Art/Museums Christine Sylvester,2015-12-03 Art Museums takes the study of international relations to the art museum It seeks to persuade those who study international relations to take art museums seriously and museum studies to take up the insights of international relations And it does so at a time when both international relations and art are said to be at an end that is out of control and beyond sight of their usual constituencies The book focuses on the British Museum the National Gallery of London the Museum of Iraq the Museum of Modern Art in New York the Getty museums the Guggenheim museums and museum spaces instantly created by the attacks on the World Trade Center in 2001 The art includes works over which museums might struggle acquire through questionable means hoard and possibly lose such as the Parthenon sculptures Raphael s Madonna of the Pinks the ancient art of Babylon modern art and the art museum itself in an era of rapid museum expansion Bringing art museums and international relations together draws on the art technique of collage which combines disparate objects themes and time periods in one work to juxtapose unexpected elements leaving the viewer to relate objects that are not where they are expected to be Women and Gay Men in the Postwar Period John

Portmann,2016-07-14 Friendships between women and gay men captivated the American media in the opening decade of the 21st century John Portmann places this curious phenomenon in its historical context examining the changing social attitudes towards gay men in the postwar period and how their relationships with women have been portrayed in the media As women and gay men both struggled toward social equality in the late 20th century some women understood that defending gay men who were often accused of effeminacy was in their best interest Joining forces carried both political and personal implications Straight women used their influence with men to prevent bullying and combat homophobia Beyond the bureaucratic fray women found themselves in transformed roles with respect to gay men as their mothers sisters daughters caregivers spouses voters employers and best friends In the midst of social hostility to gay men during the AIDS crisis of the 1980s and 1990s a significant number of gay women volunteered to comfort the afflicted and fight reigning sexual values Famous women such as Elizabeth Taylor and Barbra Streisand threw their support behind a detested minority while countless ordinary women did the same across America Portmann celebrates not only women who made the headlines but also those who did not Looking at the links between the women s liberation and gay rights movements and filled with concrete examples of personal and political relationships between straight women and gay men Women and Gay Men in the Postwar Period is an engaging and accessible study which will be of interest to students and scholars of 20th and 21st century social and gender history New York Magazine ,1991-11-25 New York magazine was born in 1968 after a run as
