Reflections of Our Past John H. Relethford,Deborah A. Bolnick,2018-03-26 The rise of the multi billion dollar ancestry testing industry points to one immutable truth about us as human beings we want to know where we come from and who our ancestors were John H Relethford and Deborah A Bolnick explore this topic and many more in this second edition of Reflections of Our Past Where did modern humans come from and how important are the biological differences among us Are we descended from Neandertals How should we understand the connections between genetic ancestry race and identity Were Native Americans the first to inhabit the Americas Can we see evidence of the Viking invasions of Ireland a millennium ago even in the Irish of today Through engaging examination of issues such as these and using non technical language Reflections of Our Past shows how anthropologists use genetic information to suggest answers to fundamental questions about human history By looking at genetic variation in the world today and in the past we can reconstruct the recent and remote events and processes that have created the variation we see providing a fascinating reflection of our genetic past

Drone imaginaries Andreas Immanuel Graae,Kathrin Maurer,2021-06-15 There should no longer be any doubt drones are here to stay In civil society they are used for rescue surveillance transport and leisure And on the

battlefield their promises of remote protection and surgical precision have radically changed the way wars are fought But what impact are drones having on our identity and how are they affecting the communities around us This book addresses these questions by investigating the representation of civilian and military drones in visual arts literature and architecture What emerges the contributors argue is a compelling new aesthetic drone imaginary a prism of cultural and critical knowledge through which the complex interplay between drone technology and human communities is explored and from which its historical cultural and political dimensions can be assessed The contributors offer diverse approaches to this interdisciplinary field of aesthetic drone imaginaries With essays on the aesthetic configurations of drone swarming historical perspectives on early unmanned aviation as well as current debates on how drone technology alters the human body and creates new political imaginaries this book provides new insights to the rapidly evolving field of drone studies Working across art history literature photography feminism postcolonialism and cultural studies Drone imaginaries offers a unique insight into how drones are changing our societies

Mapping the Victorian Social Body Pamela K. Gilbert, 2004-02-01 The cholera epidemics that plagued London in the nineteenth century were a turning point in the science of epidemiology and public health and the use of maps to pinpoint the source of the disease initiated an explosion of medical and social mapping not only in London but throughout the British Empire as well Mapping the Victorian Social Body explores the impact of such maps on Victorian and ultimately present day perceptions of space Tracing the development of cholera mapping from the early sanitary period to the later medical period of which John Snow's work was a key example the book explores how maps of cholera outbreaks residents responses to those maps and the novels of Charles Dickens who drew heavily on this material contributed to an emerging vision of London as a metropolis The book then turns to India the metropole's colonial other and the perceived source of the disease In India the book argues imperial politics took cholera mapping in a wholly different direction and contributed to Britons perceptions of Indian space as quite different from that of home The book concludes by tracing the persistence of Victorian themes in current discourse particularly in terms of the identification of large cities with cancerous growth and of Africa with AIDS
