Among Women Nancy Sorkin Rabinowitz, Lisa Auanger, 2009-06-03 Women's and men's worlds were largely separate in ancient Mediterranean societies and in consequence many women's deepest personal relationships were with other women Yet relatively little scholarly or popular attention has focused on women's relationships in antiquity in contrast to recent interest in the relationships between men in ancient Greece and Rome The essays in this book seek to close this gap by exploring a wide variety of textual and archaeological evidence for women's homosocial and homoerotic relationships from prehistoric Greece to fifth century CE Egypt Drawing on developments in feminist theory gay and lesbian studies and queer theory as well as traditional textual and art historical methods the contributors to this volume examine representations of women's lives with other women their friendships and sexual subjectivity They present new interpretations of the evidence offered by the literary works of Sappho Ovid and Lucian Bronze Age frescoes and Greek vase painting funerary reliefs and other artistic representations and Egyptian legal documents

Roman Receptions of Sappho Thea S. Thorsen, Stephen Harrison, 2018-12-13 Sappho a towering figure in Western culture is an exemplary case in the history of classical receptions

There are three prominent reasons for this Firstly Sappho is associated with some of the earliest poetry in the classical tradition which makes her reception history one of the longest we know of Furthermore Sappho s poetry promotes ideologically challenging concepts such as female authority and homoeroticism which have prompted very conspicuous interpretative strategies to deal with issues of gender and sexuality revealing the values of the societies that have received her works through time Finally Sappho s legacy has been very well explored from the perspective of reception studies important investigations have been made into responses both to her as poet figure and to her poetry from her earliest reception through to our own time However one of the few eras in Sappho s longstanding reception history that has not been systematically explored before this volume is the Roman period The omission is a paradox Receptions of Sappho can be traced in more than eighteen Roman poets among them many of the most central authors in the history of Latin literature Surely few other Greek poets can rival the impact of Sappho at Rome This important fact calls out for a systematic approach to Sappho s Roman reception which is the aim of Roman Receptions of Sappho that focuses on the poetry of the central period of Roman literary history from the time of Lucretius to that of Martial

feminism emerges from a moment of acute crisis the Trump years and the Covid 19 pandemic Leila Easa and Jennifer Stager locate its foundations in history journeying through broad swatches of time looking for connections between the centuries through art and literature and culture Each chapter focuses on what public feminists do in the world Public feminists gain control over an archive that otherwise contains or excludes them they recover their own stories and subjective experiences sometimes for activist use they examine images and language that construct women in patriarchal texts they situate the individual within a collective and the collective within an individual they confront the limitations of such situating due to the containment of patriarchy and reclaim new systems of power in response and they resurface a deep history for the alternative strategies of memorializing they employ In navigating these practices the authors also attend to the material conditions of writing histories as well as those shaping and enabling public feminist acts and protests more broadly

Historical and Religious Memory in the Ancient World Beate Dignas, R. R. R. Smith, 2012-03-15

Historical and Religious Memory in the Ancient World examines how religious and historical memory was fashioned, distorted, preserved or erased in ancient societies and what wide ranging effects these actions had on the historical process. The volume is interested in how memory intersects with and shapes religious traditions and cultural identities. Its twelve case studies explore different aspects of the memory layers that make up ancient history: social, religious, cultural, and looks at how these layers are represented and refracted in different contexts of the written and material remains of antiquity. The process has its beginnings in the dim pasts of ancient communities and continues in the later Greek and Roman periods where our most articulate ancient evidence lies. It is a process that continues in a different way in contemporary scholarship which draws on selected evidence and a variety of contrasting representations. The three parts of the book vary the lens through which the impact of religious and cultural memory can be grasped. Part I looks at the commemoration of religious tradition in the context of cultural interaction: Greek, Roman, Jewish, and Christian. Part II focuses on how religious identities are defined and how homogenous looking cultures engage in elaborate selective dialogue with their own past. In Part III, contested versions of the past are interpreted in studies of Roman historiography and of religiously motivated behaviour in late antique Asia Minor. This interdisciplinary book highlights and celebrates the work of Simon Price, an important thinker and pioneer in this kind of wider historical research in ancient cultures and religions.
