Re Drawing Boundaries Work Households And Gend Studies On China:

Re-Drawing Boundaries Barbara Entwisle, Gail Henderson, 2000-11-07 The essays in this volume explore various aspects of work in China including the nature of work gender inequalities in work gender and work in the context of migration and the reciprocal influences of households and work organization , *Transforming the Gendered Organisation of Labour and Leisure* Yuqin Huang, 2020-08-28 This book explores how the labour and leisure lives of people in contemporary rural China have been structured and transformed discussing the changing dynamics of power relations both between and within genders and in local village and family household and remote the state and market contexts It combines perspectives from sociology gender studies social history and demography to investigate the changes and continuities in the lives of women and men in Lianhe a rural village in central China examining the period from 1926 to 2013 through the lens of labour and leisure Employing methods from the field of ethnography the research focuses on the life stories of three generations including 57 women in Lianhe The book develops a double comparison analytical framework to compare the organisation of labour and leisure in the three respective generations proceeding on the one hand diachronically along the historical time that is the pre collective era collective era and reform era and synchronically along the women s life stages on the other In so doing the book links women s shifting role in changing family household forms with broader socio economic political demographic and cultural changes Moreover it employs a holistic perspective to reflect changing patterns in women s labour and leisure by disrupting the remunerated unremunerated home labour within outside household and labour leisure dichotomies and exploring the interrelations between them Based on this the book then identifies the determinants of rural women s labour and leisure and reveals the women s experiences of their changing identities particularly concerning their relationships with their parents in law sisters in law husbands and children Particularly highlighting the interdependence and inequality among women it also reveals their own perception of their identities and relationships and their understanding of husband wife fairness and gender equality Lastly it demonstrates that the prevalent androcentrism in the remote world does not match the increasing husband wife fairness in the local world and argues that this mismatch has caused the complex and paradoxical experiences and subjectivities of these women Given its scope the book is of interest to scholars students and researchers in the fields of sociology anthropology gender and development as well as a general audience looking to explore contemporary rural China Chinese Women - Living and Working Anne McLaren, 2005-08-05 Experts in gender politics media studies and anthropology discuss the impact of economic reform and globalization on Chinese women in family businesses management the professions the prostitution industry and domestic service Out to Work Arianne M. Gaetano, 2015-04-24 *Out to Work* is a fresh engaging account of the lives of a group of rural Chinese women who while still in their teens moved from villages to Beijing to take up work as maids office cleaners hotel chambermaids and schoolteachers By pursuing new opportunities afforded by migration and strategically applying accumulated knowledge and resources these women were able to forge

better lives for themselves and their families But as this book also makes clear broader social inequalities persist to make these women s futures precarious This book s unique approach offers readers an intimate look at the impact of labor migration on young women over a ten year period We follow Gaetano s informants as they adapt to Beijing visit their home villages and move on to new jobs and postmarital homes Gaetano does an excellent job showing how these young female migrants navigate constraints and challenges enhancing their own and their family s social and economic status Hong Zhang Colby College This fresh highly readable book demonstrates vividly how gender norms and rural urban inequalities not only shaped women s identities and aspirations but also had palpable physical and material consequences for them Yet despite the discrimination and hardship they experienced they were able to build better lives for themselves Gaetano s book convincingly shows that labor migration has increased many rural women s possibilities for exercising agency Rachel Murphy University of Oxford

Martin, 2004-07-09 China's accession to the WTO requires a great many specific policy reforms However if the best results are to be obtained it is important that these reforms be implemented as part of a consistent development program rather than simply by treating them as a recipe To do this policy makers must understand the range and nature of the policy changes required by accession their implications for the economy and the availability and effects of supporting policies China and the WTO analyzes the nature of the reforms involved in China's

accession to the WTO assesses their implications for the world economy and examines the implications for individual households particularly the poor Its key objective is to provide the information that will allow policy makers to implement WTO commitments and formulate supporting policies to contribute strongly to economic development and poverty reduction Individual chapters by leading scholars analyze the nature of the reforms in key areas such as agriculture services intellectual property and safeguards and anti dumping These chapters form the building blocks for later chapters which analyze the implications of reform for the economy The book also includes a series of studies that assess the implications for households taking into account the social safety net policies applying in China and the impacts of complementary policies in areas such as labor market reform and investments in human capital Of interest to policymakers academe and students studying international trade issues and to practitioners in the area of trade and development China and the WTO is a valuable addition to the wealth of information provided by the World Bank Trade and Development Series **Routledge Handbook of Chinese Culture and Society** Kevin Latham,2020-02-27 The Routledge Handbook of Chinese Culture and Society is an interdisciplinary resource that offers a comprehensive overview of contemporary Chinese social and cultural issues in the twenty first century Bringing together experts in their respective fields this cutting edge survey of the significant phenomena and directions in China today covers a range of issues including the following State privatisation and civil society Family and education Urban and rural life Gender and sexuality and reproduction Popular culture and the media Religion and ethnicity Forming an accessible and fascinating insight into Chinese culture and society this handbook will be invaluable to students and scholars across a range of disciplines including anthropology sociology area studies history politics and cultural and media studies *The Routledge Companion to Modernity, Space and Gender* Alexandra Staub,2018-03-09 The Routledge Companion to Modernity Space and Gender reframes the discussion of modernity space and gender by examining how modernity has been defined in various cultural contexts of the twentieth and twenty first centuries how this definition has been expressed spatially and architecturally and what effect this has had on women in their everyday lives In doing so this volume presents theories and methods for understanding space and gender as they relate to the development of cities urban space and individual building types such as housing work spaces or commercial spaces in both the creation of and resistance to social transformations and modern global capitalism The book contains a diverse range of case studies from the US Europe the UK and Asian countries such as China and India which bring together a multiplicity of approaches to a continuing and common issue and reinforces the need for alternatives to the existing theoretical canon On the Move Arianne M. Gaetano,Tamara Jacka,2004-03-10 This book explores the impact of migration on the identities values worldviews and social positions of migrant women in contemporary China based on original fieldwork as well as in depth research in multiple regions of China **Gender, Modernity and Male Migrant Workers in China** Xiaodong Lin,2013-07-18 Rural urban migration within China has transformed and reshaped rural people s lives during the past few

decades and has been one of the most visible phenomena of the economic reforms enacted since the late 1970s. Whilst Feminist scholars have addressed rural women's experience of struggle and empowerment in urban China, in contrast research on rural men's experience of migration is a neglected area of study. In response, this book seeks to address the absence of male migrant workers as a gendered category within the current literature on rural urban migration. Examining Chinese male migrant workers' identity formation, this book explores their experience of rural urban migration and their status as an emerging sector of a dislocated urban working class. It seeks to understand issues of gender and class through the rural migrant men's narratives within the context of China's modernization and provides an in-depth analysis of how these men make sense of their new lives in the rapidly modernizing post-Mao China with its emphasis on progress and development. Further, this book uses the men's own narratives to challenge the elite assumption that rural men's low status is a result of their failure to adopt a modern urban identity and lifestyle. Drawing on interviews with 28 male rural migrants, Xiaodong Lin unpacks the gender politics of Chinese men and masculinities and in turn contributes to a greater understanding of global masculinities in an international context. This book will be of great interest to students and scholars working in the fields of Chinese culture and society, gender studies, migration studies, sociology and social anthropology.
