*Re-visioning* Frances Louise Henry, Phyllis Luckenbach-Sawyers, 1985-01-01      **Handbook of Research and Policy in Art Education** Elliot W. Eisner, Michael D. Day, 2004-04-12 This work provides an overview of the progress that has characterized the field of research and policy in art education It profiles and integrates history policy learning curriculum and instruction assessment and competing perspectives      *Re-Visioning Terrorism* Elena Coda, Ben Lawton, 2016-01-15 *Re Visioning Terrorism A Humanistic Perspective* is an interdisciplinary collection of essays that aims to offer a plurality of visions on terrorism expanding its meaning across time and space and raising new questions that explore its multifaceted occurrences The different ideological philosophical and cultural perspectives emerging from the essays and the variety of humanistic disciplines involved intend to provide a complex and even contradictory picture that emphasizes the fact that there cannot be a univocal conception and response to terrorism in either the practical or the intellectual domain The editors borrow the concept of rack focus response from cinema to create an innovative and flexible interpretative approach to terrorism Rack focus refers to the change of focus of a lens so that one image can come into focus while another moves out of focus Though the focal distance changes the reality has not changed Both items and events coexist but given the nature of optics we can only see clearly one or the other This occurs not just with lenses but also with human perceptions be they emotional or intellectual The rack focus response requires that we try to shift focus from the depth of field that is absolutely clear and familiar to the other that is unclear and unfamiliar This exercise will lead us to reflect on terroristic events in a more nuanced nondogmatic and flexible manner The essays featured in this volume range from philosophical interpretations of terrorism to historical analysis of terror through the ages to cinematic artistic and narrative representations of terroristic events that are not limited to 9 11      *Soundscapes of Education* Wai-Chung Ho, Siu-Hang Kong, 2025-08-07 This book focuses on nurturing students creativity through the integration of music and other creative art forms It presents the soundscape as an immersive auditory environment that surrounds us capable of evoking emotions stimulating imagination and inspiring creative thought By actively engaging with the soundscape while listening to music or the sound environment individuals can enhance their creative experiences and discover new avenues for exploration and expression in teaching Additionally the book explores creativity within the soundscapes of diverse cultures broadening students perspectives while promoting cultural awareness empathy and interconnectedness The book pays particular attention to the Chinese community while considering its relevance in both Western and non Western contexts It emphasizes the influential role of teachers and the social environment in motivating creativity and creative behaviour risk taking and innovative problem solving skills The book also showcases a comprehensive programme with resources for facilitating creative music making providing detailed insights into how creativity can be effectively sustained stimulated and promoted within the education system
