Greeley,2017-07-05 The religious imagination is alive and well in the movies Contrary to those who criticize Hollywood popular movies very often have metaphorically represented God on the screen From Clint Eastwood as an avenging angel in Pale Rider and Nicolas Cage as a lovesick angel in City of Angels to Jessica Lange as an angel of death in All That Jazz and from George Burns as God in Oh God to Audrey Hepburn in Always to pure white light in Fearless and Flatliners God is very much present in the movies **The Love I Met on the Trail** Lee Jeon-Rok,2025-02-14 The breathing sound of birth pangs This collection is the author s first collection of poems and is being republished after 30 years It consists of 30 poems divided into the following five parts Plum Flower a Thousand Year of Love The Sun s Mistress Wolgye Ah Late Autumn Flaming Sunset My Love Sunae Bo Pure Love Story The Reason Yew Trees have survived for 2 000 years Author said the feeling of republishing of this collection after 30 years is not only strange but even magical Well then he is reborn let s do some cuddles What is poetry He asked this question 30years ago too Like finding an answer to a question that everyone can ask but no one can still on the line of verbal barbarism as much as the star in the night sky scattered He ask poetry again He said that although he may not be phoenix whose wings flutter across the light he may not a phoenix who eats bamboo shoots and does not anything other than the precious paulownia tree but like a skylark singing in the spring like a cicada enjoying the summer like a wildflower blooming in abundance in the field in the fall even if it s an old tree full of snow flakes in winter It s good So he hope to do this best to write healthy articles that comfort and support everyone and himself **Transcendent Apriorism** Mark Robert Burgess,2011-02 The idea that the solitary thinker using pure reason can unlock the deepest mysteries of reality is certainly an exciting one The rationalist dream began with Parmenides of Elea and became the epistemological foundation for the greatest metaphysical systems ever constructed This

thesis traces the complete historical development of this neglected epistemology and inaugurates a radical new appraisal of its method The new clarity provides fresh insights into traditional puzzles like the Cartesian Circle and whether Plato had a secret esoteric doctrine A new positive re evaluation of a doctrine thought to have been refuted by Kant and the positivists will provide interest for students philosophers and those interested in the history of ideas
