of the political religious divide from the past 30 years showing what the actual differences are between these groups By stressing the typically ignored similarities the book better informs partisans and the public to move debate forward

Christianity: The Basics Bruce Chilton, 2014-07-11 Christianity The Basics is a compelling introduction to both the central pillars of the Christian faith and the rich and varied history of this most global of global religions This book traces the development of Christianity through an exploration of some of the key beliefs practices and emotions which have been recurrent symbols through the centuries Christ the kingdom of heaven and sin Baptism

Eucharist and prayer Joy divine union and self denial Encompassing the major epochs of Christian history and examining the unity and divisions created by these symbols Christianity The Basics is both a concise and comprehensive introduction to the Christian tradition Negotiating Boundaries in Multicultural Societies Dina Mansour,Andrew Milne,2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 This volume entitled Negotiating Boundaries in Multicultural Societies is divided into two main sections The Politics of Belonging and The Politics of Exclusion Both sections serve to explore the concepts of belonging and exclusion from an empirical political perspective Based on practical case studies each chapter sheds light on empirical aspects of the challenges of integration identity and citizenship within multicultural societies In addition to the challenges faced by particular social groups regarding their cultural and social integration that very much affects their sense of belonging and their overall perception of their own identity institutionalized political exclusion is still condoned if not practiced by states worldwide When found in a society of multiple identities failed integration often results in divided culturalism and hence nations This volume explores this predicament while referring to a number of country case studies **Cross over to the Cross** Rev. Dr. Elie Hasbani,2020-03-10 Crossover to the Cross was a labor of love as it represents a great passion of Rev Dr Hasbani reaching the lost Evangelizing to Shia Muslims in the US and the world was the topic of his Doctorate in Ministry dissertation which involved countless hours of reading similar books research interviews and self examination Crossover to the Cross was written to help Christians recognize God s heart for Muslims and to help overcome the personal spiritual political and cultural obstacles that are preventing much of the Western Church from effectively leading Muslims to the cross of Jesus with a special emphasis on the Shia Muslims who are often feared and misunderstood and thus ignored Crossover to the Cross is comprised of a collection of four smaller books each covering unique but related content which together create a book for Christians to understand the history culture background and beliefs of Shia Muslims Each chapter is followed by a group discussion with questions to provoke thought and action The content can be easily modified for reaching all Muslims and for general evangelism Crossover to the Cross is a practical tool that can be used in a small or large group setting to train and mobilize Christians to engage in missions to Muslims And to do so boldly in love and without fear clarifying any misconceptions of the cross of Jesus Christ War, Peace & Prosperity in the Name of God Murat Iyigun,2015-05-07 Differences among religious communities have motivated and continue to motivate many of the deadliest conflicts in human history But how did political power and organized religion become so thoroughly intertwined And how have religion and religiously motivated conflicts affected the evolution of societies throughout history from demographic and sociopolitical change to economic growth War Peace and Prosperity in the Name of God turns the focus on the big three monotheisms Judaism Islam and Christianity to consider these questions Chronicling the relatively rapid spread of the Abrahamic religions among the Old World Murat Iyigun shows that societies that adhered to a monotheistic belief in that era lasted longer suggesting that monotheism brought some sociopolitical advantages While

the inherent belief in one true god meant that these religious communities had sooner or later to contend with one another. Iyigun shows that differences among them were typically strong enough to trump disagreements within. The book concludes by documenting the long term repercussions of these dynamics for the organization of societies and their politics in Europe and the Middle East.

Law as Profession and Practice in Medieval Europe Kenneth Pennington, Melodie Harris Eichbauer, 2016-04-15 This volume brings together papers by a group of scholars distinguished in their own right in honour of James Brundage. The essays are organised into four sections each corresponding to an important focus of Brundage's scholarly work. The first section explores the connection between the development of medieval legal and constitutional thought. Thomas Izbicki, Kenneth Pennington and Charles Reid Jr explore various aspects of the jurisprudence of the *Ius commune* while James Powell, Michael Gervers and Nicole Hamonic, Olivia Robinson and Elizabeth Makowski examine how that jurisprudence was applied to various medieval institutions. Brian Tierney and James Muldoon conclude this section by demonstrating two important points: modern ideas of consent in the political sphere and fundamental principles of international law attributed to sixteenth century jurists like Hugo Grotius have deep roots in medieval jurisprudential thought. Patrick Zutshi, R. H. Helmholz, Peter Landau, Marjorie Chibnall and Edward Peters have written essays that augment Brundage's work on the growth of the legal profession and how traces of a legal education began to emerge in many diverse arenas. The influence of legal thinking on marriage and sexuality was another aspect of Brundage's broad interests. In the third section, Richard Kay, Charles Donahue Jr and Glenn Olsen explore the intersection of law and marriage and the interplay of legal thought on a central institution of Christian society. The contributions of Jonathan Riley-Smith and Robert Somerville in the fourth section round out the volume and are devoted to Brundage's path breaking work on medieval law and the crusading movement. The volume also includes a comprehensive bibliography of Brundage's work.

Encyclopedia of Time H. James Birx, 2009-01-07 With a strong interdisciplinary approach to a subject that does not lend itself easily to the reference format, this work may not seem to support directly academic programs beyond general research, but it is a more thorough and up to date treatment than Taylor and Francis's 1994 *Encyclopedia of Time*. Highly recommended. Library Journal. STARRED Review. Surveying the major facts, concepts, theories and speculations that infuse our present comprehension of time, the *Encyclopedia of Time: Science, Philosophy, Theology, Culture* explores the contributions of scientists, philosophers, theologians and creative artists from ancient times to the present. By drawing together into one collection ideas from scholars around the globe and in a wide range of disciplines, this *Encyclopedia* will provide readers with a greater understanding of and appreciation for the elusive phenomenon experienced as time. Features surveys of historical thought about time including those ideas that emerged in ancient Greece, early Christianity, the Italian Renaissance, the Age of Enlightenment and other periods. Covers the original and lasting insights of evolutionary biologist Charles Darwin, physicist Albert Einstein, philosopher Alfred North Whitehead and theologian Pierre Teilhard de Chardin. Discusses the significance of time in the writings of Isaac Asimov.

Samuel Taylor Coleridge Fyodor M Dostoevsky Francesco Petrarch H G Wells and numerous other authors Contains the contributions of naturalists and religionists including astronomers cosmologists physicists chemists geologists paleontologists anthropologists psychologists philosophers and theologians Includes artists portrayals of the fluidity of time including painter Salvador Dali s *The Persistence of Memory* and *The Discovery of America* by Christopher Columbus and writers Gustave Flaubert s *The Temptation of Saint Anthony* and Henryk Sienkiewicz s *Quo Vadis* Provides a truly interdisciplinary approach with discussions of Aztec Buddhist Christian Egyptian Ethiopian Hindu Islamic Navajo and many other cultures conceptions of time Key Themes Biography Biology Evolution Culture History Geology Paleontology Philosophy Physics Chemistry Psychology Literature Religion Theology Theories Concepts *Accepting and Excepting* Raphael Jospe,2025-09-30 *Accepting and Excepting On Pluralism and Chosenness* Out of the Sources of Judaism is a collection of essays examining the need for inter religious pluralism So long as religions compete with each other by exclusive claims to absolute truth and salvation how can they cooperate as forces for peace in an era of the global village and weapons of mass destruction Our cognition of reality is necessarily colored and shaped by language culture religion and gender Given inevitable epistemological not moral relativism exclusive and absolute truth claims are meaningless By a process of revaluation Jews can affirm the concept of the Chosen People as internally directed with no claims of superiority and observe traditional sancta without traditional theism *The Shifting Global Balance of Power: Perils of a World War and Preventive Measures* Dr. Yana Korobko,Mahmoud Musa,2014-06-09 Many believed that the world would remain everlastingly unchangeable in the aftermath of victory of the Allies the United States the Soviet Union China United Kingdom and France in World War II They remodeled the world map amongst themselves and affirmed that they will be guarantors of the international status quo However those who pledged to conserve peace are now breaking it leading the planet to the edge of clash This book differs from all others that dealt with possible World War III scenarios since it combines knowledge in the fields of history international relations economics sociology and psychology and philosophy Thus giving the reader a broader outlook on such matters as Potentially risky world war scenarios Dialogue between the West and Islam New emerging superpowers Psychological and Cyber Ware fare Preventive mechanisms such as early warning and preparedness operations
