Bowker's Directory of Videocassettes for Children 1999 R R Bowker Publishing, Bowker, 1999-03 *Fluency Doesn't Just Happen with Addition and Subtraction* Nicki Newton, Ann Elise Record, Alison J. Mello, 2019-10-28 Fluency in math doesn't just happen. It is a well planned journey. In this book you'll find practical strategies and activities for teaching your elementary students basic addition and subtraction facts. The authors lay out the basic framework for building math fluency using a cycle of engagement, concrete, pictorial, abstract and provide a multitude of examples illustrating the strategies in action. You'll learn how to help students to model their thinking with a variety of tools, keep students engaged through games, poems, songs and technology, assess student development to facilitate active and continuous learning, implement distributed practices throughout the year, boost parental involvement so that students remain encouraged even as material becomes more complex. A final chapter devoted to action plans will help you put these strategies into practice in your classroom right away. Most importantly, you'll open the door to deep and lasting math fluency. *Succeed with learning* The Open University, This 24 hour free course gave guidance on how to build effective learning skills covering some of the key approaches to studying and planning ahead. *Learning ASP.NET 3.5* Jesse Liberty, Dan Hurwitz, Brian MacDonald, 2008-07-25 With this book you will learn how to create engaging and interactive web applications using the latest version of the world's most popular web development platform ASP.NET with AJAX built on the productivity enhancing features of Visual Studio 2008. All you need to get started is a basic knowledge of HTML and a desire to produce professional quality websites. Learning ASP.NET 3.5 introduces new skills in each new chapter and offers fully annotated and fully functional examples that you can put to work immediately. Each chapter adds detailed summaries, practice questions to ensure comprehension and exercises so you can apply what you've learned to new situations. Written by the bestselling author team of Jesse Liberty, Dan Hurwitz and Brian MacDonald, Learning ASP.NET 3.5 offers complete up to date coverage of ASP.NET 3.5 and AJAX. The book includes Chapters that are designed as a series of tutorials on different aspects of web development. Examples in each chapter that illustrate how a new concept works. Different chapters feature either a single running example with several stages or a series of smaller examples. A single large example in the final chapter offers that uses everything the reader has learned. VB, JavaScript and SQL Cheat Sheet sidebars to help readers with no little or no background with those topics. AJAX style fully integrated into ASP.NET programming the way it should be taught and used. If you want to get up to speed with the world's most popular web development technology, Learning ASP.NET 3.5 is the best resource for the job. **Teaching and Learning Algebraic Thinking with 5- to 12-Year-Olds** Carolyn Kieran, 2017-12-04 This book highlights new developments in the teaching and learning of algebraic thinking with 5 to 12 year olds.
