Reformation Fictions Antoinina Bevan Zlatar, 2011-06-30 Reformation Fictions rehabilitates some twenty polemical dialogues published in Elizabethan England for the first time giving them a literary historicist and to a lesser extent theological reading By juxtaposing these Elizabethan publications with key Lutheran and Calvinist dialogues theological tracts catechisms sermons and dramatic interludes Antoinina Bevan Zlatar explores how individual dialogists exploit the fictionality of their chosen genre Writers like John V ron Anthony Gilby George Gifford John Nicholls Job Throckmorton and Arthur Dent to name the most prolific not only understood the dialogue s didactic advantages over other genres they also valued it as a strategic defence against the censor They were convinced as Erasmus had been before them that a cast of lively characters presented antithetically often with a liberal dose of Lucianic

humour worked wonders with carnal readers Here was an exemplary way to make doctrine entertaining and memorable here was the honey to make the medicine go down They knew too that these dialogues particularly their use of manifestly imaginary interlocutors and a plot of conversion licensed the delivery of singularly radical messages What comes to light is a body of literature often scurrilous always serious that gives us access to early modern concepts of fiction rhetoric and satire It showcases the imagery of Protestant polemic against Catholicism and puritan invective against the established Elizabethan Church all the while triggering the frisson that comes from the illusion of eavesdropping on early modern conversations

Misfit Modernism Octavio R. González, 2020-08-31 In this book Octavio R González revisits the theme of alienation in the twentieth century novel identifying an alternative aesthetic centered on the experience of double exile or marginalization from both majority and home culture This misfit modernist aesthetic decenters the mainstream narrative of modernism which explores alienation from a universal and existential perspective by showing how a group of authors leveraged modernist narrative to explore minoritarian experiences of cultural nonbelonging Tying the biography of a particular author to a close reading of one of that author's major works González considers in turn Nella Larsen's *Quicksand* Wallace Thurman's *The Blacker the Berry* Jean Rhys's *Quartet* and Christopher Isherwood's *A Single Man* Each of these novels explores conditions of maladjustment within one of three burgeoning cultural movements that sought representation in the greater public sphere the New Negro movement during the Harlem Renaissance the 1920s Paris expatriate scene and the queer expatriate scene in Los Angeles before Stonewall Using a methodological approach that resists institutional taxonomies of knowledge González shows that this double exile speaks profoundly through largely autobiographical narratives and that the novels' protagonists challenge the compromises made by these minoritarian groups out of an urge to assimilate into dominant social norms and values Original and innovative *Misfit Modernism* is a vital contribution to conversations about modernism in the contexts of sexual identity nationality and race Moving beyond the debates over the intellectual legacies of intersectionality and queer theory González shows us new ways to think about exclusion

Silent Film and the Formations of U.S. Literary Culture Sarah Gleeson-White, 2024-04-30 *Silent Film and the Formations of U.S. Literary Culture* Literature in Motion argues that the emergence of motion pictures constituted a defining moment in U.S. literary history Author Sarah Gleeson White discovers what happened to literary culture both popular and higher brow when inserted into the spectacular world of motion pictures during the early decades of the twentieth century How did literary culture respond to and how was it altered by the development of motion pictures literature's exemplar and rival in narrative realism and enthrallment Gleeson White draws on extensive archival film and literary materials and unearths a range of collaborative cross-media expressive and industrial practices to reveal the manifold ways in which early twentieth century literary culture sought both to harness and temper the reach of motion pictures
