

HOW TO USE THESE PAGES

The Read, Think, Write language arts program is designed to encourage and support middle and high schoolers as they read, think critically about, and respond to books. The activities in this program will help students develop critical thinking, vocabulary, literary analysis, creativity, communication, and writing skills.

In this program, you will find activities to lead your child in discussion, writing, art, speech and drama, all in response to books they read.

It does all of this while allowing you and your child to choose what books you read, what projects and writing you do, and the pace you do the work. This program is incredibly flexible, so that it meets your unique homeschool needs.

Because this program can be used with any type of literature, you won't find any boring worksheets that are used once and then never used again! Instead, the program is designed to give your kids ownership and choice over their learning, read books that excite and interest them, and learn how literacy skills apply to all books – not just the ones you need to read for a test or worksheet.

The activities can be used over and over, with different books, and at different abilities.
