Rationality And The Analysis Of International Conflict:

Rationality and the Analysis of International Conflict Michael Nicholson, 1992-03-27 This book covers the problems of rational decision making in conflict situations

Rationality in the North Korean Regime David W. Shin, 2020-07-06 How and why are the Kims rational There is no consensus about either the Kims rationality or how best to determine if they are rational actors Rationality in the North Korean Regime offers a concise and finite method to assess rationality by examining over ten cases of provocations from the Korean War to the August 2015 land mine incident The book asserts that Kim Il sung was predominantly a rational actor though the regime behaved irrationally at times under his rule and that both Kim Jong il and Kim Jong un have clearly been rational actors As a rational actor Kim Jong un is unlikely to give up his nuclear weapons but this work argues he can be deterred from using them if the United States demonstrates it is willing to co exist with his regime and pursues long term engagement to reduce Kim s concern that North Korea s sovereignty needs defending from U S hostile policy This could allow gradual social change within the country that could eventually lead to positive systemic change as well as soften Kim s rule In this regard time may be on the side of the U S South Korean alliance but the two allies must embrace the long view and learn to be more patient or risk another conflict on the Korean Peninsula

Peace and Conflict in Africa David Francis, 2013-04-04 Nowhere in the world is the demand for peace more prominent and challenging than in Africa From state collapse and anarchy in Somalia to protracted wars and rampant corruption in the Congo from bloody civil wars and extreme poverty in Sierra Leone to humanitarian crisis and authoritarianism in Sudan the continent is the focus of growing political and media attention This book presents the first comprehensive overview of conflict and peace across the continent Bringing together a range of leading academics from Africa and beyond Peace and Conflict in Africa is an ideal introduction to key themes of conflict resolution peacebuilding security and development The book s stress on the importance of indigenous Africa approaches to creating peace makes it an innovative and exciting intervention in the field

Rational Choice and Security Studies Michael E. Brown, Owen R. Cote, Jr., Sean M. Lynn-Jones, Steven E. Miller, 2000-07-18 Opposing views on the merits of formal rational choice approaches as they have been applied to international security studies Formal theories and rational choice methods have become increasingly prominent in most social sciences in the past few decades Proponents of formal theoretical approaches argue that these methods are more scientific and sophisticated than other approaches and that formal methods have already generated significant theoretical progress As more and more social scientists adopt formal theoretical approaches critics have argued that these methods are flawed and that they should not become dominant in most social science disciplines Rational Choice and Security Studies presents opposing views on the merits of formal rational choice approaches as they have been applied in the subfield of international security studies This volume includes Stephen Walt s article Rigor or Rigor Mortis Rational Choice and Security Studies critical replies from prominent political scientists and Walt s rejoinder to his critics Walt argues that formal

approaches have not led to creative new theoretical explanations that they lack empirical support and that they have contributed little to the analysis of important contemporary security problems In their replies proponents of rational choice approaches emphasize that formal methods are essential for achieving theoretical consistency and precision *Jihad for Jerusalem* M.A. Khan,2004-10-30 *Jihad for Jerusalem* explores the agent structure dynamics in world politics and advances a constructivist theory of choice that explains the role of identity culture religion and other core values in international politics The struggle for Jerusalem by Iran Saudi Arabia Jordan and Israel is the empirical space where the dynamics between reason and identity values and strategies is explored *Jihad for Jerusalem* advances a theory of agency in international politics This theory of agency is based on a reconstituted constructivist paradigm The theory is tested by an examination of the foreign policy decision making of Iran Israel Jordan and Saudi Arabia towards Israel from 1967 1997 The book uses the foreign policy of these states as cases to test the tension between religion and rationality between identity and reason between power and morality and advances a constructivist theory of choice that explains the importance of the role of culture religion identity and core values in international politics Anyone interested in international relations theory and the convoluted politics of the Middle East will find this book intriguing reading **Evaluating Methodology in International Studies** Michael Brecher, Frank P. Harvey,2002-08-14 *Evaluating Methodology in International Studies* offers a unique collection of original essays by world renowned political scientists The essays address the state of the discipline in regard to the methodology of researching global politics focusing in particular on formal modeling quantitative methods and qualitative approaches in International Studies The authors reflect on the strengths and weaknesses of current methodology and suggest ways to advance theory and research in International Studies This volume is essential reading for methods courses and will be of interest to scholars and students alike See table of contents and excerpts Frank P Harvey is Professor of Political Science and Director of the Centre for Foreign Policy Studies at Dalhousie University Michael Brecher is the R B Angus Professor of Political Science at McGill University and past president of the International Studies Association *Millennial Reflections on International Studies* This volume is part of the *Millennial Reflections on International Studies* project in which forty five prominent scholars engage in self critical state of the art reflection on international studies to stimulate debates about successes and failures and to address the larger questions of progress in the discipline Other paperbacks from this project *Realism and Institutionalism in International Studies* *Conflict Security Foreign Policy and International Political Economy* *Past Paths and Future Directions in International Studies* *Critical Perspectives in International Studies* The full collection of essays is available in the handbook *Millennial Reflections on International Studies* *Russian Foreign Policy and International Relations Theory* Christer Pursiainen,2017-07-05 An original and challenging examination of how to transform post Sovietological study of Soviet and Russian foreign policy into a more integrated part of the Social Sciences and International Relations Theory This book represents the first detailed and sustained synthesis international relations theory

Culture and international conflict resolution

Tarja Vayrynen, 2018-07-30 This book re-examines conflict resolution and particularly problem solving conflict resolution from a new perspective. The book is a critical study of John Burton's work and outlines an alternative framework for the study of international conflict. It provides an insight into the problems of conflict and conflict resolution from a social constructionist angle. Vayrynen argues that culture has a constitutive role in international conflict and conflict resolution. Culture offers a grammar for acting in and interpreting the world and provides understandings of conflict and its resolution. Theories which deny the importance of cultural failure to understand the ontological conditions of human being. *The Eighty Years' Crisis*

Ken Booth, Michael Cox, Timothy Dunne, 1998 This book uses the agenda of E. H. Carr and most obviously extends the title of his classic book *The Twenty Years Crisis* as the point of departure to discuss aspects of the world historical crisis from the end of the First World War until the end of the 1990s. This crisis identified by 80 years of destructive wars, inequalities in life chances and today's casualties of the global political economy has shaped both the practices of international politics and the way they have been conceptualised and reconceptualised by specialists in International Relations. A distinguished group of contributors have written about the development of the academic discipline of International Relations in the inter-war years, the Cold War and post-Cold War eras, ethics, power and nationalism, the conditions of peace and the roles of law and peaceful change and finally considering future prospects about globalization and the end of the old order. *Emotions in*

International Politics Yohan Ariffin, Jean-Marc Coicaud, Vesselin Popovski, 2016-01-11 This book investigates collective emotions in international politics with examples from 9/11 and World War II to the Rwandan genocide.

Handbook of International Relations Walter Carlsnaes, Thomas Risse-Kappen, Thomas Risse, Beth A. Simmons, 2002-03-13 NEW IN PAPERBACK FEBRUARY 2005

The most systematic and wide-ranging survey of the multi-faceted field of International Relations yet produced. It is sure to become a standard reference work and teaching text and is unlikely to be superseded at any time in the near future. It should be considered as essential reading. International Affairs. The Handbook of International Relations published 2002 in hardback quickly established itself as the benchmark volume providing a state-of-the-art review and indispensable guide to the study of international relations. It is now released in paperback in order to be accessible to students in classroom use. Divided into three parts, the volume reviews both the historical, philosophical, analytical and normative roots to the discipline and the key contemporary topics of research and debate today. The first part introduces the major approaches within the field and unpacks many of the on-going debates within the discipline, including those between rationalist and constructivist approaches. The second part moves on to explore the key concepts and contextual factors important to the subject, from concepts like the state and power to international and transnational actors, debates around globalization and contending feminist perspectives. The final part reviews a number of the key substantive issues in international relations and is designed to complement the analytical tools and perspectives presented in Parts I and II.

Examples of the many topics included are foreign policy war and peace security nationalism and ethnicity finance trade development the environment and human rights *The Social Sciences and Rationality* Hudson Meadwell, 2017-10-19 In recent decades rational choice theory has emerged as the single most powerful controversial claimant to provide a unified theoretical framework for all the social sciences In its simplest form the theory postulates that humans are purposive beings who pursue their goals in a rational efficient manner seeking the greatest benefit at the lowest cost This volume brings together prominent scholars working in several social science disciplines and the philosophy of science to debate the promise and problems of rational choice theory As rational choice theory has spread from its home base in economics to other disciplines it has come under fierce criticism To its critics the extension of the explanatory model mistakenly assumes that the logic of economic rationality can explain non economic behavior and at its worst commits the ethnocentric error of imposing Western concepts of rationality on non Western societies and cultures This volume includes strong advocates as well as forceful critics of the rational choice approach However in contrast to previous debates all the contributors share a commitment to open constructive and knowledgeable dialogue Well known advocates of rational choice theory Michael Hechter Michael Smith Chris Manfredi explicitly ponder some of its serious limitations while equally well known critics Ian Shapiro Mario Bunge strike a surprisingly conciliatory tone in contemplating its legitimate uses Vociferous critics of neoclassical economics Bunge favorably discuss sociological proponents of rational choice theory while two economists who are not particularly anti mainstream Robin Rowley George Grantham critically assess the problems of such assumptions in their discipline Philosophers Storrs McCall and sociologists John Hall alike reflect on the variable meaning of rationality in explaining social behavior In the introduction and conclusion the editors survey the current state of the debate and show how open constructive dialogue enables us to move beyond hackneyed accusations and dismissals that have characterized much previous debate *Decisionmaking on War and Peace* Nehemia Geva, Alex Mintz, 1997 Reviewing comparing and contrasting models of foreign policy this volume focuses on the cognitive vs rational debate about decisionmaking on war and peace It provides alternative models of foreign policy choice and identifies when one strategy is more appropriate than another

The News Media In National And International Conflict Andrew Arno, Wimal Dissanayake, 2019-07-11 Ironically as telecommunications technology the embodiment of modernity advances bringing people in different nations into more direct contact during conflict situations traditional cultural factors become increasingly important as differing ways of thinking and acting collide The mass media can be seen as a factor in the creation of international conflict they also claim many scholars are the key to control and resolution of those problems Whichever side of the coin one chooses to look at mass communication as cause or cure of conflict there is no doubt that the news media are no longer peripheral players on the global scene they are important participants whose organizational patterns of behavior values and motivations must be taken into account in understanding national and international conflict In this volume a distinguished group of authors explores the

variety of ways the news media newspapers radio and television are involved in conflict situations Conflicts between the United States and Iran India and Pakistan and the United States and China are examined and national level studies in Sri Lanka Iran Hong Kong and the United States provide varied contexts in which the authors look at the complex interrelationships among government news media and the public in conflict situations The Law and Politics of International Regime Conflict Dirk Pulkowski,2014-02-13 The international order is constituted by a plurality of international regimes institutionalized arrangements in different issue areas that possess their own norms and procedures The present book examines how conflict among regimes may arise and probes the role that international law can play in managing such conflict Throughout the book the example of trade in cultural products is used to illustrate the evolution of regime conflict and the potential for its management Conflicts between the goals of free trade and cultural diversity have notably surfaced within the World Trade Organization WTO and the United Nations Educational Scientific and Cultural Organization UNESCO As a result there is a potential for conflict among WTO law the UNESCO s Convention on the Protection and Promotion of the Diversity of Cultural Expressions and human rights The book posits that three dimensions are characteristic for regime conflict First regime conflict is a function of conflict among different social goals or values Second such goal conflicts are institutionalized through the interaction of a variety of political actors struggling for influence often in intergovernmental organizations Third regime conflict may manifest itself in conflicts of legal rules If a state acts in conformity with the rules of one regime its conduct may trigger a violation of the rules of another regime The author argues that while international law cannot be construed as a fully integrated and unified system it does provide a common language for different regimes to engage with each other The shared discourse rules of international law enable a degree of coordination of the policies of different regimes notably through techniques of interpretation and legal priority rules International law contributes to the management of regime conflict by providing commonly accepted reasons for choosing among competing policy goals

Beyond Rationality Alex Mintz,Nicholas A. Valentino,Carly Wayne,2021-12-02 How and why do people make political decisions This book is the first to present a unified framework of the Behavioral Political Science paradigm BPS presents a range of psychological approaches to understanding political decision making The integration of these approaches with Rational Choice Theory provides students with a comprehensible paradigm for understanding current political events around the world Presented in nontechnical language and enlivened with a wealth of real world examples this is an ideal core text for a one semester courses in political science American government political psychology or political behavior It can also supplement a course in international relations or public policy **Handbook of Conflict Analysis and Resolution** Dennis J.D. Sandole,Sean Byrne,Ingrid Sandole-Staroste,Jessica Senehi,2008-07-31 This major Handbook is a collection of work from leading scholars in the Conflict Analysis and Resolution CAR field The central theme is the value of interdisciplinary approaches to the analysis and resolution of conflicts
