Memory and the English Reformation Alexandra Walsham, Bronwyn Wallace, Ceri Law, Brian Cummings, 2020-11-12 The dramatic religious revolutions of the sixteenth and seventeenth centuries involved a battle over social memory On one side the Reformation repudiated key aspects of medieval commemorative culture on the other traditional religion claimed that Protestantism was a religion without memory This volume shows how religious memory was sometimes attacked and

extinguished while at other times rehabilitated in a modified guise It investigates how new modes of memorialisation were embodied in texts material objects images physical buildings rituals and bodily gestures Attentive to the roles played by denial amnesia and fabrication it also considers the retrospective processes by which the English Reformation became identified as an historic event Examining dissident as well as official versions of this story this richly illustrated interdisciplinary collection traces how memory of the religious revolution evolved in the two centuries following the Henrician schism and how the Reformation embedded itself in the early modern cultural imagination

Shakespeare's Political and Economic Language Vivian Thomas, 2015-03-26 Shakespeare's plays are pervaded by political and economic words and concepts not only in the histories and tragedies but also in the comedies and romances The lexicon of political and economic language in Shakespeare does not consist merely of arcane terms whose shifting meanings require exposition but includes an enormous number of relatively simple words which possess a structural significance in the configuration of meanings Often operating by such means as puns they open up a surprising number of possibilities The dictionary reveals the conceptual nucleus of each term and explores the contexts in which it is embedded The overlap between the political and economic dimensions of a word in Shakespeare's drama is particularly exciting as he is highly attuned to the interactions of these two spheres of human activity and their centrality in human affairs
