remains rife Becoming Heritage evaluates how heritage policies affected the Afro Colombian community of San Basilio de Palenque after it was proclaimed by UNESCO as Intangible Cultural Heritage of Humanity in 2005 Although the designation partially delivered on its promise of multicultural inclusion it also created ethno racial exclusion and conflict among groups within the Palenquero community The new forms of power knowledge skills and values created to safeguard heritage exacerbated political social symbolic and economic inequalities among Palenqueros and did little to ameliorate the harsh realities of living and dying in Palenque Bringing together broader discussions on race nation and inclusion in Colombia Becoming Heritage reveals that inequality in Palenque is not only a result of Black Colombians uneven access to resources it is enforced through heritage politics expertise and governance **SOMA** Indu Arora,2020-11-11
