Rembrandt Michael Kitson,1992 An introduction to the work of Rembrandt
Surveys the life and work of seventeenth century artist Rembrandt van Rijn and includes over ninety color and black and white illustrations *Rembrandt* Trewin Copplestone,1967 **Dutch Painting** Christopher Brown,1976 Carefully chosen selection of plates covering all aspects of the Golden Age of Dutch painting are represented and reproduced in colors of the originals *Rembrandt* Christian Tümpel,1993 A book which is the result of more than 20 years of research and offers new interpretations of the art of Rembrandt van Rijn 1606 1669 It was designed to be a catalogue raisonne of works by the artist or works traditionally attributed to him In a text that incorporates his own scholarship as well as the latest findings of the Rembrandt Research Project the author explores the development of Rembrandt s art through the story of the artist s life First Tumpel frees the iconographic interpretation of Rembrandt s art of its traditional literary connections Second he demonstrates that Rembrandt was inspired by various 16th century visual materials and was therefore less original than was assumed until now The author also analyzes the stylistic traditions of Rembrandt s time and ultimately presents a series of convincing interpretations of Rembrandt s famous history pieces *Rembrandt* ,1965 **Dark Brilliance** Paul Strathern,2025-01-07 A sweeping history of The Age of Reason revealing how although it was a time of great progress it was also an era of brutality and intolerance with a very human cost During the 1600s between the end of the Renaissance and the start of the Enlightenment Europe lived through an era known as The Age of Reason This was a revolutionary period that saw great advances in areas such as art science philosophy political theory and economics However all this was accomplished against a background of extreme political turbulence on a continental scale in the form of internal conflicts and international wars Indeed the Age of Reason itself was born at the same time as the Thirty Years War which would devastate central Europe to an extent that would not be experienced again until World War I This period also saw the development of European empires across the world as well as a lucrative new transatlantic commerce that brought transformative riches to Western European society However there was a dark underside to this brilliant wealth it was dependent upon human slavery By exploring all the key events and bringing to life some of the most influential characters of the era including Caravaggio Rembrandt Newton Descartes Spinoza Louis XIV and Charles I acclaimed historian Paul Strathern tells the vivid story of this paradoxical age while also exploring the painful cost of creating the progress and modernity upon which the Western world was built **Rembrandt** Trewin Cooplestone,1967 *Rembrandt Harmenszoon van Rijn* Rembrandt,1967
