Re Imagining Schools Selected Works Of Elliot Eisner:

Reimagining Schools Elliot W. Eisner, 2005 A chance to explore the contributions made to the fields of Arts Education Curriculum Studies and Qualitative Research by Professor Eisner who has spent forty years researching thinking and writing about some of the key and enduring issues

Reimagining Schools Elliot W. Eisner, 2005-11-16 Elliot Eisner has spent the last forty years researching thinking and writing about some of the enduring issues in arts education curriculum studies and qualitative research He has compiled a career long collection of his finest work including extracts from books key articles salient research findings and major theoretical contributions and brought them together in a single volume Starting with a specially written introduction which gives an overview of Eisner s career and contextualises his selection the chapters cover a wide range of issues including children and art the use of educational connoisseurship aesthetic modes of knowing absolutism and relativism in curriculum theory education reform and the ecology of schooling the future of education research

Understanding Neoliberal Rule in K-12 Schools Mark Abendroth, Brad J. Porfilio, 2015-06-01 The word fundamentalism usually conjures up images of religions and their most zealous followers Much less often the word appears in connection with political economy The phrase free market gives the connotation that capitalism is freedom Neoliberalism is the rise of global free market fundamentalism It reaches into nearly every aspect of our daily lives as it seeks to dominate and eliminate the last vestiges of public domains through wanton privatization and deregulation It degrades all that is public The good news is that a global community of resistance continues to struggle against neoliberal oppression Formal and informal education entities contribute to these struggles offering visions and strategies for creating a better future The purpose of this volume is twofold Several contributors will highlight how the neoliberal agenda is impacting educational policy formation teaching and learning and relationships between K 12 schools and communities Other contributors will highlight how the global community has gradually become conscious of the ideological doctrine and how it is responsible for human suffering and misery The volume is needed because the growing body of educational research linked to exploring the impact of neoliberalism on schools and society fails to provide conceptual or historical understanding of this ideology It is also an important scholarly intervention because it provides insights as to why educators scholars and other global citizens have challenged the intrusion of market forces over life inside K 12 schools Teacher educators schoolteachers and anyone who yearns to understand what is behind the debilitating trend of commercial forces subverting humanizing educational projects would benefit from this volume Activists educators youth and scholars who seek strategies and visions for building democratic schools and a society would consider this volume essential reading
