Chicano Nations Marissa K. López, 2011-10 This book argues that the transnationalism that is central to Chicano identity originated in the global postcolonial moment at the turn of the nineteenth century rather than as an effect of contemporary economic conditions which began in the mid nineteenth century and primarily affected the laboring classes The Spanish empire then began to implode and colonists in the new world debated the national contours of the viceroyalties This is where the author locates the origins of Chicano literature which is now and always has been postnational encompassing the wealthy the poor the white and the mestizo

their audiences especially in the Spanish and Portuguese courts The authors intent in this book is to survey and to assess the state of the romancero not only in Spain and Portugal but also in peripheral areas where it has migrated and taken root

Anatomía de la frontera Juan Carlos Velasco Arroyo, 2025-02-27 En la poca de la globalizaci n del triunfo de Internet y de las redes sociales las fronteras se presentan a veces como secuelas de tiempos pret ritos a las que habr a que jubilar de manera definitiva Otras veces en cambio emergen m s inhiestas que nunca sobre la corteza terrestre Estas dos percepciones conviven simult neamente aunque con vigor mutante a veces sus atributos aparecen como obsoletos y al poco dan muestra de un esplendor inusitado El esp ritu de los tiempos se ha vuelto ambivalente y sopla en direcciones decididamente contrapuestas en lo concerniente a las fronteras territoriales que son objeto de elogios y diatribas expresiones de dos hemiplej as equivalentes CINE Y FRONTERA Graciela Martínez-Zalce, Juan Carlos Vargas, 2014-05-13 Los estudios sobre la frontera en sus acepciones geogr fica y simb lica se han renovado a partir de los a os noventa en parte debido a los cambios sociales generados por la circulaci n transnacional de productos culturales y la globalizaci n Desde el mbito de los estudios culturales por ejemplo se exploran con nuevos ojos temas como el espacio la migraci n el exilio la di spora la hibridaci n cultural o las nuevas geograf as y nos llevan a cuestionar los conceptos tradicionales de Estado y naci n En el campo de la investigaci n cinematogr fica el concepto de frontera cobra en nuestros d as una importancia considerable Desde las perspectivas m s amplias hasta los estudios de caso en este libro se ofrecen diversas visiones f rtiles y heterog neas de su objeto y abren senderos para posteriores incursiones en el tema **Nuevas perspectivas desde, sobre América Latina** Mabel Moraña, 2000 El tema de la violencia es connatural a la historia de Am rica Latina y por lo mismo resulta inagotable en cualquiera de sus m ltiples manifestaciones materiales y simb licas desde los or genes coloniales hasta la actualidad A nivel continental la praxis y el discurso de la violencia pueden perseguirse desde la penetraci n de la depredaci n colonizadora con que Am rica Latina es inscrita en el desarrollo cultural de Occidente hasta llegar a las m s recientes y sutiles formas asumidas por la violencia de Estado pasando por las instancias de imposici n de modelos culturales y econ micos que el las distintas pocas impactaron radicalmente las culturas criollas y vern culas Am rica Latina ha sufrido as hist ricamente las consecuencias de una violencia fundacional que la condenara a una posici n perif rica con respecto a sistemas globales cuyos centros han difundido en sus correspondientes reas de influencia la racionalidad de su propia reproducci n cultural pol tica y econ mica De esta manera la trama social que resultara de la matriz colonialista registr desde el comienzo las huellas imborrables de la violencia que se manifestara tanto a nivel racial como econ mico tanto en lo referido a las pol ticas de g nero como en lo relacionado con la distribuci n geocultural del poder en todos sus niveles Las dolorosas rep blicas hispanoamericanas de que hablara Mart se han debatido desde entonces contra las formas naturalizadas de la violencia de la exclusi n y el autoritarismo la miseria interna y la depredaci n imperialista la penetraci n cultural las intervenciones pol ticas siempre amparadas en la ret rica legitimadora que las clases dominantes esgrimieran en cada caso para perpetuar su poder

El presente volumen que compila trabajos que fueron presentados y discutidos en la Segunda Conferencia Internacional de Estudios Culturales Latinoamericanos que se llevara a cabo en la Universidad de Pittsburgh en marzo del año 2000 tiene como foco principal una articulación específica en torno al tema de la violencia contemporánea la que analiza los cruces y formas específicas en que la violencia se manifiesta teniendo como escenario principal los centros urbanos de América Latina y las modalidades a partir de las cuales el fenómeno de la violencia es recogido y representado por los medios de comunicación de masas tanto como por la cultura popular el arte la literatura y otras formas de discurso letras y la alta cultura The theme of violence is natural to the history of Latin America and therefore it is endless in any of its multiple material and symbolic manifestations from its colonial origins to the present At a continental level the praxis and discourse of violence can be traced back to the spread of the colonising voracity that conditioned Latin America within the cultural development of the West followed by the most recent and subtle forms assumed by state violence including the instances of imposition of cultural and economic models that at the different times radically impacted the Creole and vernacular cultures Thus Latin America has historically suffered the consequences of a founding violence which condemned it to a peripheral position in relation to global systems which centres have spread in their corresponding areas of influence the rationality of their own cultural political and economic replication In this way the social fabric resulting from the colonialist matrix has recorded from the beginning the indelible traces of violence that are displayed both at racial and economic levels both in terms of gender policies and in terms of the geocultural distribution of power at all levels The painful Spanish American republics of which Martí spoke have since fought against the normalisation of the violence of exclusion and authoritarianism the internal misery and imperialistic greed the cultural colonisation and political actions always condoned by a legitimising rhetoric that the ruling classes wielded in every instance to perpetuate their power This volume which compiles papers that were presented and discussed at the Second International Conference on Latin American Cultural Studies to be held at the University of Pittsburgh in March 2000 has as its main focus a specific articulation around the topic of contemporary violence it analyses the intersections and specific ways in which violence presents itself in the urban centres of Latin America as its main scenario and the modalities from which the phenomenon of violence is recorded and represented by the mass media as well as popular culture art literature and other forms of literary discourse and high culture
