## Lure Of Dreams:

*The Lure of Dreams* Harvie Ferguson, 2005-08-04 From literary theory to social anthropology the influence of Freud runs through every part of the human and social sciences In *The Lure of Dreams* Harvie Ferguson shows how Freud's writings and particularly *The Interpretation of Dreams* contribute both in their content and in the baroque and dream like forms in which they are cast to our understanding of the character of modernity This novel and stimulating approach to Freud and to the dilemmas of modernity and postmodernity will fascinate everyone with an interest in the development of the modern consciousness

**The Theory of Dreams** A.R. German, 2023-05-19 About the Book Years ago as a little girl Sasha Palmer was the sole survivor of a tragic car accident that left her traumatized with night terrors and insomnia Today during a summer visit to her grandfather's she stumbles upon an invention of his he calls *The Dream Machine* After secretly connecting to its interface she learns to consciously manipulate and control her own dreams and creates a vivid dreamworld beyond her wildest expectations Meanwhile her repressed subconscious manifests itself as a trusted ally and guide throughout her dreamworld but unbeknownst to her develops its own agenda of trapping her in her dreams so it may become free As the battle of dueling conscious states ensues we bear witness to Sasha evolving from a nerdy preteen to a raging uncontrollable force

*Identification Practices in Twentieth-Century Fiction* Rex Ferguson, 2021-07-14 The task of identifying the individual has given rise to a number of technical innovations including fingerprint analysis and DNA profiling A range of methods have also been created for storing and classifying people's identities such as identity cards and digital records Identification Practices and Twentieth Century Fiction tests the hypothesis that these techniques and methods as practiced in the UK and US in the long 20th century are inherently related to the literary representation of self identity from the same period Until now the question of who one is in the sense of formal identification has remained detached from the question of who one is in terms of the representation of unique individuality Placing these two questions in dialogue allows for a re evaluation of the various ways in which uniqueness has been constructed during the period and for a re assessment of the historical and literary historical context of such construction In chapters ranging across the development of fingerprinting the institution of identity cards during the Second World War DNA profiling and contemporary digital surveillance and an analysis of writing by authors including Joseph Conrad Graham Greene Elizabeth Bowen J G Ballard Don DeLillo and Jennifer Egan Identification Practices and Twentieth Century Fiction makes an original contribution to the disciplines of English Literature History and Cultural Studies      Immigrants and the American Dream William A.
