

in Lyndon Baines Johnson (1908-1973) was born in a farmhouse near Stonewall, Texas. His grandfather and father both served in the Texas legislature. An old story says that his grandfather, on the day the boy was born, declared, "He'll be a United States senator someday." The young Johnson attended high school in Johnson City, named for his family, and graduated at 15. After working on a road-building crew, he worked his way to California doing odd jobs as an elevator operator, a car washer, and a handyman in a café.

is Returning home, he went back to his road-building jobs, but by this time, he later said, "it became increasingly apparent to me that there was something in this idea of higher education." He worked his way

through Southwest State Teachers College and graduated in 1930. After teaching public speaking and debate in a Houston high school, he became secretary to Representative Richard M. Kleberg of Texas. This was Johnson's introduction to national politics.

is It was during this period that he met Claudia Taylor, who was usually called Lady Bird. It was a name given to her by her family's cook and one which she had tried to shake off. After a six-week whirlwind courtship, she and the young congressional secretary were married in November, 1934. Since her nickname gave her the same initials as her new husband, she was never called anything else, even in official biographies.

is In Washington, Lyndon Johnson came to the attention of President Roosevelt, who appointed him Texas director of the National Youth Administration. After two years in the job, Johnson resigned to run for Congress. He defeated nine other candidates in 1937 and served in the House of Representatives for 12 years. Three days after war was declared in 1941, he became the first member of Congress to enter active duty. Serving as a lieutenant-colonel in the Navy, he won the Silver Star for gallantry in action on a flight over enemy positions in New Guinea.

is In 1948 Johnson was elected to the Senate by a margin of 87 votes in a contest in which almost 500,000 ballots were cast. He jokingly referred to himself at the time as "Landslide Lyndon." But in 1954, running again for the same office, he was re-elected by an overwhelming majority. By 1952, at age 44, Johnson had become the youngest majority leader of the U.S. Senate in history.

is After campaigning against John F. Kennedy in 1960 for the Democratic presidential nomination, Johnson, to the surprise of his supporters, accepted the nomination for vice-president. In that office, he had a close working relationship with the President, who had a very different character and background than his. He was given a large share of the responsibilities for the space program and also for race relations in industry. Under his persuasion, nearly fifty major companies agreed to reject racial barriers in their personnel policies. The Vice-President also traveled throughout the world as the President's personal envoy to foreign heads of state.

Ambition, Pragmatism, and Party Scott Kaufman, 2017-12-04 Within eight turbulent months in 1974 Gerald Ford went from the United States House of Representatives where he was the minority leader to the White House as the country s first and only unelected president His unprecedented rise to power after Richard Nixon s equally unprecedented fall has garnered

the lion's share of scholarly attention devoted to America's thirty eighth president But Gerald Ford's 1913-2006 life and career in and out of Washington spanned nearly the entire twentieth century *Ambition Pragmatism and Party* captures for the first time the full scope of Ford's long and remarkable political life The man who emerges from these pages is keenly ambitious determined to climb the political ladder in Washington and loyal to his party but not a political ideologue Drawing on interviews with family and congressional and administrative officials presidential historian Scott Kaufman traces Ford's path from a Depression era childhood through service in World War II to entry into Congress shortly after the Cold War began He delves deeply into the workings of Congress and legislative executive relations offering insight into Ford's role as the House minority leader in a time of conservative insurgency in the Republican Party Kaufman's account of the Ford presidency provides a new perspective on how human rights figured in the making of U.S. foreign policy in the Cold War era and how environmental issues figured in the making of domestic policy It also presents a close look at the 1976 presidential election emphasizing the significance of image in that contest and extensive coverage of Ford's post presidency In sum *Ambition Pragmatism and Party* is the most comprehensive political biography of Gerald Ford and will become the definitive resource on the thirty eighth president of the United States
