Rationality And Theistic Belief An Essay On Reformed Epistemology:

Rationality and Theistic Belief Mark S. McLeod, 1993 Rationality and Theistic Belief offers a strong dissenting voice on the work of both Plantinga and Alston Certain to provoke vigorous discussion it makes a significant contribution to the contemporary discussion of the epistemology of religious belief **Epistemology as Theology** James Beilby, 2017-09-29 Alvin Plantinga is arguably one of the most influential philosophers of our time Much of his career has been devoted to explaining and defending the intellectual acceptability of Christian belief Recently he has developed a comprehensive rigorous and distinctively Christian religious epistemology This book presents the development of Plantinga's religious epistemology before considering Plantinga's mature religious epistemology in detail Locating Plantinga's most recent work in the context of his theological assumptions his previous work on religious epistemology and in the context of the current debate over how knowledge should be characterized Beilby blends theological and philosophical discussion to offer a unique perspective on Plantinga's influential proposal **The Rationality of Theism** Godehard Brüntrup, R.K. Tacelli, 2013-04-17 In May 1998 a distinguished group of philosophers met in Munich to discuss the rationality of theism This volume is a collection of the papers read at that conference While in recent years the rationality of theistic belief has been widely discussed the Munich conference was an event of some moment in the history of philosophical dialogue for the first time German and English speaking philosophers of religion representatives of both the Continental and the Anglo Saxon traditions joined together to grapple with a common philosophical theme This multiplicity of perspectives brought a unique richness to the analysis of rationality that no one tradition by itself could provide Readers will find that richness displayed in the pages of this book Professional philosophers will find here a great deal to stimulate and challenge them but graduate students capable undergraduates and all others with a serious interest in the philosophy of religion will be well rewarded for their efforts to come to grips with these thought provoking papers **Philosophy of Religion** Paul Copan, Chad Meister, 2007-10-22 Philosophy of Religion Classic and Contemporary Issues offers a comprehensive and authoritative overview of the most important ideas and arguments in this resurgent field Provides a solid foundation on the history of religious philosophy while broadening our understanding of religion's significance in today's world Features 18 newly commissioned essays by well known scholars with varied viewpoints on the philosophy of religion Examines the evolution of religious philosophy from its roots to contemporary issues while expanding its analysis to include non Western religious themes Includes charts questions and annotated suggested readings to stimulate further study and reflection **An Essay on Divine Authority** Mark C. Murphy, 2018-07-05 In the first book wholly concerned with divine authority Mark C Murphy explores the extent of God's rule over created rational beings The author challenges the view widely supported by theists and nontheists alike that if God exists then humans must be bound by an obligation of obedience to this being He demonstrates that this view the authority thesis cannot be sustained by any of the arguments routinely advanced on its behalf including those drawn from perfect

being theology metaethical theory normative principles and even Scripture and tradition After exposing the inadequacies of the various arguments for the authority thesis he develops his own solution to the problem of whether and to what extent God is authoritative For Murphy divine authority is a contingent matter while created rational beings have decisive reason to subject themselves to the divine rule they are under divine authority only insofar as they have chosen to allow God's decisions to take the place of their own in their practical reasoning The author formulates and defends his arguments for this view and notes its implications for understanding the distinctiveness of Christian ethics

Believing by Faith John Bishop,2007-04-12 Can it be justifiable to commit oneself by faith to a religious claim when its truth lacks adequate support from one's total available evidence In *Believing by Faith* John Bishop defends a version of fideism inspired by William James's 1896 lecture *The Will to Believe* By critiquing both isolationist Wittgensteinian and Reformed epistemologies of religious belief Bishop argues that anyone who accepts that our publicly available evidence is equally open to theistic and naturalist atheistic interpretations will need to defend a modest fideist position This modest fideism understands theistic commitment as involving doxastic venture practical commitment to propositions held to be true through passionate causes causes other than the recognition of evidence of or for their truth While Bishop argues that concern about the justifiability of religious doxastic venture is ultimately moral concern he accepts that faith ventures can be morally justifiable only if they are in accord with the proper exercise of our rational epistemic capacities Legitimate faith ventures may thus never be counter evidential and furthermore may be made supra evidentially only when the truth of the faith proposition concerned necessarily cannot be settled on the basis of evidence Bishop extends this Jamesian account by requiring that justifiable faith ventures should also be morally acceptable both in motivation and content Hard line evidentialists however insist that all religious faith ventures are morally wrong Bishop thus conducts an extended debate between fideists and hard line evidentialists arguing that neither side can succeed in establishing the irrationality of its opposition He concludes by suggesting that fideism may nevertheless be morally preferable as a less dogmatic more self accepting even a more loving position than its evidentialist rival Knowledge, Belief, and God Matthew A. Benton,John P. Hawthorne,Dani Rabinowitz,2018 Recent decades have seen a fertile period of theorizing within mainstream epistemology

which has had a dramatic impact on how epistemology is done. Investigations into contextualist and pragmatic dimensions of knowledge suggest radically new ways of meeting skeptical challenges and of understanding the relation between the epistemological and practical environment. New insights from social epistemology and formal epistemology about defeat, testimony, a priori probability, and the nature of evidence all have a potentially revolutionary effect on how we understand our epistemological place in the world. Religion is the place where such rethinking can potentially have its deepest impact and importance. Yet there has been surprisingly little infiltration of these new ideas into philosophy of religion and the epistemology of religious belief. Knowledge, Belief, and God incorporates these myriad new developments in mainstream epistemology and extends these developments to questions and arguments in religious epistemology. The investigations proposed in this volume offer substantial new life, breadth, and sophistication to issues in the philosophy of religion and analytic theology. They pose original questions and shed new light on long-standing issues in religious epistemology, and these developments will in turn generate contributions to epistemology itself, since religious belief provides a vital testing ground for recent epistemological ideas.

Resurrection, Scripture, and Reformed Apologetics Steven D. West, 2012-07-26 Apologetic methodology has been the subject of intense debate in Reformed circles. This book argues that we can test Reformed apologetic methods for consistency using two linchpin theological topics: the doctrine of the resurrection and the doctrine of Scripture. Should apologetics move from establishing theism to the resurrection and then to Scripture? Or should theism, the resurrection, and the doctrine of Scripture be accepted on the testimony of the Holy Spirit as basic beliefs? Alternatively, do these doctrines need to be presupposed and incorporated into a transcendental defense of the faith? After analyzing classical apologetics, historical evidentialism, Reformed epistemology, and presuppositionalism for their apologetic cogency, Steven D. West contends that any method used by

Reformed apologists should be able to argue successfully for a high view of Scripture the source of the doctrine of the resurrection The book will be useful to everyone interested in the relationship between theology philosophy and apologetics
