Religious Studies Theology And The University Conflicting Maps Changing Terrain:

Religious Studies, Theology, and the University Linell E. Cady, Delwin Brown, 2002-10-10 Explores the relationship between religious studies and theology and the place of each in the modern secular university Religious Studies, Theology, and Human Flourishing Justin Thomas McDaniel, Hector Kilgoe, 2024 Religious Studies Theology and Human Flourishing contains essays by nine prominent scholars of religious studies and theology on approaches to cultivating human flourishing within the field of positive psychology Part of The Humanities and Human Flourishing series this volume represents perspectives from north India to the buckle of the American Bible Belt and explores the implications of religious studies and theology for well being illuminating connections between theory pedagogy and practice *Christian Theology and the Secular University* Paul A. Macdonald, Jr., 2017-02-24 If the secular university by definition is non sectarian or non denominational then how can it accommodate a discipline like Christian theology Doesn't the traditional goal of theological study which is to attain knowledge of the divine fundamentally conflict with the main goal of secular academic study which is to attain knowledge about ourselves and the world in which we live So why should theology be admitted or even care about being admitted into secular academic life And even if theology were admitted what contribution to secular academic life could it make Working from a Christian philosophical and theological perspective but also engaging a wide range of theologians philosophers and religious studies scholars Christian Theology and the Secular University takes on these questions arguing that Christian theology does belong in the secular university because it provides distinct resources that the secular university needs if it is going to fulfill what should be its main epistemic and educative ends This book offers a fresh and unique perspective to scholars working in the disciplines of theology philosophy and religious studies and to those in other academic disciplines who are interested in thinking critically and creatively about the place and nature of theological study within the secular university **Reinventing Religious Studies** Scott S. Elliott, 2014-10-20 Reinventing Religious Studies offers readers an opportunity to trace the important trends and developments in Religious Studies over the last forty years Over this time the study of religion has been transformed into a critical discipline informed by a wide range of perspectives from sociology to anthropology politics to material culture and economics to cultural theory Reinventing Religious Studies brings together key writings which have helped shape scholarship teaching and learning in the field All the essays are drawn from the CSSR Bulletin a provocative occasionally irreverent and always critical journal which has long been at the centre of debates in Religious Studies This collection will prove invaluable for students and scholars of theory and method in Religious Studies It offers readers a unique opportunity to understand the history of key issues in the study of religion and what remains central to the study of religion today **Theology and the End of Doctrine** Christine Helmer, 2014-08-22 This book is about the crisis brought about by doctrine's estrangement from reality that is from actual lives experiences histories and from God By invoking the end of doctrine Christine Helmer opens a new discussion of

doctrinal production that is engaged with the challenges and possibilities of modernity The end of doctrine refers on the one hand to unquestioning doctrinal reception which Helmer critiques and on the other represents an invitation to a new way of understanding the aim of doctrine in deeper connection to the reality that it seeks The book's first section offers an analysis of the current situation in theology by reconstructing a trajectory of Protestant theology from the turn of the twentieth century to today This history focuses primarily on the status of the word in theology and explains how changes in theology in the context of the political and social crisis in Europe in the 1920s and 1930s led to a distancing of the word from reality Helmer then turns to the constructive section of the book to propose a repositioning of theology to the world and to God Helmer's powerful work will inspire revitalized interest in both doctrine and theological inquiry itself

Comparative Secularisms in a Global Age L. Cady, E. Hurd, 2010-05-10 The history and politics of secularism and the public role of religion in France India Turkey and the United States It interprets the varieties of secularism as a series of evolving and contested processes of defining and remaking religion rather than a static solution to the challenges posed by religious and political difference

What is Religion? Nigel Ajay Kumar, 2014-01-15 What Is Religion is one of those questions rarely asked by Christian theologians who engage in interreligious discourse Nigel Ajay Kumar makes the case however that to answer this question is critical for Christian scholars who want to negotiate multiple religious identities as well as for those who want a clearer understanding of their own faith as religion Kumar takes a historical and theological approach to answering this question The history of the concept of religion is traced from biblical times to the Indian independence era Then a theological answer is offered not only by looking at the classical Indian theologian Pandipeddi Chenchiah but also by listening to other contemporary secular and theological voices This is the South Asian Edition of the original Wipf Stock edition 2013 with the same name

Explorations in Post-Secular Metaphysics Josef Bengtson, 2015-11-02 This book explores the metaphysical assumptions that underlie different interpretations of the relationship between religion and the secular faith and reason and transcendence and immanence It explores different answers to the question of how people of diverse religious and cultural identities can live together peacefully

Religion and Politics Johann P. Arnason, 2014-04-23 Combining theoretical and empirical research these 12 essays examine the role of religion and its prospects in Europe On the one hand the volume discusses growing Islamic presence in Europe as a reminder of enduring religious pluralism not least in view of the high prominence given to Islamic experience in arguments against over generalised notions of secularisation On the other hand it explores the question of Christian motivated extremism and religious nationalism Against this background the contributors discuss the role of religion in other countries throughout the world including China Japan Russia and the MENA region

Religion within the Limits of History Alone Demian Wheeler, 2020-09-01 Among the greatest challenges facing religious thinkers today is that created by historicism the notion that human beings and their myriad understandings of reality are utterly historical conditioned by contingent circumstances and tied to particular contexts In this book Demian

Wheeler confronts the historicist challenge by delineating and defending a particular trajectory of historicist thought known as pragmatic historicism Rooted in the German Enlightenment and fully developed within the early Chicago school of theology pragmatic historicism is a predominantly American tradition that was philosophically nurtured by classical pragmatism and its intellectual siblings naturalism and radical empiricism Religion within the Limits of History Alone not only undertakes a detailed genealogy of this pragmatic historicist lineage but also sets forth a constructive program for contemporary theology by charting a path for its future development Wheeler shows that pragmatic historicism is an underdeveloped resource for contemporary theology since it offers a model for normative religious thought that is theologically compelling yet wholly nonsupernaturalistic deeply pluralistic unflinchingly liberal and radically historicist

Analytic Theology and the Academic Study of Religion William Wood, 2021-01-28 Analytic theology can flourish in the secular academy and flourish as authentically Christian theology Analytic Theology and the Academic Study of Religion explains analytic theology to other theologians and scholars of religion while simultaneously explaining those other fields to analytic theologians William Wood defends analytic theology from some common criticisms but also argues that analytic theologians have much to learn from other forms of inquiry Analytic theology is a legitimate form of theology and a legitimate form of academic inquiry and it can be a valuable conversation partner within the wider religious studies academy Analytic Theology and the Academic Study of Religion articulates an attractive vision of analytic theology fosters a more fruitful interdisciplinary conversation and enables scholars across the religious studies academy to understand one another better

Teaching Civic Engagement Forrest Clingerman, Reid B. Locklin, 2017-08 Teaching Civic Engagement offers a new conceptual model an examination of theoretical questions and concerns and a variety of concrete teaching strategies to assist faculty in engaging questions of civic belonging and social activism in religion classrooms The book explores the civic relevance of the academic study of religion

The Gift of Theology Rosemary P. Carbine, Hilda P. Koster, 2015-12-01 Kathryn Tanner is undoubtedly one of the most important contemporary North American theologians From landmark studies in systematic and constructive theology to economics Tanner's work is a contribution of inestimable value hallmarked by its depth precision provocativeness and grace Unifying the immense scope of her work is the particular vision of God's self gift an internal dynamic communal reality that is expressed outward in acts of love and generosity that are creation incarnation and capacious life in the Spirit This vision as the grounding matrix of Tanner's theology has been extended beyond the disciplinary boundaries of theology in constructive explorations of economics social and political theory cultural studies and ethics This volume celebrates the vision and breadth of Tanner's unique contribution Essays by established scholars colleagues and former students trace out the key loci and themes from theological method the Trinity Christology creation to economics environmental and social ethics and politics to generate constructive and ecumenical conversation that presents Tanner as an important contemporary public theologian

Empirical Theology in Texts and Tables Leslie J. Francis, Jeff

Astley, Mandy Robbins, 2009-01-31 Empirical theology offers fresh and stimulating insights into the concerns of both the Church and the Academy. It does this by accessing relevant empirical evidence using the tools of the social sciences and placing this evidence in the context of theological critique and contemporary debate. In this pioneering collection of focused essays, leading experts of empirical theology illustrate key perspectives within this rapidly expanding discipline. The first section of the book explores theoretical issues underpinning the main methods of obtaining empirical data and the use of these data within theology. The other two sections display the role both of qualitative studies and of the analysis of quantitative data in exploring a range of theological beliefs and religious social and educational concerns. **Theology and**

the Anthropology of Christian Life Joel Robbins, 2020 How can we understand the role of religion in human experience and social life? This book argues that anthropology and theology can work together to answer this question. Robbins provides clear accounts of contemporary anthropological theory and theological debates around issues such as atonement, sin, and the potentials and limits of human action. *Regional, Critical, and Historical Approaches* Peter Antes, Armin W. Geertz, Randi R.

Warne, 2008-12-19 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies. The work follows in the footsteps of two former publications: *Classical Approaches to the Study of Religion* edited by Jacques Waardenburg (1973) and *Contemporary Approaches to the Study of Religion* edited by Frank Whaling (1984). *New Approaches to the Study of Religion* completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades. Many of the chapters, however, are also pathbreaking and point the way to future approaches. *African American Theology* Frederick L. Ware, 2016-03-01 This book presents a substantial introduction to the major methodologies, figures, and themes within African American theology. Frederick L. Ware explores African American theology from its inception and places it within dual contexts: first, the African American struggle for dignity and full humanity; and second, the broader scope of Christian belief. Readers will appreciate Ware's demonstration of how black theology is expressed in a wide range of sources that includes not only scholarly publications but also African American sermons, music, news, and editorials, biography, literature, popular periodicals, folklore, and philosophy. Each chapter concludes with questions for discussion and suggested resources for further study. Ware provides a seasoned perspective on where African American theology has been and where it is going, and he demonstrates its creativity within the chorus of Christian theology. **The Holy Spirit and the Christian Life** W.

Vondey, 2014-02-20 Twelve scholars from the biblical, historical, theological, and philosophical disciplines engage in a conversation on the transforming work of the Holy Spirit in the Christian life. The essays are held together by an enduring focus and concern to explore the relationship between the work of the Holy Spirit and Christian formation, discipleship, personal and social transformation. The book points toward the integration of theory and practice, theology and spirituality, and the mutual interest in fostering dialogue across disciplines and ecclesial traditions. *New Testament Theology and its*

Quest for Relevance Thomas R. Hatina, 2013-03-14 New Testament theology raises many questions not only within its own boundaries but also in relation to other fields such as history literary criticism sociology psychology history politics philosophy and religious studies But the overarching question concerns the relevance of two thousand year old writings in today's world How does one establish what is and is not relevant in the New Testament How does one communicate the ancient ideas presented in an alien language alien time and alien culture to a contemporary audience This book is intended to serve as a methodological introduction to the field of New Testament theology aimed at a range of readers undergraduate and Seminary students clergy and laypersons interested in the relevance of scripture It is a guide which aims to help readers understand how practitioners of New Testament theology have wrestled with the relationship between historical reconstruction of the New Testament and its interpretation in the modern world **Christian Practical Wisdom** Dorothy C. Bass, Kathleen A. Cahalan, Bonnie J. Miller-McLemore, James R. Nieman, Christian B. Scharen, 2016-05-05 In this richly collaborative work five distinguished scholars examine the oft neglected embodied practical wisdom that is essential for true theological understanding and faithful Christian living After first showing what Christian practical wisdom is and does in several real life situations the authors tell why such practical wisdom matters and how it operates exploring reasons behind its decline in both the academy and the church and setting forth constructive cases for its renewal
