Remaking The Chinese Leviathan Market Transition And The Politics O:

Remaking the Chinese Leviathan Dali L. Yang, 2022 In this provocative important study Dali L Yang examines a wide range of governance reforms in the People's Republic of China including administrative rationalization divestiture of businesses operated by the military and the building of anticorruption mechanisms The author also analyzes how China's leaders have reformed existing institutions and constructed new ones to cope with unruly markets curb corrupt practices and bring about a regulated economic order Though still a work in progress Yang argues taken together these reforms have improved the institutional environment for economic development and altered the landscape for China's ongoing struggle against rampant corruption These measures are also likely to have important implications for the exercise of governmental authority and for China's future political development As China's role on the world stage expands the way the State conducts itself assumes increasing importance not just for those concerned about the welfare of the Chinese people but also for those interested in China's role in regional and world affairs

Remaking the Chinese Leviathan Dali L. Yang, 2004 This book examines a wide range of governance reforms in the People's Republic of China including administrative rationalization divestiture of businesses operated by the military and the building of anticorruption mechanisms to analyze how China's leaders have reformed existing institutions and constructed new ones to cope with unruly markets curb corrupt practices and bring about a regulated economic order

China's Transition from Communism - New Perspectives Guoguang Wu, Helen Lansdowne, 2015-11-06 As China moved from a planned to a market economy many people expected that China's political system would similarly move from authoritarianism to democracy It is now clear however that political liberalisation does not necessarily follow economic liberalisation This book explores this apparent contradiction presenting many new perspectives and new thinking on the subject It considers the path of transition in China historically makes comparisons with other countries and examines how political culture and the political outlook in China are developing at present A key feature of the book is the fact that most of the contributors are China born Western trained scholars who bring deep knowledge and well informed views to the study

China 2020 Michael A. Santoro, 2015-01-26 Chinese society is plagued by many problems that have a direct impact on its current and future business and political environment worker rights product safety Internet freedom and the rule of law Drawing on knowledge gained through personal interviews documentary sources and almost two decades of visits to China Michael A Santoro offers a clear eyed view of the various internal forces such as regionalism corruption and growing inequality that will determine the direction and pace of economic social and political change Of special interest is Santoro's assessment of the role of multinational corporations in fostering or undermining social and political progress Santoro offers a fresh and innovative way of thinking about two questions that have preoccupied Western observers for decades What will be the effect of economic reform and prosperity on political reform How can companies operate with moral integrity and ethics in China In China 2020 Santoro unifies these hitherto separate questions

and demonstrates that moral integrity or lack of it by Western business will have a profound impact on whether economic privatization and growth usher in greater democracy and respect for human rights Offering a novel vision of China's future economic and political development Santoro rejects the conventional view that China will muddle through the next decade with incremental social and political changes Instead he argues that China will follow one or two widely divergent potential outcomes It might continue to progress steadily toward greater prosperity democracy and respect for human rights but it is also highly likely that China will instead fall backward economically and into an ever more authoritarian regime The next decade will be one of the most important in the history of China and owing to China's global impact the history of the modern world China 2020 describes various tectonic social and political battles going on within China The outcomes of these struggles will depend on a number of powerful indigenous forces as well as the decisions and actions of individual Chinese citizens Santoro strongly believes that Western businesses can and should influence these developments **Routledge**
