Rembrandt: The Painter Thinking Ernst van de Wetering, 2016-04-18 Throughout his life Rembrandt van Rijn 1606 1669 was considered an exceptional artist by contemporary art lovers In this highly original book Ernst van de Wetering investigates why Rembrandt from a very early age was praised by high placed connoisseurs like Constantijn Huygens It turns out that Rembrandt from his first endeavours in painting on had embarked on a journey past all the foundations of the art of painting which were considered essential in the seventeenth century In his systematic exploration of these foundations Rembrandt achieved mastery in all of them thus becoming the pittore famoso that count Cosimo the Medici visited at the end of his life Rembrandt never stopped searching for ever better solutions to the pictorial problems he saw himself confronted with this sometimes led to radical decisions and alterations in his way of working which cannot simply be explained by attributing them to a change in style or a natural development In a quest as rigorous and novel as Rembrandt's Van de Wetering shows us how Rembrandt dealt with the foundations of his art and used them to try and become the best painter the world had ever seen His book sheds new light both on Rembrandt's exceptional accomplishments and on the practice of painting in the Dutch Golden Age at large

Visions for the Church Paul M. Zulehner, 2018-04-01 Scepticism disappointment renunciation the situation of the church seems more volatile than ever Paul M Zulehner however is convinced that it is not the church that is in crisis but the changing times demand a reshaping In a run through the history of the Christian Church and Culture he shows that Christianity has often come to crossroads at which renewal and departure were necessary The key to rebirth he sees in powerful visions In the gospel and

in art in poetry and myth he finds stimuli which encourage finding new pathways With this book Zulehner gives Christians incentives for a church committed to the future Meditating true to life and practical his vision calls for a resurrection of the church Live Today perhaps we have so much discontent in some parts of the worldwide church because we lack motivating visions Structures are indispensable for the incarnation of a vision in history But they are not a substitute for visions The present church reorganisation concerns more structures than visions We speak more about money than God Of course Churches have to make structural adjustments And only if these are done the Churches start thinking about visions As Saarinen teaches we should look at things the other way round

Genre Imagery in Early Modern Northern Europe

ArthurJ. DiFuria,2017-07-05 Exploring the rich variety of pictorial rhetoric in early modern northern European genre images this volume deepens our understanding of genre s place in early modern visual culture From 1500 to 1700 artists in northern Europe pioneered the category of pictures now known as genre portrayals of people in ostensibly quotidian situations Critical approaches to genre images have moved past the antiquated notion that they portray uncomplicated slices of life describing them instead as heavily encoded pictorial essays laden with symbols that only the most erudite contemporary viewers and modern iconographers could fully comprehend These essays challenge that limiting binary revealing a more expansive array of accessible meanings in genre s deft grafting of everyday scenarios with a rich complex of experiential cultural political and religious references Authors deploy a variety of approaches to detail genre s multivalent relations to older more established pictorial and literary categories the interplay between the meaning of the everyday and its translation into images and the multifaceted concerns genre addressed for its rapidly expanding unprecedentedly diverse audience
