Kant on Mind, Action, and Ethics Julian Wuerth, 2014-08-28 In this book Julian Wuerth offers a radically new interpretation of Kant's theories of mind action and ethics As the author of a Copernican revolution in philosophy Kant grounded his philosophy in his positive theory of the mind which remains an enigma two centuries later Wuerth's original interpretation of Kant's theory of mind consults a far wider range of Kant's recorded thought than previous interpretations revealing a fascinating evolution in Kant's thought in the decades before and after his 1781 Critique Starting in the 1760s Kant recognized the unique status of our epistemic contact to ourselves This is the sole instance of our immediate epistemic contact with a substance of being a substance and it is the sole instance of epistemic contact with something other than the particular states of inner sense Contrary to empiricists Kant thus rejects the reduction of the self to a bundle of mental states of inner sense But Kant also rejects the rational psychologists assumption that the soul's substantiality and simplicity implies its permanence incorruptibility and immortality As Kant developed his transcendental idealism he eventually pinpointed the source of their errors a source neither unique to a particular historical school nor random It is instead a deep natural and timeless transcendental confusion Kant's new account of substance allows him to draw new distinctions in kind between sensibility and understanding and between phenomenal and noumenal substance setting the stage for a transcendental argument that only at the phenomenal level do substantiality and simplicity imply permanence and incorruptibility Wuerth next undertakes a groundbreaking study

of Kant's theory of action and ethics He first maps Kant's notoriously vast and complex system of the mind's powers drawing on all of Kant's recorded thought This system structures Kant's philosophy as a whole and so provides crucial insights into this whole and its parts including Kant's theory of action a persisting stumbling block for interpreters of Kant's ethics Wuerth demonstrates that Kant rejects intellectualist theories of action that reduce practical agents to pure reason We are instead irreducibly both intellectual and sensible exercising a power of choice or Willkür subject to two irreducible conative currencies moral motives and sensible incentives as Kant makes clear long before his 1785 Groundwork Immoral choices at odds with the former can thus nonetheless be coherent choices in harmony with the latter Wuerth applies these new findings about Kant's theory of mind and action to an analysis of the foundations of Kant's ethics He rejects the dominant constructivist interpretation in favor of a moral realist one At the heart of Kant's Enlightenment ethics is his insistence that the authority of the moral law ultimately rests in our recognition of its authority Kant guides us to this recognition of the authority of the moral law across his works in ethics and his various formulations of the moral law using a single elimination of sensibility procedure Here Kant systematically rejects the pretenses of sensibility to isolate reason and its insights into moral right and wrong Precisely because immoral choice remains a coherent alternative however moral virtue demands our ongoing cultivation of our capacities for cognition feeling desire and character

The Mirror of Language (Revised Edition) Marcia L. Colish, 1983-01-01 Early Christianity faced the problem of the human word versus Christ the Word Could language accurately describe spiritual reality The Mirror of Language brilliantly traces the development of one prominent theory of signs from Augustine through Anselm of Canterbury Thomas Aquinas and Dante Their shared epistemology validated human language as an authentic but limited index of preexistent reality both material and spiritual This sign theory could thereby account for the ways men receive know and transmit religious knowledge always mediated through faith Marcia L. Colish demonstrates how the three theologians used different branches of the medieval trivium to express a common sign theory Augustine stressed rhetoric Anselm shifted to grammar including grammatical proofs of God's existence and Thomas Aquinas stressed dialectic Dante the one poet included in this study used the Augustinian sign theory to develop a Christian poetics that culminates in the Divine Comedy The author points out not only the commonality but also the sharp contrasts between these writers and shows the relation between their sign theories and the intellectual ferment of the times When first published in 1968 The Mirror of Language was recognized as a pathfinding study This completely revised edition incorporates the scholarship of the intervening years and reflects the refinements of the author's thought Greater prominence is given to the role of Stoicism and sharper attention is paid to some of the thinkers and movements surrounding the major thinkers treated Concerns of semiotics philosophy and literary criticism are elucidated further The original thesis still controversial is now even wider ranging and more salient to current intellectual debate

Contemporary Controversies in Catholic Bioethics Jason T. Eberl, 2017-07-24 This volume comprises various viewpoints representing a

Catholic perspective on contemporary practices in medicine and biomedical research The Roman Catholic Church has had a significant impact upon the formulation and application of moral values and principles to a wide range of controversial issues in bioethics Catholic leaders theologians and bioethicists have elucidated and marshaled arguments to support the Church's definitive positions on several bioethical issues such as abortion euthanasia and reproductive cloning Not all bioethical issues however have been definitively addressed by Catholic authorities and some Church teachings allow for differing applications in diverse circumstances Moreover as new biomedical technologies emerge Church authorities rely on experts in science medicine philosophy theology law and other disciplines to advise them Such experts continue to debate issues related to reproduction genetics end of life care and health care policy This volume will be a valuable resource for scholars in bioethics or Catholic studies who will benefit from the nuanced arguments offered based on the latest research This volume is also instructive for students entering the field to become aware of the founding philosophical and theological principles informing the Catholic bioethical worldview

Character and Person John Frow, 2014-04 Character and Person explores the category of fictional character one of the most widely used and least adequately theorized concepts in literary studies cultural studies and everyday usage It sets fictional character in relation to the concept of person and tries to examine how each of these terms is constructed across different cultures

Aristotelian Naturalism Martin Hähnel, 2020-04-06 This book features many of the leading voices championing the revival of Neo Aristotelian Ethical Naturalism AN in contemporary philosophy It addresses the whole range of issues facing this research program at present Coverage in the collection identifies differentiations details standpoints and points out new perspectives This volume answers a need AN is quite new to contemporary philosophy despite its deep roots in the history of philosophy As yet there are many unanswered questions regarding its relation to contemporary views in metaethics It is certainly not equivalent to dominant naturalistic approaches to metaethics in Anglophone philosophy Indeed it is not obviously incompatible with some approaches identified as nonnaturalistic Further there are controversies regarding the views of the first wave of virtue revivalists The work of G E M Anscombe and Philippa Foot is frequently misunderstood despite the fact that they are important figures in the contemporary revival This volume details a robust approach to ethics by situating it within the context of human life It will help readers to better understand how AN raises deep questions about the relation of action and its evaluation to human nature Neo Aristotelians argue that something like the traditional cardinal virtues practical wisdom temperance justice and courage are qualities that perfect human reason and desire

The Palgrave Handbook on the Philosophy of Friedrich Schiller Antonino Falduto, Tim Mehigan, 2023-01-01

Friedrich Schiller is justly celebrated for his dramas and poetry Yet above all he was a polymath whose writings enriched a range of fields including history and philosophy Until now no comprehensive accounting of this philosophy has been undertaken The Palgrave Handbook on the Philosophy of Friedrich Schiller makes good this desideratum treating Schiller's poetry prose and dramatic work alongside his philosophical writings and reviewing his thought not only in connection with those who influenced him such as Kant Reinhold and Fichte but also those he anticipated such as Hegel Marx and the Neo Kantians Topics treated in this volume include Schiller's philosophical background his theoretical writings Schiller's philosophical writing in light of his entire oeuvre and Schiller's philosophical legacy The Handbook also includes an overview of the main topics Schiller addressed in his philosophical writings including philosophical anthropology aesthetics moral philosophy politics and political theory the philosophy of history and the philosophy of education Bringing together the latest research on Schiller and his thought by leading scholars in the field the Handbook draws attention to Schiller's undiminished importance for philosophical debates today

The Apollinarian Christologies Timothy John Carter, 2011 The christological writings of Apollinarius of Laodicea and what has been written about them present us with something of a contradiction The style of Apollinarius exposition and his intellectual reputation indicate that he taught a clear logical and systematic doctrine of Christ and on this the commentators tend to agree The brilliance and thoroughgoing logic of Apollinarius system are undeniable This was a brilliant and logical system destined to exercise an enormous influence it stands as a complete and elaborate system of doctrine to which all his writings make their contribution Yet when it comes to specifying the precise nature of this doctrine his interpreters both ancient and modern offer divergent opinions and strongly disagree with one another It is this apparent contradiction which first attracted me to re-examine the Apollinarian texts as collected by Hans Lietzmann in his 1904 edition and to reconsider what has been said about them for it suggests that the interpretative discussion may not be closed since the contradiction would appear to have two possible causes either the existing interpretations have been variously less than successful at delineating the precise nature of Apollinarian doctrine or Apollinarius teaching was in fact less clear logical and systematic than his style and reputation suggests and his interpreters

assume Sharing in Christ's Virtues Livio Melina, 2001 The encyclical *Veritatis splendor* The Splendor of Truth represents the first document of the magisterium devoted to the foundations of the Catholic moral life Though it was intended to confront a genuine crisis of moral disintegration and to offer positive directions for carrying out the work of renewing moral theology it was fiercely criticized by theologians who regarded it as a simplistic and repressive document Now several years after the publication of the encyclical Livio Melina offers an original contribution not only to the study of *Veritatis splendor* and the controversy surrounding it but also to the field of moral theology as a whole In *Sharing in Christ's Virtues* Melina proposes a blueprint for organizing moral theology one that is in harmony with the directions given in *Veritatis splendor* and one that likewise respects the requirements of both the theological and the scientific character of the discipline He describes it as a Christocentrism of the virtues which understands the moral life of Christians as a participation in the virtues of Christ by means of the grace of one's ecclesial incorporation in Christ Melina argues that the renewal of moral theology should result in first a search for a more integral and dynamic understanding of human action and second a theological re-dimensioning of morality to better comprehend the synergy between human action and God's action The contents of the book are Part One Toward a Christocentrism of the Virtues Lines of Renewal 1 Between Crisis and Renewal The Cultural and Theological Context of Morality Today 2 An Ethics of the Good Life and of Virtue 3 An Ethics Founded on the Truth About the Good of the Person 4 A Morality of Faith The Salvific Relevance of Moral Action 5 A Christocentric Ethics of the Virtues Part Two Ecclesial Sense and Moral Life Perspectives and Developments 6 Ecclesial Dimensions of Moral Theology 7 The Call to Holiness in the Catechism of the Catholic Church The Morality and Spirituality of Life in Christ 8 Moral Conscience and Communio Toward a Response to the Challenge of Ethical Pluralism Livio Melina is professor of moral theology at the John Paul II Institute for Studies on Marriage and Family at the Lateran University in Rome In addition to numerous articles he has written and coauthored several books including *La conoscenza morale* *Linee di riflessione sul Commento di san Tommaso all'Etica Nicomachea* *Morale tra crisi e rinnovamento* *Corso di bioetica* *Il Vangelo della vita* *Amor conjugal y vocacion a la santidad* *Domanda sul bene e domanda su Dio* and *Quale dimora per l'agire* *Dimensioni ecclesologiche della morale* Melina's thought provoking and powerful presentation of key themes in moral theology will be welcomed by English readers One comes away with an understanding and appreciation of the basis of Christian morality for the twenty first century The excellent bibliography lists authors from Aristotle to John Paul II many not well known in the English literature on moral theology Melina's work is timely Catholic Library World *Aquinas on Being* Anthony Kenny, 2002 Sir Anthony Kenny offers a critical examination of a central metaphysical doctrine of Thomas Aquinas Aquinas's account of being is famous and influential but Kenny argues that it in fact suffers from systematic confusion Kenny's clear and incisive study offers philosophers and theologians a guide through the labyrinth of Aquinas's ontology **The Liberal Project and Human Rights** John Charvet, Elisa Kaczynska-Nay, 2008-11-20 Shows how the UN regime on human rights has transformed national

and international society in accordance with liberal values *The Works of T. G. [With Preface to Vol. 1. by T. Owen and J. Barron.]* Thomas GOODWIN (D.D.),1683 *Knowledge, Belief, and Character* Guy Axtell,2000 There have been many books over the past decade including outstanding collections of essays on the topic of the ethical virtues and virtue theoretic approaches in ethics But the professional journals of philosophy have only recently seen a strong and growing interest in the intellectual virtues and in the development of virtue theoretic approaches in epistemology There have been four single authored book length treatments of issues of virtue epistemology over the last seven years beginning with Ernest Sosa's *Knowledge in Perspective* Cambridge 1991 and extending to Linda Zagzebski's *Virtue of the Mind* Cambridge 1996 Weighing in with Jonathan Kvanvig's *The Intellectual Virtues and the Life of the Mind* 1992 and James Montmarquet's *Epistemic Virtue and Doxastic Responsibility* 1993 Rowman Littlefield has had a particularly strong interest in the direction and growth of the field To date there has been no collection of articles directly devoted to the growing debate over the possibility and potential of a virtue epistemology This volume exists in the belief that there is now a timely opportunity to gather together the best contributions of the influential authors working in this growing area of epistemological research and to create a collection of essays as a useful course text and research source Several of the articles included in the volume are previously unpublished Several essays discuss the range and general approach of virtue theory in comparison with other general accounts What advantages are supposed to accrue from a virtue based account in epistemology in handling well known problems such as Gettier and Evil Genie type problems Can reliabilist virtue epistemology handle skeptical challenges more satisfactorily than non virtue centered forms of epistemic reliabilism Others provide a needed discussion of relevant analogies and disanalogies between ethical and epistemic evaluation The readings all contribute **Abstract of a Course of Lectures on Mental & Moral Philosophy** Asa Mahan,1840 **Persons and Personal Identity** Amy Kind,2015-10-02 As persons we are importantly different from all other creatures in the universe But in what exactly does this difference consist What kinds of entities are we and what makes each of us the same person today that we were yesterday Could we survive having all of our memories erased and replaced with false ones What about if our bodies were destroyed and our brains were transplanted into android bodies or if instead our minds were simply uploaded to computers In this engaging and accessible introduction to these important philosophical questions Amy Kind brings together three different areas of research the nature of personhood theories of personal identity over time and the constitution of self identity Surveying the key contemporary theories in the philosophical literature Kind analyzes and assesses their strengths and weaknesses As she shows our intuitions on these issues often pull us in different directions making it difficult to develop an adequate general theory Throughout her discussion Kind seamlessly interweaves a vast array of up to date examples drawn from both real life and popular fiction all of which greatly help to elucidate this central topic in metaphysics A perfect text for readers coming to these issues for the first time *Persons and Personal Identity* engages with some of the deepest and most important questions

about human nature and our place in the world making it a vital resource for students and researchers alike Education in Human Creative Existential Planning Anna-Teresa Tymieniecka, 2007-11-14 Education is the transmission of knowledge and skill from one generation to another and is vitally significant for the growth and unfolding of the living individual It manifests the quintessential ability of the logos to differentiate life in self individualization from within and in its spread through inter generative networks Without reaching the evolutive phase of the human creative condition the human being establishes a unique creative platform on which to conduct its co existence On this platform the progress of life is being transformed from a natural ontopoietic accomplishment into an autonomous achievement of the creative planning of the human mind Specifically human education focuses upon creative planning moving like a pendulum between nature and freedom The present collection of papers focuses on the underpinnings of the creative workings of the human strategies of reason
