Modern Guide to Macroeconomics Brian Snowdon,Howard R. Vane,Peter Wynarczyk,1994 This study of modern macroeconomics aims to do justice not only to fiscalism monetarism and rational expectations but also to real business cycle theory post Keynesianism and the Austrian theory of business cycles The material is enhanced by interviews with leading macroeconomists Empirical Implications of Theoretical Models in Political Science Jim Granato,Melody Lo,M. C. Sunny Wong,2021-05-13 Provides a framework to demonstrate how to unify formal theoretical and empirical analysis through various interdisciplinary examples *East Asian Economic Issues* Jon D. Kendall,Donghyun Park,Randolph Tan,1997 This book is a compilation of papers written jointly by the staff and students of the Applied Economics Division of the Nanyang Business School It is unique in that all the works included are the result of an extensive equal and mutually beneficial collaboration between the students and staff At the same time they embody the highest level of technical and analytical rigor and will be immensely relevant and useful to readers interested in East Asian economic issues In particular this volume will prove valuable for anyone interested in both the microeconomic and macroeconomic developments affecting Singapore and ASEAN *The Social Science Encyclopedia* Adam Kuper,2003-12-16 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely

rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on the key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society East Asian Economic Issues, Vol 3 Donghyun Park,Jon D Kendall,Randolph Gee Kwang Tan,1997-11-29 This book is a compilation of papers written jointly by the staff and students of the Applied Economics Division of the Nanyang Business School It is unique in that all the works included are the result of an extensive equal and mutually beneficial collaboration between the students and staff At the same time they embody the highest level of technical and analytical rigor and will be immensely relevant and useful to readers interested in East Asian economic issues In particular this volume will prove valuable for anyone interested in both the microeconomic and macroeconomic developments affecting Singapore and ASEAN Sustainable Growth and Development of Economic Systems Svetlana Ashmarina,Marek Vochozka,2019-03-15 This contributed volume presents the outcomes of multidisciplinary studies on the problem of sustainable economic development The key issues addressed here are economic transformation crisis management formation and implementation of industrial policy in the innovative economy and the development of individual industries oil refining transport education tourism the financial sector etc as well as the problem of resistance to changes in the economy Special attention is paid to economic growth under unstable conditions and the impact of digitalization on the development of economic processes This book is divided into five parts the first of which deals with factors and conditions determining the sustainable development of different socio economic systems as well as issues in connection with the post crisis development of regional economies In turn the second part is devoted to an analysis of the innovative development of the economy risk assessment for innovation projects readiness for changes and innovations and various instruments of innovative economic development Prospects for the digitalization of the economy and the current changes in economic systems caused by digitalization are considered in the third part of the book In the fourth part the authors discuss the specific features of labor market development and professional competencies that will be essential to the sustainable development of the economy In closing the fifth part presents sectoral and intra organizational aspects of sustainable economic development **Handbook of Macroeconomics** Michael Woodford,1999 **The 1990s Slump** Mario Baldassarri,Luigi Paganetto,Edmund S. Phelps,2016-07-27 At the beginning of the 1990 s unemployment grew in all industrialized countries the essays in this collection focus on the causes and cures of this worrying phenomenon The volume starts by analysing the disparities in the different national experiences and then focusing on European unemployment This is

followed by more theoretical discussions using econometric models The volume ends with policy recommendations

Economica, 1995 *A Macroeconomics Reader* Brian Snowden, Howard Vane, 1997-07-10 This book brings together a collection of key readings in modern macroeconomics Each article has been chosen to provide the reader with accessible non technical papers which assess the controversies within modern macroeconomics **The UK Labour Market** Ray

Barrell, 1994-03-10 In this book first published in 1994 the functioning of the labour market is addressed by an international group of economists *An Introduction to Macroeconomics* Louis-Philippe Rochon, Sergio Rossi, 2021-03-26 The second

edition of this important textbook introduces students to the fundamental ideas of heterodox economics It is written in a clear way by top heterodox scholars This introductory book offers not only a critique of the dominant approach to economics but also presents a positive and constructive alternative Students interested in an explanation of the real world will find the heterodox approach not only satisfying but ultimately better able to explain a money using economy prone to periods of instability and crises *The Psychology of Saving* Karl Erik Wærneryd, 1999-01-01 Some people save and others with similar

incomes and wealth do not Why Whilst psychology has devoted little attention to the forward looking dimension of human behavior it contributes theories and techniques for studying the cognitive motivational and social factors that affect saving The book examines the assumption that man is forward looking and desires to provide for the future It summarizes theories and behavioral research in the area of saving and explores the psychological insights and findings of economists and interprets them in terms of modern psychology The Psychology of Saving will be welcomed as a major contribution to economic psychology which brings together research and analysis developing our understanding about rationality expectations and consumer behavior **A New Guide to Post-Keynesian Economics** Richard P. F. Holt, Steven

Pressman, 2001-08-16 Eichner's classic *A Guide to Post Keynesian Economics* 1978 is still seen as the definitive staging post for those wishing to familiarise themselves with the Post Keynesian School This book brings the story up to date Of all the subgroups within heterodox economics Post Keynesianism has provided the most convincing alternative to mainstream theory The main representatives of the Post Keynesianism from both sides of the Atlantic are represented here including Paul Davidson Geoff Harcourt and Sheila Dow **An Introduction to International Macroeconomics** Graham

Bird, 2017-09-16 The main purpose of this book is to show the relevance of international macroeconomics to understanding the world economy It provides a succinct summary of open economy macroeconomics from a theoretical perspective and analyzes policy covering the balance of payments exchange rates capital flows and the co ordination of macroeconomic policy

Contributions to Decision Making - I Jean-Paul Caverni, 1995 The general theme of this book is decision research and its application primarily from a psychological perspective but representing a broad spectrum including economics computer science operations research and also social science
