Reading across Cultures Caroline Gruenbaum, 2025-07-15 *Reading across Cultures* explores a body of innovative Jewish literary works from the Middle Ages. In late twelfth and thirteenth century Ashkenaz, the Jewish communities in northern France, Germany, and England. Jewish authors translated several Old French and German stories into Hebrew. These stories are distinctly non-Jewish, drawing on the Christian romances of King Arthur and Alexander the Great and the classical fables of Aesop. Caroline Gruenbaum argues that these translations, rather than adapting stories that reflected Jewish religious or cultural practice, represent a body of secular Hebrew literature in Ashkenaz and evidence of a shared literary culture between Jews and Christians in medieval Europe. Reading Hebrew animal fables, folktales, and chivalric romance, Gruenbaum describes an intellectual climate that allowed the literati of medieval Ashkenaz to read across cultures. In these translations produced by medieval Jews for entertainment and for wisdom, Gruenbaum finds a new literary awakening in Ashkenaz.

Arts & Humanities Citation Index, 1996 **Medieval Latin and Middle English Literature** Jill Mann, Christopher Cannon, Maura Nolan, 2011 Fresh and provocative approaches to the literature of the middle ages offering close readings of texts from Chaucer to Henryson and beast fable to devotional works. Jill Mann's writing, teaching, and scholarship have transformed our understanding of two distinct fields: medieval Latin and Middle English literature, as well as their intersection. Essays in this volume seek to honour this achievement by looking at entirely new aspects of these fields: the relationship of song to affect the political valence of classical allusion; the Latin background of Middle English devotional texts. Others look again at the literary kinds and ideas most important in Mann's own work: beast fable, the nature of allegory, the nature of nature, the relationship of economic thought and literature, satire, language as a subject for poetry. In the poets she has been most drawn to: Chaucer, Langland, Henryson. All of the essays involve close readings of the most careful kind, taking as their primary method Professor Mann's repeated injunction to attend above all to the words on the page. Reading in the Renaissance Marian Rothstein, 1999 Amadis de Gaule may well have been France's first real best seller When it first appeared in 1540 Amadis attracted the smart crowd court circles and rich bourgeois Its early editions are large luxury folios dedicated to members of the royal family But some twenty years after the Amadis phenomenon started it ended References to it in the last quarter of the sixteenth century tend to be either nostalgic or critical This book uses the rise and fall of Amadis de Gaule as a case study of the time bound nature of readers reading The rhetorical narrative and memorial techniques of Amadis also appear in other contemporary works where they have received little notice

The Literary Subversions of Medieval Women Jane Chance, 2007-08-06 This study of medieval women as postcolonial writers defines the literary strategies of subversion by which they authorized their alterity within the dominant tradition To dismantle a colonizing culture they made public the private feminine space allocated by gender difference they constructed unhomely spaces They inverted gender roles of characters to valorize the female they created alternate idealized feminist societies and cultures or utopias through fantasy and they legitimized female triviality the homely female space to provide autonomy While these methodologies often overlapped in practice they illustrate how cultures impinge on languages to create what Deleuze and Guattari have identified as a minor literature specifically for women as displaced Women writers discussed include Hrotsvit of Gandersheim Hildegard of Bingen Marie de France Marguerite Porete Catherine of Siena Margery Kempe Julian of Norwich and Christine de Pizan

Women and Aristocratic Culture in the Carolingian World Valerie Garver, 2012-04-20 Despite the wealth of scholarship in recent decades on medieval women we still know much less about the experiences of women in the early Middle Ages than we do about those in later centuries In Women and Aristocratic Culture in the Carolingian World Valerie L Garver offers a fresh appraisal of the cultural and social history of eighth and ninth century women Examining changes in women's lives and in the ways others perceived women during the early Middle Ages she shows that lay and religious women despite their legal and social constrictions played integral roles in Carolingian society Garver's innovative book employs an especially wide range of sources both textual and material which she uses to construct a more complex and nuanced impression of aristocratic women than we've seen before She looks at the importance of female beauty and adornment the family and the construction of identities and collective memory education

Elizabeth Cleland,Adam Eaker,Marjorie E. Wieseman,Sarah Boichicchio,2022-10-03 This fascinating new look at the artistic legacy of the Tudors reveals the dynasty s enduring influence on the arts of Renaissance England and beyond Ruling successively from 1485 through 1603 the five Tudor monarchs brought seismic changes to England that reverberated throughout Europe They used the arts to legitimize and glorify their tumultuous rule from Henry VII s bloody rise to power through Henry VIII s breach with the Roman Catholic Church to the reign of the Virgin Queen Elizabeth I With incisive scholarship and sumptuous new photography this book explores the extreme politics and outsize personalities of the Tudors and how they used art in their diplomacy at home and abroad Tudor courts were truly cosmopolitan attracting top artists and artisans from across Europe At the same time the Tudors nurtured local talent and gave rise to a distinctly English aesthetic one that is forever connected to the myth and visual legacy of their dynasty The Tudors reveals the true history behind a family that has long captured the public imagination bringing to life their extravagant and politically precarious world through the exquisite paintings lush textiles gleaming metalwork and countless luxury objects that adorned their spectacular courts **The Absent Image** Elina Gertsman,2021-06-22 Winner of the 2022 Charles Rufus Morey Award from the College Art Association Winner of the 2023 Otto Gr ndler Book Prize from Western Michigan University Guided by Aristotelian theories medieval philosophers believed that nature abhors a vacuum Medieval art according to modern scholars abhors the same The notion of horror vacui the fear of empty space is thus often construed as a definitive feature of Gothic material culture In *The Absent Image* Elina Gertsman argues that Gothic art in its attempts to grapple with the unrepresentability of

the invisible actively engages emptiness voids gaps holes and erasures Exploring complex conversations among medieval philosophy physics mathematics piety and image making Gertsman considers the concept of nothingness in concert with the imaginary revealing profoundly inventive approaches to emptiness in late medieval visual culture from ingenious images of the world s creation ex nihilo to figurations of absence as a replacement for the invisible forces of conception and death Innovative and challenging this book will find its primary audience with students and scholars of art religion physics philosophy and mathematics It will be particularly welcomed by those interested in phenomenological and cross disciplinary approaches to the visual culture of the later Middle Ages Isis Cumulative Bibliography 1986-1995: Subjects. Dark Mirror Sara Lipton,2014-11-04 In Dark Mirror Sara Lipton offers a fascinating examination of the emergence of anti Semitic iconography in the Middle Ages The straggly beard the hooked nose the bag of coins and gaudy apparel the religious artists of medieval Christendom had no shortage of virulent symbols for identifying Jews Yet hateful as these depictions were the story they tell is not as simple as it first appears Drawing on a wide range of primary sources Lipton argues that these visual stereotypes were neither an inevitable outgrowth of Christian theology nor a simple reflection of medieval prejudices Instead she maps out the complex relationship between medieval Christians religious ideas social experience and developing artistic practices that drove their depiction of Jews from benign if exoticized figures connoting ancient wisdom to increasingly vicious portrayals inspired by and designed to provoke fear and hostility At the heart of this lushly illustrated and meticulously researched work are questions that have occupied scholars for ages why did Jews becomes such powerful and poisonous symbols in medieval art Why were Jews associated with certain objects symbols actions and deficiencies And what were the effects of such portrayals not only in medieval society but throughout Western

history What we find is that the image of the Jew in medieval art was not a portrait of actual neighbors or even imagined others but a cloudy glass into which Christendom gazed to find a distorted phantasmagoric rendering of itself

Illuminating the Border of French and Flemish Manuscripts, 1270-1310 Lisa Moore Hunt, 2013-10-14 This study first examines the marginal repertoire in two well known manuscripts the Psalter of Guy de Dampierre and an Arthurian Romance within their material and codicological contexts This repertoire then provides a template for an extended study of the marginal motifs that appear in eighteen related manuscripts which range from a Bible to illustrated versions of the encyclopedias of Vincent de Beauvais and Brunetto Latini Considering the manuscript as a whole work of art the marginalia's physical relationship to nearby texts and images can shed light on the reception of these illuminated books by their medieval viewers
