Sawyer, Joe Norris, 2016-09-07 This edited volume addresses the different methods professionals use to promote a critical reflective and reflexive stance among practitioners leading to both a reconceptualization of practice and its subsequent change The goal of increased reflection in professional education is intended to expand approaches for professionals to work with diverse others It is also intended to increase their levels of cognitive differentiation and depth of professional consciousness about themselves alongside diverse others in a rapidly changing world This is an important issue in a range of applied professional programs from education to medicine social work to psychology business to criminal justice in nearly every country in the world Subversive Seduction Travis Landry, 2013-01-10 Male male rivalry and female

passive choice the two principal tenets of Darwinian sexual selection raise important ethical questions in *The Descent of Man* and in the decades since about the subjugation of women If female choice is a key component of evolutionary success what impact does the constraint of women's choices have on society The elaborate courtship plots of 19th century Spanish novels with their fixation on suitors and selectors rivalry and seduction were attempts to grapple with the question of female agency in a patriarchal society By reading Darwin through the lens of the Spanish realist novel and vice versa Travis Landry brings new insights to our understanding of both while Darwin's theories have often been seen as biologically deterministic Landry asserts that Darwin's theory of sexual selection was characterized by an open ended dynamic whose oxymoronic emphasis on passive female choice carries the potential for revolutionary change in the status of women *Art and Religion in Africa* Rosalind Hackett, Rosalind I. The Routledge International Handbook to Veils and Veiling Anna-Mari Almila, David Inglis, 2017-07-06 Veils and veiling are controversial topics in social and political life generating debates across the world The veil is enmeshed within a complex web of relations encompassing politics religion and gender and conflicts over the nature of power legitimacy belief freedom agency and emancipation In recent years the veil has become both a potent and unsettling symbol and a rallying point for discourse and rhetoric concerning women Islam and the nature of politics Early studies in gender doctrine and politics of veiling appeared in the 1970s following the Islamic revival and re veiling trends that were dramatically expressed by 1979 s Iranian Islamic revolution In the 1990s research focussed on the development of both an Islamic culture industry and greater urban middle class consumption of Islamic garments and dress styles across the Islamic world In the last decade academics have studied Islamic fashion and marketing the political role of the headscarf the veiling of other religious groups such as Jews and Christians and secular forms of modest dress Using work from contributors across a range of disciplinary backgrounds and locations this book brings together these research strands to form the most comprehensive book ever conceived on this topic As such this handbook will be of interest to scholars and students of fashion gender studies religious studies politics and sociology

Playful Performers David Binkley, 2017-07-28 African children develop aesthetic sensibilities at an early age roughly from four to fourteen years By the time they become full fledged adolescents they may have had up to ten years experience with various art forms masking music costuming dancing and performance Aesthetic learning is vital to their maturation The contributors to this volume argue that the idea that learning the aesthetics of a culture only occurs after maturity is false as is the idea that children wearing masks is only play and is not to be taken seriously Playful Performers is a study of children s masquerades in Africa The contributors describe specific cases of young children s masking in the areas of west central and southern Africa which also happen to be the major areas of adult masquerading The volume reveals the considerable creativity and ingenuity that children exhibit in preparing costumes masks and musical instruments and in playing music dancing singing and acting The book includes over 50 pages of black and white photographs which illustrate and elaborate upon the authors main points The editors describe general categories of children s masquerades In each of the three masking categories children s relationships to their parents and other adults differ from a close relationship to some independence to almost complete independence No other major work has covered this aspect of African children at this age level The book offers a challenging perspective on young children seeing them as active agents in their own culture rather than passive recipients of culture as taught by parents and other

elders It will be interesting reading for anthropologists art historians educators and African studies specialists alike

Symbolic Objects in Contentious Politics Benjamin Abrams, Peter Robert Gardner, 2023-04-04 When we observe protest marches striking workers on picket lines and insurgent movements in the world today a litany of objects routinely fill our field of vision Some such objects are ubiquitous the world over like flags banners and placards Others are situationally unique Who could have anticipated the historical importance of a flower placed in the barrel of a gun a flaming torch a sea of umbrellas a motorist's yellow vest a feather headdress an AK 47 or a knitted pink hat This book explores the stuff at the heart of protests revolutions civil wars and other contentious political events with particular focus on those objects that have or acquire symbolic importance In the context of contentious politics disruptive political episodes where people try to change societies without going through institutions certain objects can divide and unite social groups tell stories make declarations spark controversy and even trigger violent upheavals This book draws together scholars from a variety of fields to discuss symbolic objects in contentious politics their meanings uses functions and social responses In bringing these phenomena together this book offers a serious distinctive and cohesive theoretical contribution that draws upon diverse scholarly work in order to form the building blocks for future inquiry in the field The aim is not merely to close the gap in the literature but to create space in the field for further and more fruitful inquiry
