super heroes but mostly children with normal abilities and talents who have succeeded thanks to highly effective work and strategies by leaders teachers and staff in their schools Whilst some of the obstacles which prevent disadvantaged children from achieving in education can only be removed through changing features of certain education systems themselves there are clear identifiable strategies to be used and actions that can be taken in any school to raise the achievement of those children from disadvantaged contexts After describing and analysing the causes and consequences of various kinds of disadvantage the book puts forward key principles and show how they underpin actions and strategies for leaders and others to apply in their schools at whole school classroom and individual level *Education and Training Policy ICT and Learning Supporting Out-of-School Youth and Adults* OECD,National Center on Adult Literacy,2006-05-12 This publication reveals a number of interesting examples of innovative programmes using ICT that can increase access to learning by out of school youths and adults
